Important Information

UBS Asset Management (Australia) Ltd is the responsible entity and the issuer of this PDS. No other member of the UBS group makes any statement or representation in this document. An investment in this Fund is not a deposit with or other liability of UBS AG or of any other UBS group company in Australia or elsewhere and is subject to investment risk including possible delays in repayment and loss of income or principal invested. Neither UBS AG, UBS Asset Management (Australia) Ltd nor any other UBS group company guarantees the performance of the Fund, the repayment of capital from the Fund or any particular rate of return. The offer in this PDS is an invitation only and UBS Asset Management (Australia) Ltd is not bound to accept an application for units in the Fund. Some terms used in this PDS have special meanings. They are generally defined in this PDS. Other capitalised terms may be defined in the UBS Additional Information Booklet, which is accessible at ubs.com/am-australia

Information subject to change

Information relating to the Fund and this PDS may change from time to time. Where the change is not materially adverse to an investor, this information may be updated and made available to you on our [website](https://ubs.com) or by contacting us on (03) 9046 4041 or freecall 1800 572 018 or by contacting your IDPS operator. A paper copy of any updated information is available free on request. If a change is considered materially adverse, we will issue a replacement PDS.

This Product Disclosure Statement ('PDS') is a summary of significant information and contains a number of references to important information in the UBS Additional Information Booklet (the relevant sections of which form part of this PDS).

You should consider both the information in this document, and the information referred to in the UBS Additional Information Booklet, before making a decision about investing in the UBS Global Dynamic Bond Fund ('Fund').

The information provided in this PDS is general information only and does not take account any of your objectives, financial situation or needs. You should obtain financial advice tailored to your personal circumstances prior to investing.

Target Market Determination

UBS Asset Management (Australia) Ltd has issued a target market determination ('TMD') which, among other things, describes the class of consumers for whom this product is likely to be consistent with their likely objectives, financial situation and needs. The TMD for this product can be obtained from the UBS Asset Management [website](https://ubs.com) or by contacting UBS Client Services as outlined in section 8 of this PDS.

Information incorporated by Reference

The Corporations Act 2001 (Cth) ("**Corporations Act**") allows us to provide certain information to you separately to this PDS. Where you see references to "Additional information incorporated by reference" additional information concerning the topic has been incorporated by reference and forms part of the PDS. This information can be found in the UBS Additional Information Booklet available on request from your IDPS operator (if applicable), or from us by calling 1800 572 018, or from our [website](https://ubs.com).

1. About UBS Asset Management (Australia) Ltd

UBS Asset Management (Australia) Ltd

UBS Asset Management (Australia) Ltd ('Responsible Entity', 'RE', 'we' or 'us') is a wholly owned subsidiary of UBS Group AG. UBS Asset Management, a business division of UBS Group AG, is a large-scale asset manager with businesses well-diversified across regions, capabilities, and distribution channels. It has invested assets of some US\$1,117 billion and is located in 23 countries as at 31 March 2023. The Responsible Entity was established in Australia in 1986 and had invested assets of approximately A\$57 billion as at 31 March 2023.

As Responsible Entity, our responsibilities and obligations are governed by the Fund's constitution ('Constitution'), the Corporations Act and general trust law.

We are solely responsible for the management of the Fund however, we reserve the right to outsource any or all investment, management and administration functions, including to related parties, without notice to investors.

2. How UBS Global Dynamic Bond Fund works

About the Fund

The Fund is a registered managed investment scheme structured as a unit trust. Investors are issued with units which entitle them to an interest in the Fund's assets and other rights and obligations as described in the Constitution. Assets are acquired in accordance with the Fund's investment strategy. You can invest in the Fund either directly or indirectly through investor directed portfolio services, IDPS-like schemes, nominee or custody services typically known as wrap accounts or master trusts (collectively referred to as 'IDPS' in this PDS).

Unit Classes

The Responsible Entity has the ability under the Constitution to issue different classes of units in the Fund. This PDS is for the issue of the "Retail Class (Hedged)" (APIR: UBS7109AU) of units in the Fund. The Responsible Entity has created and may in the future create other classes of units and must treat unitholders in different classes fairly.

The units in each class generally have the same rights, however the management fees and costs and other features for each class may vary and a separate unit price is determined for each class. The class of units issued to an investor is determined by the specific class for which the investor applies when completing the application form.

Eligible investors

The offer to which this PDS relates is only available to persons receiving the PDS (electronically or otherwise) within Australia unless expressly authorised by us in writing. The offer does not constitute an offer or invitation in any place in which, or to any person to whom, it would be unlawful to make such an offer or invitation.

Neither the Fund nor this PDS have been registered under the laws of any jurisdiction outside Australia. Units in the Fund may not be offered or sold in the United States of America or to 'U.S. Persons' (as defined in 'Regulation S' of the Securities Act of 1933, as amended), and this PDS is not for use in, and may not be delivered to or inside, the United States of America. See the UBS Additional Information Booklet for more information.

Direct and Indirect Investors

Direct investors are recorded in the Fund's register as the unit holder when they invest. Investors investing through an IDPS, or platform can access the Fund as indirect investors but will not become a unit holder of the Fund. The IDPS operator or custodian will be recorded in the Fund's register as the unit holder and will be the only entity able to exercise the rights and receive the benefits of a unit holder. For example, indirect investors cannot attend meetings of members or transfer units in the Fund.

Reports, transaction confirmations, distribution and withdrawal payments will be sent directly to the IDPS operator or custodian on the register. If you are an indirect investor, most issues and queries relating to your investment must be directed to your IDPS operator or custodian.

Transacting in the Fund

Apply via application form

You can make an initial or additional application for units in the Retail Class (Hedged) by completing the application form available from your adviser or available on our [website](#) ('Application Form'). If you are investing through an IDPS, contact your IDPS operator who will provide you with the documentation it requires you to complete. Applications for units in the Fund are subject to cut-off times and applicable unit prices. See section 2 of the UBS Additional Information Booklet for more information.

Minimum investment amounts

The minimum initial investment amount in the Fund is \$50,000. If you invest through an IDPS or platform, you should consult your IDPS or platform operator to find out the minimum amount you can invest in the Fund.

Additional investment

The minimum additional investment amount is \$1,000.

Withdrawals

You can apply to withdraw all or part of your investment at any time, subject to the Fund being liquid. Withdrawal requests are subject to cut-off times and unit prices determined at applicable valuation times. If you are investing through an IDPS, your IDPS operator will provide you with information about withdrawals and any additional requirements. Withdrawal requests will usually be processed within 6 Business Days from when you make a request to us, or if you invest through an IDPS or platform, the withdrawal proceeds will usually be processed for the IDPS or platform operator within 6 Business Days from when your IDPS or platform operator lodges a withdrawal request. Significantly longer periods may apply from time to time such as when there is a freeze on withdrawals such as during restricted or suspended trading or extreme price fluctuation or uncertainty in the market for the assets of the Fund. In addition, if we estimate at a valuation time that we have received total withdrawal requests exceeding 5% of the total number of units on issue, we may defer a proportion of each request on a pro rata basis so that each redeeming unitholder receives redemption proceeds based on prices determined at successive valuation times.

Prices

The net asset value of the Fund (as defined in the Constitution) is normally determined at least once on each Business Day. The price of units in each class is based on the net asset value of the Fund's assets and liabilities referable to the class, adjusted for transaction costs (i.e. the buy or sell spread) and will vary as the market value of assets in the Fund rises or falls. As at the date of this PDS: for the Retail Class (Hedged), the buy spread is 0.20% and the sell spread is 0.20%.

Distributions

Distributions are typically paid to you (or your IDPS or platform operator) every three months as soon as practicable after the end of the distribution period (and in any event, within three months of the end of the relevant distribution period). In addition to any scheduled distributions, we may pay a distribution at any time and for any reason. Prior notice of special distributions may or may not be provided.

The Fund may earn income from its various investments which it will distribute if the Responsible Entity determines that the amount of the income is sufficient to justify a distribution.

Capital or revenue gains or losses can occur on the sale of investments within the Fund. As a result, distributions determined by the RE may vary from period to period. Generally, all taxable income and realised taxable capital gains in a financial year will be distributed to unitholders. The Responsible Entity may also distribute capital.

The share of any income you (or your IDPS or platform operator) receive depends on the number of units in the class held in the Fund at the end of the distribution period. The amount may vary with each distribution and unit prices normally fall following a distribution.

If you or your IDPS or platform operator invests just prior to a distribution, you may receive some of your investment back immediately as income. If you withdraw from the Fund just before a distribution, you might turn accrued income into a capital gain or a reduction in your capital losses as the withdrawal proceeds might reflect a share of the income for the period.

Additional Information Incorporated by Reference

You should read the important information about acquiring and disposing of interests in the Fund before making a decision. Go to sections 2 and 4 of the UBS Additional Information Booklet available on request from your IDPS operator (if applicable), from us by calling 1800 572 018, or from our [website](#).

The material relating to acquiring and disposing of interests may change between the time when you read this Statement and the day when you acquire the product.

3. Benefits of investing in UBS Global Dynamic Bond Fund

By investing in the Fund, you gain access to an unconstrained, actively managed and globally diversified portfolio of both investment grade and high yield fixed income securities. An "investment grade" security means a security rated as investment grade (BBB-/Baa3 or higher) by a licensed credit rating agency selected by the Responsible Entity. The Fund obtains its investment exposure by investing into UBS Funds domiciled in Luxembourg.

The significant benefits and features of investing in the Fund are:

Active management

The Fund is actively managed and seeks to provide attractive total returns, consisting of income and capital growth, by investing in global fixed income securities. The Fund offers a flexible approach to fixed income investing while actively managing its duration exposure.

Diversification

As a fixed income strategy, the Fund may offer risk and return diversification benefits when part of a broader portfolio that includes an allocation to other asset classes. The Fund offers diversified exposure by country, sector and investment strategies within the fixed income investment universe.

Research resources

UBS Asset Management has a large, experienced fixed income team managing over USD\$320 billion (as at 31 March 2023) globally, specialised in managing global fixed income portfolios.

Processes & systems

UBS Asset Management has access to the broader UBS group including its proprietary investment and risk management systems and processes which ordinary investors would not usually have, allowing us deeper insights at the security level and an opportunity to maximise returns.

Additional Information Incorporated by Reference

You should read the important information about benefits and features of the Fund before making a decision. Go to section 3 of the UBS Additional Information Booklet available on request from your IDPS operator (if applicable), from us by calling 1800 572 018, or from our [website](#).

The material relating to benefits and features may change between the time when you read this Statement and the day when you acquire the product.

4. Risks of managed investment schemes

All investments carry risk

It is important to be aware that all investments carry risk. Different strategies for investing may carry different levels of risk, depending on the assets that make up the strategy. Assets with the highest long-term returns may also carry the highest level of short-term risk. When considering investing in a managed investment scheme, it is important to understand the level of risk for you, which will vary depending on a range of factors, including age, investment time frames, where other parts of your wealth are invested, and your risk tolerance (that is, how prepared you are to lose money you have invested and the impact such loss will have on you).

The value of an investment may move up or down, sometimes rapidly and unpredictably. You may receive less than the value of your original investment when you withdraw from the Fund.

Returns are not guaranteed, the level of returns will vary, and future returns may differ from past returns.

In addition, changes in the legal, regulatory and tax environment, economic conditions, political events, investor sentiment and market variables such as interest rates, inflation, exchange rates and equity indices can all directly or indirectly influence the value of your investments.

Summary of significant risks of the Fund

Some of the risks associated with an investment in the Fund are listed below. They are not a complete set of all risks associated with investing in the Fund.

Foreign investment risk

Additional risks may arise when investing overseas, including changes in foreign exchange control regulations, foreign tax legislation and withholding tax and government policy. Additionally, differences in accounting, legal, securities trading and settlement procedures can also impact on the value of a Fund's investment.

Credit risk

The issuer of a credit instrument (debt securities and deposits) may fail to meet its obligation to repay the principal or the interest payments. The value of the Fund will be affected by the perceived or actual creditworthiness of the Fund's investments. A perceived or actual deterioration of the credit quality of one or more securities in the Fund (which may be associated with a credit rating downgrade, or a perceived risk of a downgrade) will likely adversely impact the value of such securities and, as a result, the value of the Fund. The debt securities held by the Fund generally rank, in respect of the order of payment on a default of the issuer, behind secured debt (if any) and any other mandatorily preferred obligations (e.g. tax and employee payments and certain other obligations such as bank deposits or protected accounts).

Although the Fund's portfolio invests in both "investment grade" and high yield securities, credit ratings merely reflect the rating assigned by the credit rating agency to represent the issuer's creditworthiness (its ability to make interest repayments and repay the principal amount borrowed), and do not provide any assurance regarding the bond issuer's ability to meet its payment obligations in relation to a bond. Credit ratings are not intended to be an investment recommendation or used as a basis for assessing investment merit. They are limited in scope and may be changed or withdrawn at any time. Higher rated borrowers with an "investment grade" rating generally allow companies to pay lower interest rates on their debt when compared with lower rated borrowers. Credit ratings are intended to be used by wholesale investors only and should not be relied on by retail investors when making a decision about an investment in the Fund.

Interest rate risk

Changes in interest rates may affect, directly or indirectly, investment values or returns.

Portfolio management risk

This is an actively managed portfolio that is not managed to a benchmark. There is a risk that the investment techniques and risk analysis employed by our portfolio management team in making investment decisions for the Fund will not produce the desired results. Additionally, the Fund could be adversely affected by material changes to the resources and skills of our portfolio management team.

Liquidity risk

Assets held by the Fund may not be able to be readily sold. The fixed income market is largely 'over the counter', meaning most instruments are not traded on an exchange. They are traded bilaterally with a counterparty and in some market conditions, there may not be a counterparty willing to buy or sell an asset of the Fund at fair value (or at all).

Derivative risk

Derivatives may be used to gain or reduce exposure to markets as well as to manage risk. Fluctuations in the price of a derivative may reflect movements in the underlying assets, reference rate or index to which the derivatives relate. The use of derivative positions to hedge the risk of physical securities may involve 'basis risk', which refers to the possibility that the derivative positions may not move perfectly in line with the physical security. As a consequence, the derivative position cannot always be expected to perfectly hedge the risk of the physical security. Derivative holdings may result in notional exposures that are greater than the underlying value of assets in the Fund. The Underlying Fund is anticipated to be leveraged through the use of derivatives. The anticipated net exposure level of the Underlying Fund taking into account leverage by way of derivatives is between 200%-300% of the net asset value of the Underlying Fund.

Counterparty risk

A counterparty (such as a party to a derivative contract) may fail to perform contractual obligations, either in whole or in part.

Fund of Fund risk

The investment performance of the Fund investing in other funds is affected by the investment performance of the underlying funds in which the Fund invests. Through its investment in the underlying funds, the Fund is subject to the risks of the underlying funds' investments and subject to the underlying funds' expenses. The Prospectus for the Underlying Fund includes important additional information regarding the risks faced by investors in the Underlying Fund, which are also relevant to an investment in the Fund. You can request a copy of the Underlying Fund prospectus by contacting Client Services on (03) 9046 4041.

Regulatory & tax risk

Changes in the legal or regulatory environment, taxation or other relevant laws (including laws affecting registered managed investment schemes), or interpretation or administration of those laws could have adverse implications on the investment or on you as a unit holder.

Hedging & currency risk

Currency movements relative to the Australian dollar can cause changes in the value of your investments. Whilst the Underlying Fund normally seeks to hedge currency risk associated with any investments denominated in a foreign currency, the Underlying Fund may invest in strategic foreign currency exposures (Unhedged) to a maximum of 40% of its total value. The Underlying Fund may be under or over-hedged from time to time.

5. How we invest your money

Fund description

The Fund will serve as a “feeder fund”. That is, the Fund will invest substantially all of its assets in an Australian Dollar (AUD)-Hedged, Institutional, quarterly distributing share class of the UBS (Lux) Bond SICAV – Global Dynamic USD (ISIN: LU2561993515) (“Underlying Fund”).

UBS Global Dynamic Bond Fund - Characteristics

Investment return objective

The Fund aims to generate a total return broadly in line with global fixed income markets over the medium term through its investment in the Underlying Fund.

Investor Suitability

The Fund is intended to be suitable for investors with at least a five year investment timeframe and with a medium risk and return profile. More specifically, the Fund is intended to be suitable for investors who wish to participate in the growth and yield potential of global fixed-income securities markets by means of diversification.

Refer to the Fund’s TMD which can be obtained from our [website](#) or by contacting UBS Client Services as outlined in section 8 of this PDS for further information about the classes of investors whose objectives, financial situation and needs are likely to align with the Fund’s key attributes.

Investment guidelines

The Fund invests substantially all of its assets into the Underlying Fund.

| Eligible Investments | Range (%) |
|---|-----------|
| UBS (Lux) Bond SICAV – Global Dynamic USD | 90 – 100 |
| Cash | 0 – 10 |

The Fund will hold cash for the purposes of managing applications, redemptions and distributions.

Performance Benchmark

Bloomberg Global Aggregate Bond Total Return Index (\$A Hedged).

While, as noted elsewhere in this PDS, the Fund is not managed to a benchmark, from time to time the Fund’s performance will be presented as a comparison to, and measured against, the performance of the Benchmark. The Responsible Entity considers the Benchmark to be a useful comparison given similarity of underlying investment exposures.

Suggested minimum investment timeframe

At least five years.

Risk level of the Fund

The Fund is a medium risk investment. The Responsible Entity has made this assessment having regard to a range of factors and guidance, including the Standard Risk Measure classification system (SRM). Please refer to section 11 of the UBS Additional Information Booklet for more information. Some of the significant risks associated with this investment are set out in section 4 of this PDS.

Labour standards and environmental, social, and ethical considerations

The Responsible Entity’s assessment of economic and valuation criteria for selecting, retaining, or realising an investment could be informed by a number of factors (including those outlined as ESG Characteristics in the UBS Additional Information Booklet), which might include labour standards or ESG considerations or ethical considerations.

The Responsible Entity may still invest in securities with a higher ESG risk profile where it believes the potential return outweighs the risks identified. UBS Asset Management is an Investment Management signatory to the Principles for Responsible

Investment (PRI). The ESG characteristics of the Fund are subject to change. For the most up to date information please refer to the UBS Additional Information Booklet for details of the UBS Sustainability Exclusion Policy.

Additional Information Incorporated by Reference

You should read the important information about ESG Characteristics before making a decision. Go to section 10 of the UBS Additional Information Booklet available on request from your IDPS operator (if applicable), from us by calling 1800 572 018, or from our [website](#). The material relating to ESG Characteristics may change between the time when you read this Statement and the day when you acquire the product.

Underlying Fund - Characteristics

Investment Thesis

The Underlying Fund’s investment thesis seeks to invest into global bond markets while managing the overall portfolio risk. The Underlying Fund is not managed to a benchmark. The investment process seeks to spread capital across fixed income investment strategies that offer the best opportunities at any given time and on any given market or sector. It is anticipated that the exposure to worldwide bond and currency markets may change over time at the discretion of the Portfolio Manager.

The Underlying Fund invests in different types of fixed-income securities, including government, corporate, high-yield, emerging market and convertible bonds as well as Asset Backed Securities (ABS), Retail and Commercial Mortgage-Backed Securities (RMBS, CMBS), Collateralised Debt Options and Collateralised Loan Obligations.

The Underlying Fund’s investment team follows an investment process consisting of four stages, combining top-down and bottom-up analyses. The Underlying Fund’s Investment Thesis may be changed on notice to Underlying Fund members.

Investment guidelines

The Underlying Funds’ investment guidelines outline the eligible investment ranges and limits within which the Underlying Fund seeks to deliver on its stated investment objective. The Underlying Fund is not managed to a benchmark.

| Eligible Investments – Underlying Fund | Range (%) |
|--|---------------|
| Government bonds | 0 – 100 |
| Investment grade corporate bonds | 0 – 100 |
| Combined exposure to other sectors: | 0 – 50 |
| Securitised assets | 0 – 30 |
| Non-Agency RMBS/CMBS/ABS | 0 – 10 |
| High Yield Corporates | 0 – 25 |
| Emerging Market Securities | 0 – 25 |
| Convertibles | 0 – 10 |

Derivative strategies are seen as key to achieving the investment objectives of the Underlying Fund. The overall portfolio Option Adjusted Duration shall be between 0 and 10 years.

The Underlying Fund will maintain a minimum rating profile of:

| Minimum rating requirements* | Range (%) |
|---|-----------|
| Securities or money market instruments with an investment grade credit rating (BBB- or above) | 50 – 100 |
| Non-Investment Grade (high yield) securities or money market instruments | 0 – 50 |

* The average credit rating of the portfolio shall be equal to or above BBB- (calculated using a linear scale). In the event of a conflict between ratings, the highest rating of three external rating agencies utilised by UBS Globally will be used to determine a security’s rating. If only two agencies rate a security the highest rating will be used. If a security is not rated by any of these agencies, the UBS Asset Management internal rating may be applied.

Currency Positioning

The Underlying Fund's functional currency is USD with a default currency position of "USD Hedged", that is the Underlying Fund's assets and exposures are generally hedged to the US dollar.

While the Underlying Fund normally seeks to hedge currency exposure to USD, it may invest in strategic foreign currency exposures (unhedged, non-USD currencies) up to 40% of the Underlying Fund's net asset value. Typically the Underlying Fund's unhedged exposures do not exceed 10% of the Underlying Fund's net asset value.

The AUD hedged share class of the Underlying Fund in which the Fund invests, implements an Australian Dollar hedge based on its USD denominated net asset value. As a result investors in the Fund will be exposed to the strategic unhedged positions of the Underlying Fund as well as any mismatches between the Underlying Fund's ability to hedge the AUD and USD exposure of the Underlying Fund's assets.

WARNING: When choosing an option to invest in, you should consider the likely investment return, the risk, and your investment timeframe.

6. Fees and costs

Did you know?

Small differences in both investment performance and fees and costs can have a substantial impact on your long-term returns.

For example, total annual fees and costs of 2% of your investment balance rather than 1% could reduce your final return by up to 20% over a 30-year period (for example reduce it from \$100,000 to \$80,000). You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You may be able to negotiate to pay lower fees. Ask the fund or your financial adviser.

To find out more

If you would like to find out more, or see the impact of the fees based on your own circumstances, the **Australian Securities and Investments Commission (ASIC)** Moneysmart website (www.moneysmart.gov.au) has a managed funds fee calculator to help you check out different fee options.

Fees and costs summary

This section shows fees and other costs that you may be charged. These fees and costs may be deducted from your money, from the returns on your investment or from the assets of the managed investment scheme as a whole. Taxes are set out in another part of this document. You should read all the information about fees and costs because it is important to understand their impact on your investment.

The information in the tables below can be used to compare costs between different simple managed investment schemes. Fees and costs can be paid directly from your account or deducted from investment returns (i.e. the Fund's assets).

| UBS Global Dynamic Bond Fund – Retail Class (Hedged) | | |
|--|--|---|
| Type of fee or cost ¹ | Amount | How and when paid |
| Ongoing annual fees and costs² | | |
| Management fees and costs The fees and costs for managing your investment ^{3, 5} | 0.62% p.a. Comprising: Management fee of 0.60% Indirect costs of 0.02% | The Fund's management fee is calculated in relation to the NAV of the class on a daily basis. This cost is deducted from the Fund's assets and is generally paid to us monthly in arrears. Management fees and costs include indirect costs of 0.02%. |
| Performance fees Amounts deducted from your investment in relation to the performance of the product | Nil | Not applicable |
| Transaction costs The costs incurred by the scheme when buying or selling assets | 0.00% ⁴ | Transaction costs that are not recovered from the buy-sell spread ('net transaction costs') reduce returns and are reflected in the Fund's unit price. |

| Member activity related fees and costs (fees for services or when your money moves in or out of the scheme) | | |
|---|---------------------------|---|
| Establishment fee The fee to open your investment | Nil | Not applicable |
| Contribution fee⁵ The fee on each amount contributed to your investment | Nil | Not applicable |
| Buy-sell spread⁶ An amount deducted from your investment representing costs incurred in transactions by the scheme | BUY: 0.20% SELL: 0.20% | Estimated transaction costs are allocated when an investor buys or sells units in the Fund by applying a buy-sell spread on the Fund's entry and exit unit prices for the class, where appropriate. |
| Withdrawal fee⁵ The fee on each amount you take out of your investment | Nil | Not applicable |
| Exit fee⁵ The fee to close your investment | Nil | Not applicable |
| Switching fee The fee for changing investment options | Nil | Not applicable |

1 - Unless otherwise stated, all fees and costs are quoted inclusive of GST and net of any input tax credits ('ITCs') or reduced input tax credits ('RITCs') that are expected to be available to the Fund and are shown without any other adjustment in relation to any tax deduction available to the responsible entity.

2 - All estimates of fees in this section are based on information available as at the date of this PDS and reflects UBS's reasonable

estimates of the relevant costs for the 12-month period derived from costs to date in the current financial year.

3 - The amount of this fee can be negotiated, rebated or waived in whole or in part for certain direct investors such as IDPS operators, sophisticated or professional investors, or wholesale clients, as defined in the Corporations Act, depending on factors such as the amount invested. See further information in the Additional explanation of fees and costs in the Additional Information Booklet about how fees may be negotiated.

4 - The transaction costs disclosed in this fees and costs summary are shown net of any recovery received by the Fund from the buy/sell spread charged to transacting unitholders.

5 - This fee includes an amount payable to an adviser.

6 - In estimating the buy-sell spread, it has been assumed that the applications or withdrawals are made during normal market conditions, as in times of stressed or dislocated market conditions (which are not possible to predict) the buy-sell spread may increase significantly and it is not possible to reasonably estimate. Current buy-sell spreads are available on our [website](#). Refer to section 5, 'More detailed information about fees and costs' in the 'Additional Information to the PDS' for further details.

Example of annual fees and costs

This table gives an example of how the ongoing annual fees and costs for the Fund can affect your investment over a 1-year period. You should use this table to compare this product with other products offered by managed investment schemes.

| EXAMPLE – UBS Global Dynamic Bond Fund - Retail Class (Hedged) ¹ | | Balance of \$50,000 with a contribution of \$5,000 during year |
|--|-------|--|
| Contribution Fees | Nil | For every additional \$5,000 you put in, you will be charged \$0. |
| PLUS Management Fees and Costs | 0.62% | And , for every \$50,000 you have in the UBS Global Dynamic Bond Fund - Retail Class (Hedged) you will be charged \$310 each year. |
| PLUS Performance Fees | Nil | And , you will be charged or have deducted from your investment \$0 in performance fees each year. |
| PLUS Transaction Costs | 0.00% | And , you will be charged or have deducted from your investment \$0 in transaction costs. |
| EQUALS Cost of UBS Global Dynamic Bond Fund (Retail (Hedged) Class)* | | If you had an investment of \$50,000 at the beginning of the year and you put in an additional \$5,000 during that year, you would be charged fees and costs in the range of: \$310* What it costs you will depend on the investment option you choose and the fees you negotiate. |

*Additional fees may apply.

Establishment fee – nil

And, if you leave the managed investment scheme early, you may also be charged exit fees of nil of your total account balance (nil for every \$50,000 you withdraw).

1 – The example of annual fees and costs outlined above relate specifically to the Retail Class (Hedged) of the Fund (APIR: UBS7109AU). What it costs you will depend on the investment option you choose and the fees you negotiate. The example is illustrative only.

The Australian Securities and Investments Commission ('ASIC') provides a managed funds calculator on its MoneySmart website (www.moneysmart.gov.au) which can be used to calculate the effect of fees and costs on account balances.

Additional explanation of fees and costs

Changes to fees and costs

All fees can change without the investor's consent, up to the maximum fee amounts specified in the Constitution. Direct investors will be given 30 days' prior notice of any increase in fees. If you are investing through an IDPS, your IDPS operator will be given 30 days' prior notice of any increase in fees.

Maximum fees

The maximum fees that UBS Asset Management (Australia) Ltd. is entitled to charge are set out in the Constitution. The maximum management fee for the Fund under the Constitution is 1% (plus GST and less any RITCs) per annum of the net asset value of the Fund.

Additional Information Incorporated by Reference

You should read the important information about fees and costs in the Fund before making a decision. Go to section 5 of the UBS Additional Information Booklet available on request from your IDPS operator (if applicable), from us by calling 1800 572 018, or from our [website](#).

The material relating to fees and costs may change between the time when you read this Statement and the day when you acquire the product.

WARNING: If a financial adviser is consulted, additional fees may be paid to that financial adviser. Please refer to the Statement of Advice ("SOA") issued by your financial adviser, which will provide details of the fees that may be payable.

7. How managed investment schemes are taxed

WARNING: Investing in a registered managed investment scheme is likely to have tax consequences. We strongly advise that you seek professional tax advice relevant to your particular situation.

Generally, managed investment schemes do not pay tax on behalf of investors other than withholding taxes (see further below). Net income generated by a managed investment scheme is typically distributed to investors and investors are in turn assessed for tax on their share of any income and capital gains generated by the registered managed investment scheme.

In certain circumstances, the scheme may be required to withhold tax on distributions to members (e.g. income paid to members who do not quote their TFN, ABN, or claim an exemption, and certain types of income paid to non-resident members).

As per section 6 of the UBS Additional Information Booklet, the Responsible Entity has elected into the attribution managed investment trust or 'AMIT' regime effective from 20 December 2022. If, for any reason, the Fund ceases to be an AMIT, the general tax rules that apply to other types of trusts would then apply to the Fund.

8. How to apply

How to invest in the Fund

To invest in the Fund you must send to us the completed Application Form which is available from your adviser or from us. If you are investing through an IDPS or platform, simply complete the documents that your IDPS or platform operator requires. Any enquiries regarding investing in the Fund, such as additional investments, switching between our other UBS funds or transferring ownership, should be directed to us or your IDPS or platform operator (as applicable).

Cooling-off period

If you are investing directly and you decide within the 'cooling off' period that you do not want the units we have issued to you, we must give you a refund. This 'cooling off' right enables you to have your investment returned and your money will be repaid after any adjustments for market movements, transaction costs and taxes (if any). You can exercise your right by writing to us within 14 days, commencing on the earlier of:

- When you receive confirmation of your investment; or
- The end of the fifth Business Day after the day on which your units were issued or sold to you.

The right terminates immediately if you exercise a right or power under the terms of the product, such as selling part of your investment. For any subsequent investments made under a distribution reinvestment plan, the 'cooling off' right does not apply.

Contact us

If you wish to request any information in relation to the Fund (including a copy of this PDS or any information incorporated into this PDS), contact us at:

| Client Services | Registered Office | Registry Services |
|---|---------------------------|--------------------------------------|
| Telephone: (03) 9046 4041 | Level 16, Chifley Tower | UBS Asset Management (Australia) Ltd |
| Freecall: 1800 572 018 | 2 Chifley Square | GPO Box 804 |
| Email: UBS@unitregistry.com.au | Sydney NSW 2000 | Melbourne VIC 3001 |
| Website: ubs.com/am-australia | Telephone: (02) 9324 3222 | Facsimile: 1300 073 090 |

Further information regarding the tax treatment of an investment in the Fund is set out in the UBS Additional Information Booklet.

Additional Information Incorporated by Reference

You should read the important information about taxation matters relating to registered managed investment schemes generally and the Fund in particular before making a decision. Go to section 6 of the UBS Additional Information Booklet available on request from your IDPS operator (if applicable), from us by calling 1800 572 018, or from our [website](#).

The material relating to taxation matters may change between the time when you read this Statement and the day when you acquire the product.

If you have any questions about this right, please confirm with your adviser or Client Services on (03) 9046 4041 or freecall 1800 572 018.

We do not provide cooling off rights to investors investing through an IDPS or platform. If you are investing through an IDPS you should consult your IDPS or platform operator in relation to cooling off rights that may apply to your investment in the IDPS (if any).

Resolving issues

Please notify us of complaints in writing or by calling Client Services on (03) 9046 4041 or freecall on 1800 572 018. We will acknowledge your complaint within 24 hours (or one business day) of receiving it, or as soon as practicable. We will also aim to resolve your complaint promptly and to provide a final response to your complaint within 30 calendar days of receipt.

If you are not satisfied with how the complaint has been resolved, you may contact the Australian Financial Complaints Authority or 'AFCA' on their freecall number 1800 931 678. AFCA is the external dispute resolution (EDR) scheme established to deal with complaints from consumers in the financial system. It is operated by a not-for-profit company limited by guarantee authorised by the Minister for Revenue and Financial Services.

The above dispute resolution procedures comply with section 912A(2) of the Corporations Act and are available to both direct investors and investors who invest via an IDPS.
