

Global Optimal ex-UK

Life fund information as at 30 September 2009

Fund description

The Global Optimal ex-UK fund primarily invests in overseas equity, excluding UK and emerging markets. While UK equities are not in the benchmark, the fund may hold UK equities from time to time when the UK listed shares of an overseas company offer better value.

Life fund objective

The fund aims to achieve long term growth through active management of a diversified portfolio invested primarily in overseas equities.

Fund details

Fund type	Actively managed Global Equity, ex-UK, ex emerging markets fund (for exempt approved UK pension funds)
Benchmark	FTSE AW Developed World Index (ex UK)
Status	Unit Linked Insurance Fund

Performance is based upon the underlying net asset value (NAV) price of 'A' Units. 'A' Units do not incur any fees or charges levied by the manager.

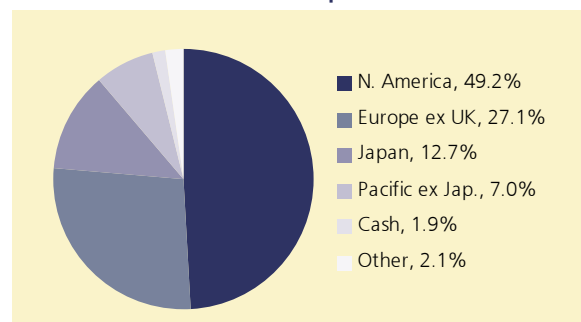

Past performance is not a guide to future performance. The value of investments and the income from them can go down as well as up and are not guaranteed. You may not get back the amount originally invested. Changes in rates of exchange may cause the value of this investment to fluctuate.

Unit price information is updated daily on our website at www.ubs.com/globalam-uk.
