

# UBS MTF Market Notice

## Connectivity Update

**Technical update – member action recommended**

30 August 2017

Dear Member,

As a part of our continued development of UBS MTF, we would like to announce an upcoming technical enhancement to our trading systems in September.

UBS MTF will be performing hardware updates over the coming weeks. Subject to final testing, these will go live for members **Monday, September 18**.

As part of these changes, UBS MTF are introducing an additional resiliency option for participants, as detailed in our new connectivity guide published at <https://www.ubs.com/global/en/investment-bank/multilateral-trading-facility/member-information.html>, giving availability of 'last resort' automatic failover via load balancer IP address.

In the unlikely event of a BCP event at UBS MTF following the activity above, access to UBS MTF's secondary site will be available via DR IP addresses, and the 'last resort' option above.

In preparation for go-live, UBS MTF will be conducting connectivity testing with members on the afternoon of **Saturday, September 16**.

We will be sending subsequent direct communications regarding testing and information on how to connect to the MTF in a number of BCP scenarios.

To register for the connectivity testing and provide the relevant contact details at your firm, please email [UBS\\_MTF@ubs.com](mailto:UBS_MTF@ubs.com).

To establish last resort connectivity, please contact the UBS DAT team to at +44 207 568 7272 or [dl-dat-uk@ubs.com](mailto:dl-dat-uk@ubs.com).

UBS MTF Management

### **Notice N11, 2017**

UBS MTF Notices and documentation are available at <http://ubs.com/mtf>. If you have any queries regarding this notice, or comments on the above, please contact the UBS MTF Supervisors at +44 20 7568 2052 or [ubs\\_mtf@ubs.com](mailto:ubs_mtf@ubs.com).
