# UBS AG (standalone) regulatory information

This document contains information as of 31 March 2015 related to capital adequacy, Bank for International Settlements (BIS) Basel III leverage ratio, supplemental leverage ratio and liquidity coverage ratio, as required by the revised FINMA Circular 2008 / 22 "Disclosure – banks."

# Capital requirements under Swiss SRB Basel III regulations

Under Swiss SRB regulations, article 125 "Reliefs for financial groups and individual institutions" of the Swiss Capital Ordinance (CAO), stipulates that the Swiss Financial Market Supervisory Authority (FINMA) may grant, under certain conditions, capital relief to individual institutions, to ensure that an individual institution's compliance with the capital requirements does not lead to a de facto overcapitalization of the group it is part of.

FINMA granted relief concerning the regulatory capital requirements of UBS AG on a standalone basis by means of a decree issued on 20 December 2013, which became effective on 1 January 2014. The resulting capital requirements are described below.

## 1. Total capital requirement of 14%, of which 10% must be satisfied with common equity tier 1 (CET1) capital

This represents a relief at UBS AG standalone level compared with the capital requirements set by FINMA for the UBS Group. However, UBS AG (standalone) has been required to meet this capital requirement with immediate effect since 1 January 2014.

## 2. Consistent treatment of direct and indirect investments of UBS AG (standalone) in the equity of its subsidiaries

The aggregate amount of direct and indirect investments of UBS AG (standalone) in the equity of its subsidiaries is risk-weighted at 200% up to a threshold determined by FINMA. The total amount exceeding that threshold must be deducted from capital, 50% from CET1 and 50% from other capital. This approach could affect RWA and/or eligible capital, depending on the threshold defined by FINMA. If all investments are below the threshold, the resulting total capital requirement is 28%. If the threshold is set at zero, all investments would be deducted from capital. While the application of a threshold to directly held investments represents a relief, the inclusion of indirect investments represents a tightening of the requirements.

Overall, the decree provides an important contribution to ensuring that the capital requirements of UBS AG standalone do not result in a de facto overcapitalization of the Group.

The tables in this section provide UBS AG standalone capital information under Swiss SRB Basel III regulations, as per the abovementioned FINMA decree. In addition to the 14% total capital requirement set by the decree, UBS AG standalone is required to comply with countercyclical buffer requirements.

# BIS Basel III leverage ratio

## BIS Basel III leverage ratio disclosure requirements

The Bank for International Settlements (BIS) Basel III disclosure requirements for the leverage ratio came into effect in Switzerland on 1 January 2015 and we therefore disclose the respective leverage ratio information on a quarterly basis starting in the first quarter of 2015.

The BIS Basel III leverage ratio is calculated by dividing the sum of period-end tier 1 capital by the period-end BIS Basel III total

adjusted exposure (BIS Basel III Leverage Ratio Denominator (LRD)), which consists of IFRS on-balance sheet assets and off-balance sheet items and adjusted for netting of derivatives, eligible cash variation margin netting, net notional amounts less add-on deductions for written credit derivatives as well as an additional charge for counterparty credit risk related to securities financing transactions.

## Supplemental leverage ratio

The following table provides a pro-forma measure of the Swiss SRB leverage ratio using a denominator based on BIS Basel III rules.

<i>CHF million, except where indicated</i>	<b>31.3.15</b>

<b>Supplemental leverage ratio, phase-in (%)</b>	<b>4.2</b>

## Liquidity coverage ratio

Basel III rules require disclosure of the liquidity coverage ratio (LCR). As a Swiss SRB, we must maintain an LCR of at least 100% since 1 January 2015 and disclose LCR information on a quarterly basis starting with the first quarter of 2015.
