

UBS Asset Management Australia

The facts and figures

About us

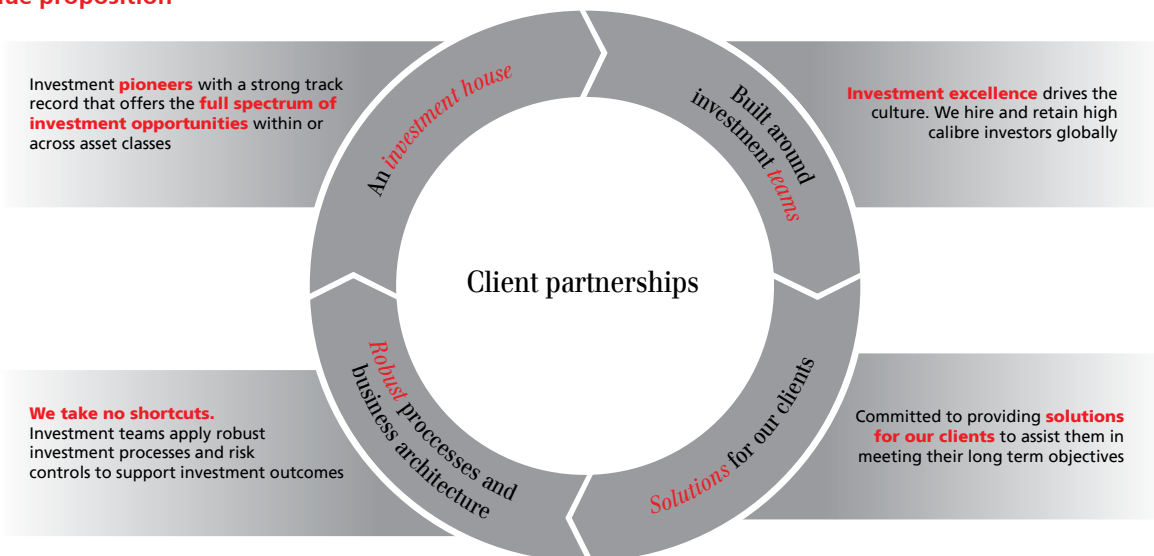

UBS Asset Management in Australia provides a comprehensive range of investment styles and strategies to institutional investors, intermediaries and retail investors. Drawing on its 30-year heritage, UBS Asset Management strives to deliver outcome-orientated investment solutions for our clients, underpinned by a team-based approach and disciplined risk management.

With \$48 billion¹ of invested assets in Australia and approximately 65 employees located locally, UBS is one of the largest global asset management businesses in the Australian market.

Globally, with approximately \$979 billion¹ of invested assets under management and approximately 3,600 employees located in 23 countries, UBS Asset Management is a truly global asset manager.

It takes many elements to build successful investment portfolios: a disciplined investment philosophy, world-class fundamental research, rigorous risk management and a diversified investment offering. These are the hallmarks of UBS Asset Management.

Our value proposition

Breadth of single and integrated solutions

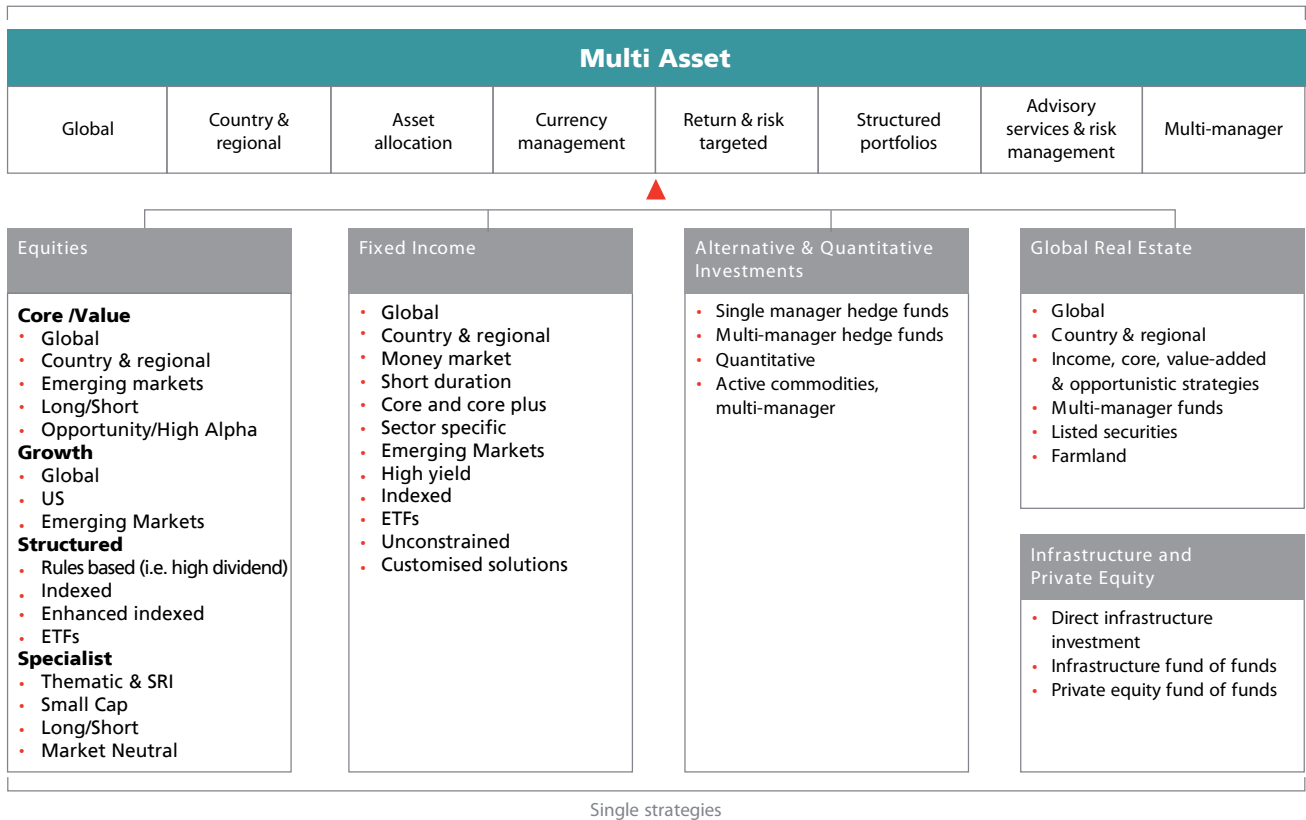

The UBS Asset Management investment model is built around six distinct investment areas designed to deliver leading investment capabilities across asset classes.

- **Multi Asset solutions** offer active asset allocation, currency, multi-manager structured solutions, risk advisory and strategic investment advisory services.
- **Equities** offer a broad range of strategies across the full spectrum of investment styles with varying risk and return objectives.
- **Fixed Income** offer a diverse range of global, regional and local market based investment strategies that cover a wide range of benchmarks.
- **Alternative and Quantitative Investments** offer clients access to multi-manager (or fund of funds) and single manager hedge fund strategies.
- **Global Real Estate** actively manages investments globally and regionally within Asia, Europe and the US, across all major sectors.
- **Infrastructure and Private Equity** manages direct and multi-manager (fund of funds) strategies, including direct investments in infrastructure assets globally, as well as constructing portfolios of infrastructure and private equity funds operated by third-party managers.

¹ As of 30 September 2017.
