Benefits

Clients benefit from the flexibility of an exchange-traded investment.

Provides access to this segment of the market with a single transaction.

Optimised risk/return profile thanks to a broad diversification across a range of countries and sectors.

The fund offers a high degree of transparency and cost efficiency.

UCITS compliant fund.

Risks

The fund delivers the return of a broadly diversified equity index and may therefore be subject to high fluctuations in value. For this reason, an investment horizon of at least five years and corresponding risk tolerance and capacity are required. The returns payable on the fund are dependant on payments received by the fund from the swap counterparty under the terms of the relevant swap and, therefore, are subject to the credit risk of the swap counterparty. In the event that the swap counterparty defaults under the terms of the relevant swap, the fund may suffer a loss. Every fund has specific risks, which can significantly increase under unusual market conditions. Sustainability risks are not considered as part of the Index selection process. Therefore, sustainability risks are not systematically integrated. The fund's assets are passively managed. As a result, the net asset value of the fund's assets is materially dependent on the performance of the underlying investments. Losses that could be avoided via active management will not be offset.
