

So easy

With E-Commerce EASY, you can also accept credit cards in your online shop. And it's really simple!

We've joined forces with SIX Payment Services to offer you E-Commerce EASY and E-Commerce EASY PLUS – simple, transparent and affordable payment solutions for your online shop.

Looking to make the most of online trading potential and accept card payments as well as TWINT with your online shop, all while keeping costs and hassle to a minimum? Still not able to accurately estimate how big your transaction volume is going to be? Then E-Commerce EASY is just what you need.

The name says it all

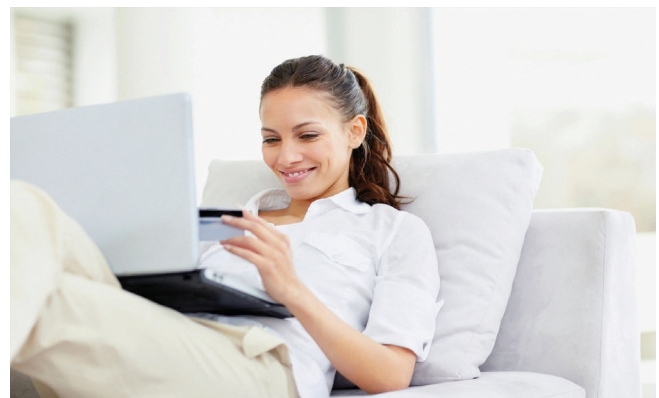

Together with SIX Payment Services, we have put together a package that lives up to its name – E-Commerce EASY really does make things easy for you. A single contract with no minimum duration is all it takes to enjoy all the benefits. These include the activation of Visa and Mastercard, TWINT, the Safepay payment system, compatible with the most common online shops, and the tried and tested 3-D Secure payment authentication.

Favorable and transparent terms

With E-Commerce EASY, you pay just 2.45% commission on each transaction, plus a one-off setup charge of 200 francs. You will incur no other costs – that means no monthly or other charges and no additional transaction costs from credit card providers or TWINT either. This makes it easier for you to budget, as costs for E-Commerce EASY only arise when your webshop earns revenue.

Safety first

Security is vital in online trading – for you as an online shop operator as well as for your customers. That's why we've chosen the respected SIX Payment Services as our partner in ensuring the greatest possible security in payment transactions for both you and us. Safepay is certified in accordance with the stringent international PCI-DSS standard. In addition, SIX uses 3-D Secure payment authorization, giving you and your customers extra and reliable protection against attempted fraud.

First-class support

SIX handles the activation of E-Commerce EASY and provides technical support. It's therefore good to know that SIX's customer service center is based in Switzerland and operates in German, French, Italian and English, so you can be sure it speaks your language. Since your online shop is open 24 hours a day, it follows that there is also a hotline for you around the clock.

How you benefit with E-Commerce EASY

- One contract activates the entire package (accepted credit cards: Mastercard, Visa and TWINT)
- No minimum duration, no minimum turnover
- Favorable and transparent terms (2.45% commission on each transaction, a one-off setup charge of 200 francs, with no further charges or hidden additional costs)
- The Safepay payment system is compatible with the most common online shops
- 3-D Secure payment authorization offers additional security
- 24/7 support in Switzerland

Even more options with E-Commerce EASY PLUS

Do you have turnover above 50,000 francs in your online shop, or do your customers spend more than 150 francs on average? And would you like to become more appealing to customers around the world by accepting a wide range of international credit cards and means of payment? E-Commerce EASY PLUS offers you this as well as many more options.

If you opt for E-Commerce EASY PLUS, as a UBS customer you will only pay 295 instead of 590 francs for a Saferpay license, and your monthly service costs will total 15 instead of 30 francs.

Requirements

- E-Commerce EASY and EASY PLUS are only available to UBS clients
- In order to register, businesses without an entry in the commercial register need to show a copy of your passport or ID, and an excerpt from the debt enforcement office

E-Commerce EASY and E-Commerce EASY PLUS make earning money online easy in every way. Want to know more – or to sign up right now?
