

# Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

## UBS (Lux) Equity SICAV - Global Income (USD), class (CHF hedged) K-1-acc (ISIN: LU1032915008), CHF

a sub-fund of UBS (Lux) Equity SICAV

This subfund is managed by UBS Fund Management (Luxembourg) S.A.(the "Management Company"), a company of the UBS AG.

## Objectives and investment policy

This sub-fund invests its assets primarily in stocks and other equity shares of small, medium and large-cap companies in developed and emerging markets.

The objective of the investment strategy is to generate an above-average equity yield relative to that of the global equity market. Equity yield can stem from dividends, call option premiums and other sources. This actively managed fund makes investments that are broadly diversified across sectors and countries. The portfolio manager's investment decisions are based on thorough analysis and a systematic investment process.

In principle, investors may ask the Management Company to redeem their units on any business day in Luxembourg.

Income of this share class is reinvested.

This share class is currency-hedged meaning that, using derivatives, the base currency of the fund is to a large extent hedged into the share class' currency.

The sub-fund may invest in China A-Shares via the Hong Kong - Shanghai Stock Connect programme ("Stock Connect").

## Risk and reward profile

### More about the risk category

- The risk category is based on the estimated future volatility of the fund. The method used for this estimate depends on the fund type and historical data.
- Historical performance is not a reliable indicator for future performance.
- The risk category allocated is not static and may vary over time.
- Allocation to the lowest risk category does not mean that an investment in this fund is free of risk.

### Why is the fund in this category?

- The fund is in risk category 5 because the volatility of its returns is high. The fund invests in equities and may therefore be subject to high volatility. This requires an elevated risk tolerance and capacity. The value of a unit may fall below the purchase price.

### Further material risks

- The fund may use derivatives which can reduce investment risks or increase risks (a.o. risk of failure of a counterparty).
- Investments via Shanghai Stock Connect are subject to additional risks, in particular quota limitations, custody risk, clearing/settlement risk and counterparty risk.
- This fund pursues a very active management style. Its performance may therefore deviate considerably from that of the benchmark index.
- Every fund reveals specific risks, a detailed and comprehensive list of risk descriptions can be found in the prospectus.

## Charges

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

### One-off charges taken before or after you invest

|                |       |
|----------------|-------|
| Entry charge   | 3.00% |
| Exit charge    | 0.00% |
| Conversion fee | 3.00% |

This is the maximum that might be taken out of your money before it is invested / before the proceeds of your investment are paid out.

### Charges taken from the fund over a year

|                 |       |
|-----------------|-------|
| Ongoing charges | 1.25% |
|-----------------|-------|

### Charges taken from the fund under certain specific conditions

|                 |      |
|-----------------|------|
| Performance fee | none |
|-----------------|------|

The **entry charge** shown is a maximum figure. In some cases you might pay less – you can find this out from your financial adviser.

The **ongoing charges** are estimated in the absence of historical data or when the calculated figure is considered unsuitable because of a material change. As soon as available or suitable, the calculated ongoing charges are reported and may differ from the estimate. They generally exclude:

- Portfolio transaction costs, except in the case of an entry/exit charge paid by the fund when buying or selling units in another collective investment undertaking.

For more information, please see the charges section of the fund's prospectus, which is available at [www.ubs.com/funds](http://www.ubs.com/funds).

## Past performance

The class was launched in 2016. The fund was launched in 2014
