

Environmental & Social Risk

Focus areas

Climate Change

Climate change impacts ecosystems, societies, and economies worldwide, and we support clients achieving their goals in support of the transition to a low-carbon economy. We focus our climate change strategy on risk management, investments, financing, research and our own operations

Human Rights

We are committed to respecting and promoting human rights in all our business activities. We believe this is a responsible approach underlining our desire to reduce as far as possible potentially negative impacts on society

Forests and Biodiversity

We recognize the risks associated with deforestation and forest degradation. We are a member of the Roundtable on Sustainable Palm Oil and have endorsed the "Soft Commodities Compact".

Our Standards

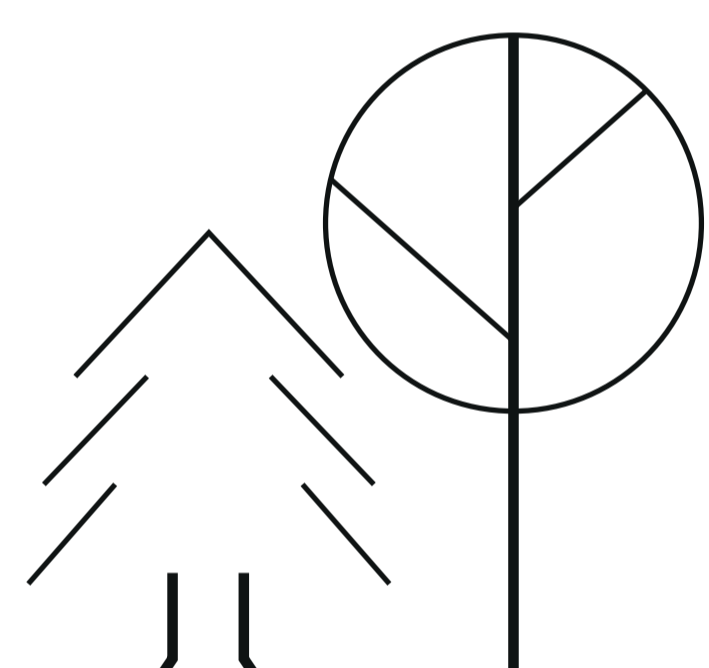

Not do business

Endangered species

Illegal logging

High conservation value forests

Wetlands

Illegal use of fire

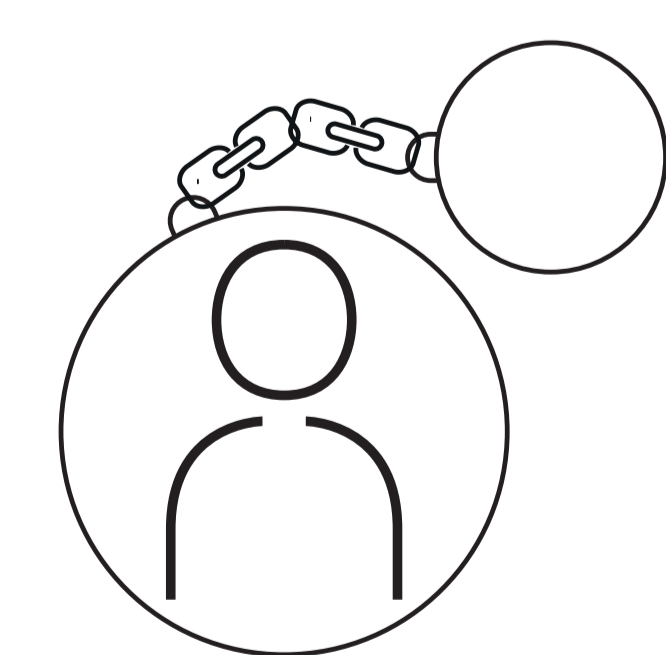

World Heritage Sites

Child labor

Indigenous peoples' rights

Forced labor

Controversial weapons

Only do business under stringent criteria

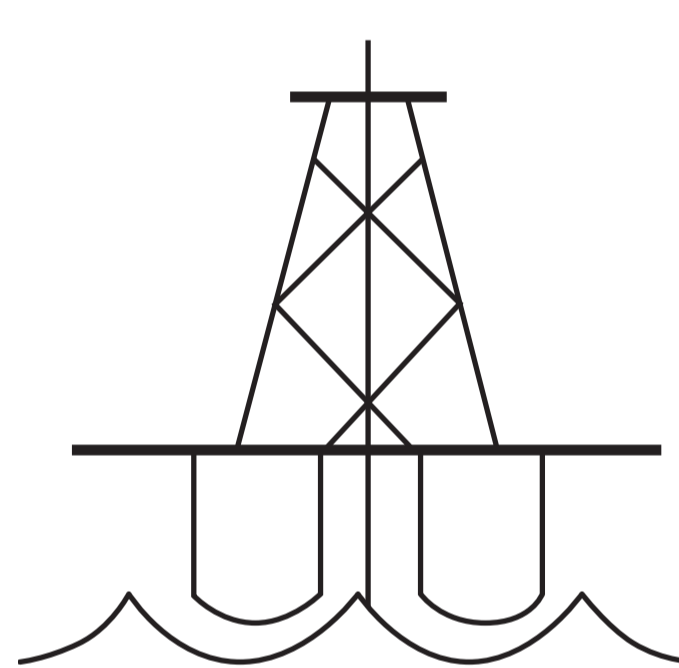

Palm oil

Soy

Timber
