

Integration of sustainability risk considerations in the Lantern remuneration policy

Introduction

In accordance with Regulation (EU) 2019/2088, this statement provides information as to how the remuneration policy for Lantern Structured Asset Management Limited ("Lantern") currently considers sustainability risk considerations in its remuneration process.

The statement is provided in relation to the following entities:

- LSAM SF 3 plc
- UBS (Irl) Fund Solutions Plc
- LSAM SF 4 plc
- Nineteen77 Global Multi-Strategy Alpha (EU) Limited

Lantern considers and monitors the ongoing sustainability-related regulatory change and confirms that at present it does not integrate sustainability risks in its investment decision-making process.

Due to the nature of the investment objective and policy of the products under management at Lantern (such products do not consider sustainability factors as a core part of their investment strategy), Lantern does not at this time consider the adverse impacts of its investment decisions on sustainability factors. Should the investment strategy of the products under management at Lantern in future change so as to consider sustainability factors as a core part of their investment strategy, at that point Lantern will then move to adopt a policy to consider the adverse impacts of its investment decisions on sustainability factors.
