Risks

This UBS Exchange Traded Fund invests primarily in equities, which are included in the MSCI Pacific SRI Low Carbon Select 5% Issuer Capped Total Return Net Index. Investors require a corresponding risk tolerance and capacity. All investments are subject to market fluctuations. Every fund has specific risks, which may significantly increase under unusual market conditions. Sustainability characteristics and risks are considered as part of the Index selection process. The fund's assets are passively managed. As a result, the net asset value of the fund is directly dependent on the performance of the underlying index. Losses that could be avoided via active management will not be offset.
