

Viktor Koziel

Portfolio Manager Infrastructure Debt
Executive Director

Years of investment industry experience: 18

Education: University of Liege (Belgium), MSc in Management; Donetsk National Technical University (Ukraine), MSc in International Economy

Viktor is a member of Infrastructure Debt, a business which forms part of Real Estate & Private Markets within UBS Asset Management. He is based in London and is responsible for capital raising, deal sourcing, analysis & execution of investment opportunities and asset management.

Viktor joined UBS Asset Management in October 2018. Prior to this position, he worked at Deutsche Bank where he was responsible for execution of Special Situations lending transactions within the Transportation, Infrastructure and Energy team in Europe.

Prior to that, Viktor held positions within the business development teams of GMR Infrastructure, a global infrastructure development company with interest in airports, power and roads, and AES Corporation, a global power company which owns a portfolio of electricity generation and distribution businesses.
