

Regulatory disclosures 2Q22

Subsidiaries

For the purposes of this report, unless the context otherwise requires, the terms “Credit Suisse Group”, “Credit Suisse”, the “Group”, “we”, “us” and “our” mean Credit Suisse Group AG and its consolidated subsidiaries. The business of Credit Suisse AG, the direct bank subsidiary of the Group, is substantially similar to the Group, and we use these terms to refer to both when the subject is the same or substantially similar. We use the term the “Bank” when we are referring only to Credit Suisse AG and its consolidated subsidiaries. We use the term the “Bank parent company” when we are referring only to the standalone parent entity Credit Suisse AG. Abbreviations and selected terms are explained in the List of abbreviations and the Glossary in the back of this report. Publications referenced in this report, whether via website links or otherwise, are not incorporated into this report. Rounding differences may occur.

Regulatory disclosures

In connection with the Swiss Financial Market Supervisory Authority FINMA (FINMA) circular 2016/1 "Disclosure – banks", certain regulatory disclosures, including capital, leverage and liquidity metrics, for Credit Suisse subsidiaries are required. The following entities are contained within this document.

- Credit Suisse AG – consolidated;
- Credit Suisse AG – parent company;
- Credit Suisse (Schweiz) AG – consolidated;
- Credit Suisse (Schweiz) AG – parent company;
- Credit Suisse International; and
- Credit Suisse Holdings (USA), Inc.

For certain prescribed table formats where line items have zero balances, such line items have not been presented.

This document should be read in conjunction with the Credit Suisse Pillar 3 and regulatory disclosures 2022 report as well as the Credit Suisse Financial Report 2022 and the Credit Suisse Annual Report 2021.

- Refer to the "Pillar 3 and regulatory disclosures 2022" report for information on the Pillar 3 required disclosures, including risk-weighted assets, reconciliation requirements and other regulatory disclosures, such as capital, leverage and liquidity metrics, of Credit Suisse Group AG (Group).

Regulatory developments

- Refer to the "Regulatory developments" in II – Treasury, risk, balance sheet and off-balance sheet – Capital management in the Credit Suisse Financial Report 2022 for further information on changes in capital and leverage requirements in 2022 relating to a reassessment of surcharges.

NSFR implementation

Since July 1, 2021, banks are subject to a minimum net stable funding ratio (NSFR) requirement of 100% at all times and to the associated disclosure requirements.

Based on the Liquidity Ordinance, Credit Suisse AG – parent company (Bank parent company) is allowed to fulfill the minimum NSFR of 100% by taking into consideration any excess funding of Credit Suisse (Schweiz) AG – parent company on a stand-alone basis, and the Bank parent company has an NSFR requirement of at least 80% without taking into consideration any such excess funding. Credit Suisse (Schweiz) AG – parent company must always fulfill the NSFR of at least 100% on a stand-alone basis.

Credit Suisse AG – consolidated

¹ The fully loaded US GAAP CECL accounting model excludes the transitional relief of recognizing CECL allowances and provisions in CET1 capital, in accordance with FINMA Circular 2013/1, "Eligible capital – banks".

² Calculated as 8% of Swiss risk-weighted assets, based on total capital minimum requirements, excluding the BIS CET1 buffer requirements.

³ CET1 buffer requirements are based on BIS requirements as a percentage of Swiss risk-weighted assets.

⁴ Reflects the Swiss CET1 capital ratio of 15.5%, less the BIS CET1 ratio minimum requirement of 4.5%.

⁵ Calculated using a three-month average, which is calculated on a daily basis.

Credit Suisse AG – parent company

Swiss capital metrics – Bank parent company

In May 2016, the Swiss Federal Council amended the Capital Adequacy Ordinance (CAO) applicable to Swiss banks. The amendment recalibrates and expands the existing “Too Big to Fail” regime in Switzerland.

In November 2019, the Swiss Federal Council adopted amendments to the CAO. The amendments included new gone-concern requirements for the Bank parent company. Since January 1, 2020, the quantitative requirement for the additional loss-absorbing capacity (gone concern) at the Bank parent company level comprises three elements. One element is a nominal amount that is identical for risk-weighted assets and the leverage ratio. For the two other elements, the higher aggregate total is relevant (based on the corresponding risk-weighted assets or leverage requirement). In accordance with the CAO transitional provision, one of these two latter elements will be implemented in phases from January 1, 2021 and will therefore not apply fully until January 1, 2024.

The requirements for the additional total loss-absorbing capacity (TLAC) are not based on the same calculation method for risk-weighted funds or leverage exposure, as is the case for the capital requirements (going concern). As of the end of 2022, the requirement for additional total loss-absorbing capacity (gone concern) amounted to CHF 36.2 billion and was 108% fulfilled.

In January 2020, FINMA and Credit Suisse agreed that any substantial part of the net exposure of Bank parent company toward Credit Suisse Group AG (Group, the Holding Company), originating from unsecured loans, shall be covered by an additional gone concern capacity at the Bank parent company. The Group, in support of its single point-of-entry bail-in strategy, is obliged to make the additional funds available. These additional funds constitute eligible gone concern capacity. However, to the extent that any aforementioned net exposure of the Bank parent company is covered by such funds, they do not qualify for the gone concern capital ratio calculation for the Bank parent company or the Group. As of 2022, the Bank parent company had a net exposure toward the Group of CHF 1.5 billion (i.e., existing net senior funding provided by Credit Suisse AG to Credit Suisse Group AG of CHF 7.1 billion, which was offset by CHF 5.6 billion funds received from Credit Suisse Group AG). The net exposure did not have to be covered by additional gone-concern capacity at the Bank parent company because it was below a threshold of CHF 2.6 billion agreed by FINMA.

FINMA decrees

In October 2017, FINMA issued an additional decree (2017 FINMA Decree) specifying the treatment of investments in subsidiaries for capital adequacy purposes for the Bank parent company. This decree partially replaced certain aspects of the decree issued in 2013 by FINMA (2013 FINMA Decree), but all other aspects of that decree remain in force.

The 2017 FINMA Decree requires the Bank parent company to risk-weight both direct and indirect investments in subsidiaries, with the initial risk-weight set at 200%. Beginning in 2019, the risk-weights began to increase over a 10-year period for direct and indirect investments in Swiss subsidiaries by 5% per year and for direct and indirect investments in foreign subsidiaries by 20% per year, up to 250% and 400%, respectively, by 2028. In 2022, investments in Swiss-domiciled subsidiaries were risk-weighted at 220% and investments in foreign-domiciled subsidiaries were risk-weighted at 280%.

As of the end of 2022, the Bank parent company financed Swiss subsidiaries with a carrying value of CHF 14.5 billion and foreign subsidiaries with a carrying value of CHF 47.0 billion.

The 2017 FINMA Decree also applies an adjustment (referred to as a regulatory filter) to an impact on common equity tier 1 (CET1) capital arising from the accounting change under applicable Swiss banking rules for the Bank parent company's participations from the portfolio valuation method to the individual valuation method, which became effective on December 31, 2019. In contrast to the accounting treatment, the regulatory filter allows Credit Suisse to measure the regulatory capital position as if the Bank parent company had maintained the portfolio valuation method.

As of the end of 2022, the CET1 capital impact from the regulatory filter was CHF 15.9 billion, which included CHF 0.3 billion related to a Swiss GAAP provision for a participation with a book value of zero under the individual valuation method. The related risk-weighted assets increase from higher total participation values subject to risk weighting was CHF 43.7 billion, reflecting the different risk-weights for these direct participations.

The Bank parent company's Swiss CET1 ratio decreased from 11.8% as of 1Q22 to 11.4% as of the end of 2022, primarily driven by net losses and an adverse foreign exchange impact, despite capital distributions from its UK participations.

In addition to the capital distributions already received in 2022, further significant capital distributions to the Bank parent company are expected from the US and UK participations by the end of 2022, subject to regulatory approval.

→ Refer to “FINMA decrees” in III – Treasury, Risk, Balance sheet and Off-balance sheet – Capital management – Swiss requirements in the Credit Suisse Annual Report 2021 for further information on the Bank parent company's regulatory requirements.

Credit Suisse has committed internal loss-absorbing capacity to its US subsidiaries through its US intermediate holding company, Credit Suisse Holdings (USA), Inc. Credit Suisse has disclosed all creditors at risk of loss in the event the Board of Governors of the Federal Reserve System issues an internal debt conversion order, converting some or all of Credit Suisse Holdings (USA), Inc.'s eligible internal debt securities into CET1 capital. Consistent with Principle (xi) and Section 20 of the Financial Stability Board's Principles on Loss-absorbing and Recapitalization Capacity of G-SIBs in Resolution Total Loss-absorbing Capacity (TLAC) Term Sheet, November 9, 2015, Credit Suisse considers that this method of disclosure provides as much clarity as possible ex ante about how losses would be absorbed in the event of Credit Suisse Holdings (USA), Inc.'s resolution by disclosing liabilities ranking pari passu or junior to internal TLAC instruments in resolution.

¹ Includes nominal share capital of USD 9.15.

² Notes with a maturity of less than one year, notes called but not yet redeemed and accrued but not paid interest on TLAC instruments are not eligible as TLAC.

Cautionary statement regarding forward-looking information

This document contains statements that constitute forward-looking statements. In addition, in the future we, and others on our behalf, may make statements that constitute forward-looking statements. Such forward-looking statements may include, without limitation, statements relating to the following:

- our plans, targets or goals;
- our future economic performance or prospects;
- the potential effect on our future performance of certain contingencies; and
- assumptions underlying any such statements.

Words such as “believes,” “anticipates,” “expects,” “intends” and “plans” and similar expressions are intended to identify forward-looking statements but are not the exclusive means of identifying such statements. We do not intend to update these forward-looking statements.

By their very nature, forward-looking statements involve inherent risks and uncertainties, both general and specific, and risks exist that predictions, forecasts, projections and other outcomes described or implied in forward-looking statements will not be achieved. We caution you that a number of important factors could cause results to differ materially from the plans, targets, goals, expectations, estimates and intentions expressed in such forward-looking statements. These factors include, but are not limited to:

- the ability to maintain sufficient liquidity and access capital markets;
- market volatility, increases in inflation and interest rate fluctuations or developments affecting interest rate levels;
- the ongoing significant negative consequences, including reputational harm, of the Archegos and supply chain finance funds matters, as well as other recent events, and our ability to successfully resolve these matters;
- our ability to improve our risk management procedures and policies and hedging strategies;
- the strength of the global economy in general and the strength of the economies of the countries in which we conduct our operations, in particular, but not limited to, the risk of negative impacts of COVID-19 on the global economy and financial markets, Russia’s invasion of Ukraine, the resulting sanctions from the US, EU, UK, Switzerland and other countries and the risk of continued slow economic recovery or downturn in the EU, the US or other developed countries or in emerging markets in 2022 and beyond;
- the emergence of widespread health emergencies, infectious diseases or pandemics, such as COVID-19, and the actions that may be taken by governmental authorities to contain the outbreak or to counter its impact;
- potential risks and uncertainties relating to the severity of impacts from COVID-19 and the duration of the pandemic, including potential material adverse effects on our business, financial condition and results of operations;
- the direct and indirect impacts of deterioration or slow recovery in residential and commercial real estate markets;
- adverse rating actions by credit rating agencies in respect of us, sovereign issuers, structured credit products or other credit-related exposures;
- the ability to achieve our strategic initiatives, including those related to our targets, ambitions and goals, such as our financial ambitions as well as various goals and commitments to incorporate certain environmental, social and governance considerations into our business strategy, products, services and risk management processes;

- the ability of counterparties to meet their obligations to us and the adequacy of our allowance for credit losses;
- the effects of, and changes in, fiscal, monetary, exchange rate, trade and tax policies;
- the effects of currency fluctuations, including the related impact on our business, financial condition and results of operations due to moves in foreign exchange rates;
- geopolitical and diplomatic tensions, instabilities and conflicts, including war, civil unrest, terrorist activity, sanctions or other geopolitical events or escalations of hostilities, such as Russia’s invasion of Ukraine;
- political, social and environmental developments, including climate change;
- the ability to appropriately address social, environmental and sustainability concerns that may arise from our business activities;
- the effects of, and the uncertainty arising from, the UK’s withdrawal from the EU;
- the possibility of foreign exchange controls, expropriation, nationalization or confiscation of assets in countries in which we conduct our operations;
- operational factors such as systems failure, human error, or the failure to implement procedures properly;
- the risk of cyber attacks, information or security breaches or technology failures on our reputation, business or operations, the risk of which is increased while large portions of our employees work remotely;
- the adverse resolution of litigation, regulatory proceedings and other contingencies;
- actions taken by regulators with respect to our business and practices and possible resulting changes to our business organization, practices and policies in countries in which we conduct our operations;
- the effects of changes in laws, regulations or accounting or tax standards, policies or practices in countries in which we conduct our operations;
- the discontinuation of LIBOR and other interbank offered rates and the transition to alternative reference rates;
- the potential effects of changes in our legal entity structure;
- competition or changes in our competitive position in geographic and business areas in which we conduct our operations;
- the ability to retain and recruit qualified personnel;
- the ability to protect our reputation and promote our brand;
- the ability to increase market share and control expenses;
- technological changes instituted by us, our counterparties or competitors;
- the timely development and acceptance of our new products and services and the perceived overall value of these products and services by users;
- acquisitions, including the ability to integrate acquired businesses successfully, and divestitures, including the ability to sell non-core assets; and
- other unforeseen or unexpected events and our success at managing these and the risks involved in the foregoing.

We caution you that the foregoing list of important factors is not exclusive. When evaluating forward-looking statements, you should carefully consider the foregoing factors and other uncertainties and events, including the information set forth in “Risk factors” in *I – Information on the company* in our Annual Report 2021.
