

Jeremie Capron

Partner and Director of Research, ROBO Global

Jeremie is a Partner and Director of Research at ROBO Global, a research and investment firm focused on the growth and return opportunities presented by Robotics, AI and Healthcare Technologies, in public equities and venture capital. Jeremie and his team manage the ROBO Global Indices, which are research-driven portfolios of global equities tracked by over \$3bn in assets, primarily in Exchange Traded Funds. Jeremie is also a Partner of ROBO Global Ventures, which invests in cutting-edge startups. Prior to ROBO Global, Jeremie spent over a decade as an equity research analyst in Asia and Europe before moving to New York to lead CLSA Americas' industrial technology research. Jeremie is a Chartered Financial Analyst (CFA), holds a Master's Degree in Science and Executive Engineering from the École des Mines de Paris and is fluent in French, English and Japanese.
