UBS Access App

Convenient, secure login

You need to activate the Access App once so that you can log into our digital products and services with the Access App.

1. Store a mobile number in Digital Banking

To activate the Access App, a mobile number for security messages must be stored with UBS. You can record the number in Digital Banking yourself. You can find more information in the [guide](#).

Notes for Quotes only clients:
Use ubs.com/callmeback to make an appointment for a free callback to have a mobile number recorded. This is not necessary if you have already been contacted by telephone.
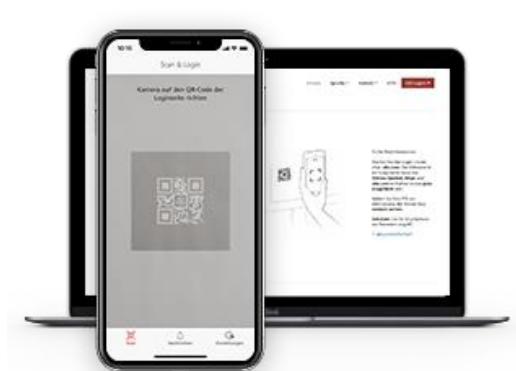

2. Download the Access App

Install the Access App on your smartphone.

Open the Access App, and if needed order an activation PIN in a few steps. The PIN will be sent by letter, and you will have it in a few days.

3. Activate Access App

Activate the Access App with the activation PIN.
