¹ Based on tangible shareholders' equity attributable to shareholders, a non-GAAP financial measure, which is calculated by deducting goodwill and other intangible assets from total shareholders' equity attributable to shareholders as presented in our balance sheet. Management believes that the return on tangible shareholders' equity attributable to shareholders is meaningful as it allows consistent measurement of the performance of businesses without regard to whether the businesses were acquired.

Credit Suisse reporting structure

Credit Suisse includes the results of our six reporting segments, including the Strategic Resolution Unit, and the Corporate Center. Core Results do not include revenues and expenses from our Strategic Resolution Unit.

RESULTS SUMMARY

In 1Q17, Credit Suisse reported net income attributable to shareholders of CHF 596 million compared to net losses attributable to shareholders of CHF (2,619) million in 4Q16 and CHF (302) million in 1Q16.

Net revenues of CHF 5,534 million increased 7% compared to 4Q16, primarily reflecting higher net revenues in Global Markets. The increase in Global Markets reflected a seasonal increase in client activity.

Net revenues increased 19% compared to 1Q16, primarily reflecting higher net revenues in Global Markets and Investment Banking & Capital Markets and lower negative net revenues in the Strategic Resolution Unit. Compared to a weak 1Q16, net revenues in Global Markets increased reflecting more favorable market conditions, particularly in its credit business. The movement in the Strategic Resolution Unit's net revenues was primarily driven by lower negative valuation adjustments and exit costs relating to our legacy investment banking portfolio, partially offset by lower fee-based revenues from the restructuring of select onshore businesses, in particular the transfer of our US private banking business. Net revenues in Investment Banking & Capital Markets increased, primarily driven by higher debt and equity underwriting revenues.

Provision for credit losses of CHF 53 million primarily related to a net provision for credit losses of CHF 24 million in the Strategic Resolution Unit, CHF 10 million in Swiss Universal Bank and CHF 6 million in Investment Banking & Capital Markets.

Total operating expenses of CHF 4,811 million decreased 34% compared to 4Q16, reflecting a 61% decrease in general and administrative expenses, primarily due to significant litigation provisions in the Strategic Resolution Unit in 4Q16 mainly related to the

settlements with the US Department of Justice and the National Credit Union Administration Board regarding our legacy residential mortgage-backed securities business. These decreases were partially offset by a CHF 88 million increase in restructuring expenses. In 1Q17, we incurred CHF 137 million of restructuring expenses in connection with the implementation of our strategy, of which CHF 129 million were related to compensation and benefits.

Total operating expenses decreased 3% compared to 1Q16, reflecting an 11% decrease in general and administrative expenses, mainly due to lower professional fees, and a 46% decrease in restructuring expenses. These decreases were partially offset by a 7% increase in compensation and benefits, mainly in the Corporate Center reflecting fair value adjustments on certain deferred compensation plans not allocated to the segments and certain deferred compensation retention awards relating to Global Markets and Investment Banking & Capital Markets intended to support the restructuring of the Group predominately through the end of 2017.

Income tax expense of CHF 78 million recorded in 1Q17 mainly reflected a tax charge relating to the geographical mix of results, partially offset by a tax benefit associated with the establishment of Credit Suisse Asset Management & Investor Services (Schweiz) Holding AG and the re-assessment relating to the tax deductibility on previously taken litigation accruals. Overall, net deferred tax assets increased CHF 1,950 million to CHF 7,649 million, mainly driven by the adoption of new accounting standards relating to intra-entity asset transfer rules and share-based payments and the tax benefits noted above, partially offset by earnings and the foreign exchange impact. Deferred tax assets on net operating losses increased CHF 365 million to CHF 2,543 million during 1Q17. The Credit Suisse effective tax rate was 11.6% in 1Q17, compared to (18.8)% in 4Q16.

UPDATE TO THE COMPENSATION REPORT

Since the publication of our Annual Report 2016 on March 24, 2017 and the Compensation Report contained therein, the Chairman of the Board of Directors, Urs Rohner, and the chairman of the Compensation Committee, Jean Lanier, conducted a thorough engagement with many of our shareholders. Feedback on the Group's strategy and its execution was supportive. There were, however, some shareholders who expressed reservations regarding certain aspects of compensation.

In order to address these certain shareholder concerns and to ensure that the Executive Board is able to continue to focus on the successful turnaround of Credit Suisse and the implementation of our strategy, the CEO and the Executive Board proposed to the Board of Directors that both the 2016 Short-Term Incentive awards as well as the 2017 Long-Term Incentive opportunities, previously proposed to be awarded to them by the Board of Directors, be reduced by 40%. This proposal was approved by the Board of Directors.

In addition, the Board of Directors has also decided to maintain total Board of Directors compensation at the level of 2015 and 2016, with no incremental increase in 2017 as proposed in the Compensation Report.

For further information on these compensation proposals and updates relevant to the agenda and voting materials at our Annual General Meeting on April 28, 2017, please refer to our website at www.credit-suisse.com/ch/en/about-us/investor-relations/annual-general-meeting.html.

PROPOSED CAPITAL RAISE AND OTHER STRATEGY MATTERS

The Board of Directors will propose to an Extraordinary General Meeting of shareholders to be held on May 18, 2017 a rights offering and share capital increase through the issuance of new shares to existing shareholders of Credit Suisse Group AG, if permitted under applicable local laws. Under the terms of this rights offering, Credit Suisse Group AG plans to issue up to 404,526,794 new registered shares with a par value of CHF 0.04 each. We expect the net proceeds of the rights offering to amount to approximately CHF 4 billion, excluding the issuance of any new shares resulting from the exercise of rights allotted on shares received as scrip dividend.

Through the proposed share capital increase, we intend to strengthen our capital and leverage position, to continue to implement our strategy and advance our restructuring plans, pursue attractive growth opportunities and address expected increases in regulatory capital requirements. On a pro-forma basis, based on our end-1Q17 risk-weighted assets and leverage exposure amounts including the net proceeds of the capital increase, our look-through BIS CET1 capital ratio would have been approximately 13.4% and our look-through BIS tier 1 leverage ratio would have been approximately 5.1%.

We have decided not to pursue a partial initial public offering of our Swiss banking subsidiary Credit Suisse (Schweiz) AG, thus

retaining full ownership of a historically stable income stream in our home market of Switzerland and avoiding complexity in the business structure and activities of a key division of the Group.

We intend to accelerate the release of capital from our Strategic Resolution Unit and bring forward capital targets for this division by one year without incremental impact on pre-tax income. We now plan to complete the wind-down of the Strategic Resolution Unit by the end of 2018.

We will also propose to revise our dividend policy beginning in 2017 by discontinuing the use of a scrip alternative at the option of shareholders and by proposing to pay a cash dividend at a similar level, on a per share basis, to recent years, subject to performance and to the decision of our Board of Directors and approval of our shareholders in due course. In future years, we plan to return excess capital to our shareholders, subject to meeting our capital targets. After the anticipated changes to the Basel III capital framework have been finalized, we expect to have greater clarity on our capital requirements, but in the interim we seek to maintain a look-through BIS CET1 capital ratio of approximately 13% and look-through BIS tier 1 leverage ratio of approximately 5%.

CORE RESULTS

In 1Q17, Core Results net revenues of CHF 5,740 million increased 7% compared to 4Q16, primarily reflecting higher net revenues in Global Markets. Provision for credit losses was CHF 29 million, primarily reflecting net provisions of CHF 10 million in Swiss Universal Bank and CHF 6 million in Investment Banking & Capital Markets. Total operating expenses of CHF 4,502 million decreased 3% compared to 4Q16. General and administrative expenses of CHF 1,441 million decreased 12%, primarily related to decreased expenses in Swiss Universal Bank, Corporate Center, Global Markets and International Wealth Management. Compensation and benefits of CHF 2,570 million were stable compared to 4Q16, primarily due to an increase in Global Markets, partially offset by a decrease in Swiss Universal Bank. Compared to 4Q16, restructuring expenses of CHF 130 million increased 171%, primarily in Swiss Universal Bank and International Wealth Management.

Core Results net revenues increased 11% compared to 1Q16, primarily reflecting higher net revenues in Global Markets and Investment Banking & Capital Markets. Total operating expenses increased 3% compared to 1Q16. Compensation and benefits increased 13%, primarily related to increases in Corporate Center and in Investment Banking & Capital Markets and International Wealth Management, primarily due to increased discretionary compensation expenses. Total operating expenses in 1Q17 were also impacted by restructuring expenses of CHF 130 million. These increases were partially offset by a 7% decrease in general and administrative expenses, primarily related to Global Markets, reflecting reduced allocated corporate function costs, and in the Corporate Center, primarily related to costs associated with the evolution of our legal entity structure to meet developing and future regulatory requirements.

Reconciliation of adjusted results

Adjusted results referred to in this report are non-GAAP financial measures that exclude goodwill impairment and certain other revenues and expenses included in our reported results. Management believes that adjusted results provide a useful presentation of our operating results for purposes of assessing our Group and divisional performance consistently over time, on a basis that excludes items that management does not consider representative of our underlying performance. Provided below is a reconciliation of our adjusted results to the most directly comparable US GAAP measures.

Swiss Universal Bank

In 1Q17, we reported income before taxes of CHF 404 million and net revenues of CHF 1,354 million. Income before taxes was 6% higher compared to 4Q16 and 6% lower compared to 1Q16.

RESULTS SUMMARY

Effective January 1, 2017, we commenced serving our clients through the following four dedicated business areas in order to better serve our Swiss client base: Private & Wealth Management Clients and Premium Clients within the Private Clients business (formerly Private Banking), and Corporate Clients and Institutional Clients within the Corporate & Institutional Clients business (formerly Corporate & Institutional Banking). The most significant change which arose pursuant to this modification in organizational structure related to the transfer of the external asset managers business from the former Private Banking business to the former Corporate & Institutional Banking business. Prior periods have been reclassified to conform to the current presentation.

1Q17 results

In 1Q17, we reported income before taxes of CHF 404 million and net revenues of CHF 1,354 million. Compared to 4Q16, net revenues were slightly lower, mainly due to gains on the sale of real estate in 4Q16, slightly lower net interest income and lower recurring commissions and fees, partially offset by higher transaction-based revenues. Total operating expenses were 4% lower

compared to 4Q16, primarily reflecting lower general and administrative expenses and lower compensation and benefits partially offset by higher restructuring expenses.

Compared to 1Q16, net revenues were stable, with slightly lower transaction-based revenues offset by higher recurring commissions and fees. Total operating expenses increased slightly compared to 1Q16, reflecting higher general and administrative expenses and restructuring expenses, partially offset by lower compensation and benefits.

Adjusted income before taxes of CHF 483 million was 28% higher compared to 4Q16 and slightly higher compared to 1Q16.

Capital and leverage metrics

As of the end of 1Q17, we reported risk-weighted assets of CHF 65.6 billion, stable compared to the end of 4Q16. An increase from methodology and policy changes reflecting the phase-in of the Swiss mortgage multipliers was offset by lower risk levels and a foreign exchange impact. Leverage exposure was CHF 257.4 billion, reflecting an increase of CHF 4.5 billion compared to the end of 4Q16, driven by increased high-quality liquid assets (HQLA).

Net interest income includes a term spread credit on stable deposit funding and a term spread charge on loans. Recurring commissions and fees includes investment product management, discretionary mandate and other asset management-related fees, fees for general banking products and services and revenues from wealth structuring solutions. Transaction-based revenues arise primarily from brokerage and product issuing fees, fees from foreign exchange client transactions, trading and sales income, equity participations income and other transaction-based income. Other revenues include fair value gains/(losses) on synthetic securitized loan portfolios and other gains and losses.

PRIVATE CLIENTS

RESULTS

Income before taxes of CHF 161 million was 7% lower compared to 4Q16, primarily reflecting decreased net revenues, partially offset by lower total operating expenses. Compared to 1Q16, income before taxes was 5% lower, primarily reflecting slightly lower net revenues, partially offset by slightly lower total operating expenses. Adjusted income before taxes of CHF 208 million increased 39% compared to 4Q16 and was stable compared to 1Q16.

Net revenues

Compared to 4Q16, net revenues of CHF 711 million were 5% lower, primarily due to gains on the sale of real estate of CHF 20 million in 4Q16 reflected in other revenues and lower recurring commissions and fees. Recurring commissions and fees of CHF 197 million were 9% lower, reflecting lower discretionary mandate management fees, partially offset by higher investment product management fees and banking services fees. Transaction-based revenues of CHF 100 million were 8% higher, driven by higher revenues from trading services and increased brokerage and product issuing fees. Net interest income of CHF 413 million

was slightly lower with stable loan margins and higher deposit margins on stable average loan and deposit volumes.

Compared to 1Q16, net revenues decreased slightly, primarily reflecting slightly lower net interest income and lower transaction-based revenues. Net interest income was slightly lower with slightly higher loan margins and higher deposit margins on slightly higher average loan and deposit volumes. Transaction-based revenues were 7% lower primarily due to lower fees from foreign exchange client business and decreased revenues from trading services, which were mainly foreign exchange-related. Recurring commissions and fees were stable.

Provision for credit losses

The Private Clients loan portfolio is substantially comprised of residential mortgages in Switzerland and loans collateralized by securities and, to a lesser extent, consumer finance loans.

In 1Q17, Private Clients recorded provision for credit losses of CHF 12 million compared to CHF 10 million in 4Q16 and CHF 9 million in 1Q16. The provision was primarily related to our consumer finance business.

Total operating expenses

Compared to 4Q16, total operating expenses of CHF 538 million decreased 5%, primarily reflecting lower general and administrative expenses and decreased compensation and benefits, partially offset by higher restructuring expenses. General and administrative expenses of CHF 203 million decreased 19%, primarily due to lower advertising and marketing expenses, lower professional services fees and decreased allocated corporate function costs. Compensation and benefits of CHF 242 million were 15% lower, primarily reflecting lower pension expenses, lower salary expenses due to a release of Swiss holiday accruals in 1Q17 as well as lower social security costs and discretionary compensation expenses, partially offset by higher allocated corporate function costs. Restructuring expenses increased CHF 50 million to CHF 47 million. Adjusted total operating expenses of CHF 491 million were 14% lower compared to 4Q16.

Compared to 1Q16, total operating expenses were slightly lower, despite investments in regulatory and compliance functions, primarily reflecting lower compensation and benefits, partially offset by higher commission expenses and restructuring expenses in 1Q17. Compensation and benefits were 14% lower, primarily reflecting lower salary expenses and decreased allocated corporate function costs. General and administrative expenses were slightly lower, primarily reflecting decreased professional services fees. Adjusted total operating expenses were 4% lower compared to 1Q16.

MARGINS**Gross margin**

Our gross margin was 146 basis points in 1Q17, ten basis points lower compared to 4Q16, mainly driven by lower recurring commissions and fees and gains on the sale of real estate in 4Q16 on slightly higher average assets under management. Compared to 1Q16, our gross margin was nine basis points lower, primarily due to slightly lower net interest income and lower transaction-based revenues on 4.0% higher average assets under management.

► Refer to "Assets under management" for further information.

Net margin

Our net margin was 33 basis points in 1Q17, three basis points lower compared to 4Q16, mainly due to lower net revenues on slightly higher average assets under management, partially offset by lower total operating expenses. Compared to 1Q16, our net margin was three basis points lower, primarily reflecting slightly lower net revenues on the 4.0% higher average assets under management, partially offset by slightly lower total operating expenses. On the basis of adjusted income before taxes, our net margin was 43 basis points in 1Q17, twelve basis points higher compared to 4Q16 and one basis point lower compared to 1Q16.

ASSETS UNDER MANAGEMENT

As of the end of 1Q17, assets under management of CHF 198.2 billion were CHF 6.0 billion higher compared to the end of 4Q16, mainly driven by favorable market movements and net new assets of CHF 2.0 billion. Net new assets reflected positive contributions from all businesses.

CORPORATE & INSTITUTIONAL CLIENTS**RESULTS**

Income before taxes of CHF 243 million increased 16% compared to 4Q16, primarily due to higher provision for credit losses in 4Q16 and lower total operating expenses in 1Q17. Compared to 1Q16, income before taxes was 7% lower, reflecting higher total operating expenses, partially offset by slightly higher net revenues. Adjusted income before taxes of CHF 275 million increased 21% compared to 4Q16 and was slightly higher compared to 1Q16.

Net revenues

Compared to 4Q16, net revenues of CHF 643 million were stable with slightly lower net interest income, offset by slightly higher transaction-based revenues and recurring commissions and fees. Net interest income of CHF 313 million decreased slightly, with stable loan margins on stable average loan volumes and lower deposit margins on slightly lower average deposit volumes. Recurring commissions and fees of CHF 165 million were slightly higher,

mainly due to increased fees from lending activities, partially offset by lower discretionary mandate management fees. Transaction-based revenues of CHF 180 million were slightly higher, mainly due to higher revenues from trading services, including a revaluation gain on an equity investment of CHF 6 million, partially offset by lower revenues from our Swiss investment banking business and lower corporate advisory fees.

Compared to 1Q16, net revenues were slightly higher, driven by increased recurring commissions and fees and higher revenues from our Swiss investment banking business, partially offset by lower revenues from trading services. Recurring commissions and fees were 11% higher, driven by higher fees from lending activities and higher security account and custody services fees, partially offset by lower discretionary mandate management fees. Net interest income and transaction-based revenues were stable compared to 1Q16.

Provision for credit losses

The Corporate & Institutional Clients loan portfolio has relatively low concentrations and is mainly secured by mortgages, securities and other financial collateral.

In 1Q17, Corporate & Institutional Clients recorded a release of provision for credit losses of CHF 2 million compared to provision for credit losses of CHF 24 million in 4Q16 and a release of provision for credit losses of CHF 3 million in 1Q16.

Total operating expenses

Compared to 4Q16, total operating expenses of CHF 402 million were 4% lower, primarily reflecting lower general and administrative expenses. General and administrative expenses of CHF 153 million decreased 8%, primarily due to lower allocated corporate function costs and lower professional services fees. Compensation and benefits of CHF 210 million were stable. Adjusted total operating expenses of CHF 370 million were 7% lower compared to 4Q16.

Compared to 1Q16, total operating expenses were 9% higher, mainly driven by higher general and administrative expenses and higher compensation and benefits, partially offset by lower commission expenses. General and administrative expenses increased 24%, primarily due to higher litigation provisions. Compensation and benefits increased 7% mainly due to higher allocated corporate function costs, higher salary expenses and higher discretionary compensation expenses. Adjusted total operating expenses were slightly higher compared to 1Q16.

ASSETS UNDER MANAGEMENT

As of the end of 1Q17, assets under management of CHF 348.9 billion were CHF 9.6 billion higher compared to the end of 4Q16, primarily driven by favorable market movements. Net asset inflows were offset by outflows related to terminated relationships with certain external asset managers.

International Wealth Management

In 1Q17, we reported income before taxes of CHF 291 million and net revenues of CHF 1,221 million. Income before taxes was 12% and 3% lower compared to 4Q16 and 1Q16, respectively.

RESULTS SUMMARY

1Q17 results

In 1Q17, we reported income before taxes of CHF 291 million and net revenues of CHF 1,221 million. Compared to 4Q16, net revenues decreased 6% due to lower other revenues, lower transaction- and performance-based revenues and slightly lower net interest income, partially offset by higher recurring commissions and fees. Other revenues in 4Q16 included a gain on the sale of real estate of CHF 54 million, reflected in Private Banking, while transaction- and performance-based revenues in 4Q16 included year-end performance fees in Asset Management. Provision for credit losses was CHF 2 million compared to CHF 6 million in 4Q16. Total operating expenses were 4% lower compared to 4Q16, mainly driven by lower general and administrative expenses and slightly lower compensation and benefits, partially offset by higher restructuring expenses.

Compared to 1Q16, net revenues increased 4% reflecting higher recurring commissions and fees, higher other revenues

and higher net interest income. This increase was partially offset by lower transaction- and performance-based revenues as 1Q16 included a residual gain from a private equity interest in Asset Management. Provision for credit losses was CHF 2 million compared to a release of CHF 2 million in 1Q16. Total operating expenses were 6% higher with higher compensation and benefits and higher restructuring expenses, partially offset by lower general and administrative expenses.

Adjusted income before taxes of CHF 327 million increased 9% and 6% compared to 4Q16 and 1Q16, respectively.

Capital and leverage metrics

As of the end of 1Q17, we reported risk-weighted assets of CHF 35.8 billion, an increase of CHF 0.5 billion compared to the end of 4Q16. Leverage exposure of CHF 93.6 billion was stable compared to the end of 4Q16.

PRIVATE BANKING

RESULTS

Income before taxes of CHF 239 million increased 5% compared to 4Q16, reflecting lower total operating expenses, partially offset by lower net revenues. Compared to 1Q16, income before taxes increased slightly mainly driven by higher net revenues, partially offset by slightly higher total operating expenses. Adjusted income before taxes of CHF 262 million increased 36% and 8% compared to 4Q16 and 1Q16, respectively.

Net revenues

Compared to 4Q16, net revenues of CHF 883 million were 4% lower, with significantly lower other revenues and slightly lower net interest income, partially offset by higher transaction- and performance-based revenues and higher recurring commissions and fees. Other revenues of CHF 1 million decreased CHF 52 million, mainly driven by the gain on the sale of real estate of CHF 54 million in 4Q16. Net interest income of CHF 342 million decreased slightly with stable deposit margins and higher loan margins on stable average deposit and loan volumes. Transaction- and

performance-based revenues of CHF 250 million increased 6%, mainly driven by higher revenues from trading services, including a revaluation gain on an equity investment of CHF 13 million, and higher brokerage and product issuing fees, partially offset by lower performance fees. Recurring commissions and fees of CHF 290 million were 5% higher, mainly due to higher banking services fees, higher security account and custody services fees and higher investment product management fees.

Compared to 1Q16, net revenues increased 4%, with higher net interest income and higher recurring commissions and fees, partially offset by slightly lower transaction- and performance-based revenues. Net interest income increased 5%, primarily reflecting higher loan and deposit margins on higher average loan and deposit volumes. Recurring commissions and fees increased 5%, mainly due to higher investment product management fees and higher security account and custody services fees. Transaction- and performance-based revenues decreased slightly, driven by lower revenues from trading services, partially offset by higher brokerage and product issuing fees.

Provision for credit losses

In 1Q17, provision for credit losses was CHF 2 million, compared to provision for credit losses of CHF 6 million in 4Q16 and a release of provision for credit losses of CHF 2 million in 1Q16.

Total operating expenses

Compared to 4Q16, total operating expenses of CHF 642 million decreased 6%, mainly due to lower general and administrative expenses, partially offset by higher restructuring expenses. General and administrative expenses of CHF 197 million decreased 19%, mainly reflecting lower litigation provisions, lower allocated corporate function costs and lower professional services fees. Restructuring expenses of CHF 23 million increased CHF 12 million, reflecting efficiency measures including targeted headcount reductions completed in 1Q17. Compensation and benefits of CHF 381 million were stable. Adjusted total operating expenses of CHF 619 million were 7% lower compared to 4Q16.

Compared to 1Q16, total operating expenses increased slightly, mainly driven by higher compensation and benefits and higher restructuring expenses, partially offset by lower general and administrative expenses. Compensation and benefits increased 9%, mainly due to higher discretionary compensation expenses. Restructuring expenses increased CHF 13 million reflecting efficiency measures including targeted headcount reductions completed in 1Q17. General and administrative expenses decreased 11%, primarily reflecting lower litigation provisions, lower contractor services fees and lower allocated corporate function costs. Adjusted total operating expenses were stable compared to 1Q16.

MARGINS**Gross margin**

Our gross margin was 108 basis points in 1Q17, a decline of eight basis points compared to 4Q16, primarily driven by lower other revenues reflecting the gain on the sale of real estate in 4Q16, a 3.5% increase in average assets under management and slightly lower net interest income, partially offset by higher transaction- and performance-based revenues and higher recurring commissions and fees. Our gross margin was eleven basis points lower compared to 1Q16, mainly reflecting a 13.8% increase in average assets under management, partially offset by higher net interest income and higher recurring commissions and fees. On the basis of adjusted net revenues, our gross margin was 108 basis points in 1Q17, one basis point lower compared to 4Q16 and eleven basis points lower compared to 1Q16.

► Refer to "Assets under management" for further information.

Net margin

Our net margin of 29 basis points in 1Q17 was stable compared to 4Q16, reflecting lower total operating expenses, offset by lower net revenues and the 3.5% increase in average assets under management. Our net margin was three basis points lower compared to 1Q16, reflecting the 13.8% increase in average assets under management and slightly higher total operating expenses, partially offset by higher net revenues. On the basis of adjusted income before taxes, our net margin was 32 basis points in 1Q17, eight basis points higher compared to 4Q16 and two basis points lower compared to 1Q16.

ASSETS UNDER MANAGEMENT

As of the end of 1Q17, assets under management of CHF 336.2 billion were CHF 13.0 billion higher compared to the end of 4Q16, reflecting favorable market movements and net new assets of CHF 4.7 billion, partially offset by unfavorable foreign exchange-related movements. The net new assets reflected solid inflows from emerging markets and Europe, both at a 6% annualized growth rate.

Management fees include fees on assets under management, asset administration revenues and transaction fees related to the acquisition and disposal of investments in the funds being managed. Performance revenues relate to the performance or return of the funds being managed and includes investment-related gains and losses from proprietary funds. Placement revenues arise from our third-party private equity fundraising activities and secondary private equity market advisory services. Investment and partnership income includes equity participation income from seed capital returns and from minority investments in third-party asset managers, income from strategic partnerships and distribution agreements, and other revenues.

RESULTS

Income before taxes of CHF 52 million decreased 50% compared to 4Q16, driven by lower net revenues and slightly higher total operating expenses. Income before taxes decreased 22% compared to 1Q16, driven by higher total operating expenses, partially offset by higher net revenues. Adjusted income before taxes of CHF 65 million decreased 40% compared to 4Q16 and was stable compared to 1Q16.

Net revenues

Compared to 4Q16, net revenues of CHF 338 million decreased 11%, mainly driven by significantly lower performance and placement revenues, partially offset by higher management fees. Performance and placement revenues decreased CHF 66 million to CHF 42 million mainly due to year-end performance fees in 4Q16, lower placement fees and lower investment-related gains. Investment and partnership income decreased CHF 3 million to CHF 42 million. Management fees of CHF 254 million increased 11%, reflecting higher average assets under management.

Compared to 1Q16, net revenues increased 6%, mainly due to higher management fees and higher performance and placement

revenues, partially offset by lower investment and partnership income. Management fees increased 13% reflecting higher average assets under management. Performance and placement revenues increased CHF 25 million, mainly driven by higher placement fees and higher performance fees. Investment and partnership income decreased 46%, mainly as 1Q16 included a residual gain from a private equity interest of CHF 45 million.

Total operating expenses

Compared to 4Q16, total operating expenses of CHF 286 million increased slightly, mainly due to higher general and administrative expenses and higher restructuring expenses, partially offset by lower compensation and benefits. General and administrative expenses of CHF 85 million increased 12%, mainly due to higher allocated corporate function costs. Restructuring expenses of CHF 13 million increased CHF 8 million, reflecting efficiency measures including targeted headcount reductions completed in 1Q17. Compensation and benefits of CHF 175 million decreased 4% mainly from lower deferred compensation expenses from prior-year awards. Adjusted total operating expenses of CHF 273 million were stable compared to 4Q16.

International Wealth Management

Compared to 1Q16, total operating expenses increased 13%, reflecting higher compensation and benefits and higher restructuring expenses. Compensation and benefits were 15% higher, mainly driven by higher discretionary compensation expenses and higher salary expenses, partially offset by lower deferred compensation expenses from prior-year awards. Restructuring expenses were CHF 15 million higher, reflecting efficiency measures including targeted headcount reductions completed in 1Q17. Adjusted total operating expenses were 7% higher compared to 1Q16.

ASSETS UNDER MANAGEMENT

As of the end of 1Q17, assets under management of CHF 367.1 billion were CHF 45.5 billion higher compared to the end of 4Q16, reflecting a structural effect from assets under management reported for multi-asset class solutions, net new assets of CHF 15.0 billion and favorable market movements, partially offset by unfavorable foreign exchange-related movements. Net new assets reflected inflows of CHF 6.2 billion in traditional and alternative investments, also reflecting collaboration with Credit Suisse's global wealth management business, and CHF 8.8 billion from emerging market joint ventures.

Asia Pacific

In 1Q17, we reported income before taxes of CHF 147 million and net revenues of CHF 881 million. Income before taxes increased 43% compared to 4Q16 and decreased 44% compared to 1Q16.

RESULTS SUMMARY

In 1Q17, we implemented a change to the financial reporting for our Asia Pacific division. Our wealth management, financing and underwriting and advisory teams are working more closely together to deliver integrated advisory services and solutions to our target ultra-high-net-worth, entrepreneur and corporate clients. Our new Wealth Management & Connected business now combines our activities in wealth management (our Private Banking business) with our financing, underwriting and advisory activities (formerly part of the Investment Banking business) for this important client group. Our new Markets business (formerly part of the Investment Banking business) represents our existing equities and fixed income trading business in Asia Pacific, which continues to support our wealth management activities, but also deals extensively with a broader range of institutional clients. Prior periods have been reclassified to conform to the current presentation.

1Q17 results

In 1Q17, we reported income before taxes of CHF 147 million and net revenues of CHF 881 million. Compared to 4Q16, net revenues increased slightly, driven by the Wealth Management & Connected business, as higher revenues from the ultra-high-net-worth

and high-net-worth individual client business in Private Banking were partially offset by lower advisory, underwriting and financing revenues. Net revenues from the Markets business decreased due to lower equity sales and trading revenues, partially offset by higher fixed income sales and trading revenues. Provision for credit losses was CHF 4 million in 1Q17, compared to a provision of CHF 11 million in 4Q16. Total operating expenses of CHF 730 million decreased slightly, primarily due to lower commission expenses.

Compared to 1Q16, net revenues decreased slightly, driven by significantly lower revenues in the Markets business, mainly due to lower fixed income and equity sales and trading revenues, partially offset by the Wealth Management & Connected business, reflecting higher Private Banking revenues and higher advisory, underwriting and financing revenues. Total operating expenses increased 10%, primarily from higher general and administrative expenses, increased compensation and benefits driven by growth-related higher headcount, including in risk and compliance functions, and higher restructuring expenses reflecting ongoing cost management initiatives.

Adjusted income before taxes of CHF 166 million increased 36% compared to 4Q16 and decreased 37% compared to 1Q16.

Capital and leverage metrics

At the end of 1Q17, we reported risk-weighted assets of CHF 33.1 billion, a decrease of CHF 1.5 billion compared to the end of 4Q16, mainly reflecting lower risk levels, primarily from market risk,

and a foreign exchange impact, partially offset by increases from methodology changes. Leverage exposure was CHF 106.5 billion, reflecting a decrease of CHF 2.5 billion compared to the end of 4Q16, mainly reflecting the foreign exchange impact.

WEALTH MANAGEMENT & CONNECTED

RESULTS

Income before taxes of CHF 201 million increased 24% compared to 4Q16, primarily reflecting higher net revenues, lower provision for credit losses and lower total operating expenses. Higher net revenues reflected increased Private Banking revenues, partially offset by lower advisory, underwriting and financing revenues. Compared to 1Q16, income before taxes increased 65%, primarily from higher net revenues across both Private Banking and advisory, underwriting and financing, partially offset by higher total operating expenses and higher provision for credit losses. Adjusted income before taxes of CHF 205 million increased 23% compared to 4Q16 and 67% compared to 1Q16.

Net revenues

Net revenues of CHF 589 million increased 5% compared to 4Q16, mainly driven by increased transaction-based revenues, partially offset by lower recurring commissions and fees and lower

advisory, underwriting and financing revenues. Transaction-based revenues increased 43% to CHF 163 million, mainly due to higher brokerage and product issuing fees. Recurring commissions and fees decreased 12% to CHF 81 million, primarily due to lower other commissions and fees reflecting the absence of the positive impact of an adjustment relating to treasury allocations of CHF 19 million in 4Q16, partially offset by higher wealth structuring solutions fees. Advisory, underwriting and financing revenues decreased 5% to CHF 178 million, due to lower financing revenues and lower fees from equity underwriting reflecting a decline in client activity with regard to IPOs, partially offset by an increase in fees from debt underwriting and M&A transactions. The lower financing revenues included a positive net fair value impact of CHF 29 million in 1Q17, compared to CHF 75 million in 4Q16, from an impaired loan portfolio in recovery management. Net interest income was stable at CHF 168 million.

Asia Pacific

Compared to 1Q16, net revenues increased 44%, mainly driven by higher advisory, underwriting and financing revenues, increased transaction-based revenues and higher net interest income. Advisory, underwriting and financing revenues increased 100% due to higher financing revenues including the positive net fair value impact from the impaired loan portfolio in recovery management, higher advisory fees from M&A transactions and higher debt underwriting revenues. Transaction-based revenues increased 27%, primarily reflecting higher brokerage and product issuing fees and higher corporate advisory fees arising from integrated solutions. Net interest income increased 25% reflecting higher deposit margins on higher average deposit volumes and lower loan margins on higher average loans volumes. Other revenues increased CHF 15 million as 1Q16 included a reversal of gains on credit hedges that was offset by a corresponding release of provision for credit losses. Recurring commissions and fees increased 11%, mainly due to higher investment product management and wealth structuring solutions fees.

Provision for credit losses

The Wealth Management & Connected loan portfolio primarily comprises Private Banking lombard loans, mainly backed by listed securities, and secured and unsecured loans to corporates.

In 1Q17, Wealth Management & Connected recorded a provision for credit losses of CHF 4 million, compared to a provision for credit losses of CHF 11 million in 4Q16 and a release of provision for credit losses of CHF 19 million in 1Q16.

Total operating expenses

Total operating expenses were stable at CHF 384 million compared to 4Q16, mainly reflecting lower general and administrative expenses, partially offset by slightly higher compensation and benefits. General and administrative expenses decreased 7% to CHF 99 million, mainly due to lower expenses for product development and support and IT infrastructure, and lower professional services fees. Compensation and benefits increased slightly to CHF 267 million, primarily driven by higher deferred compensation expenses from prior-year awards and higher discretionary compensation expenses, partially offset by lower salary expenses.

Compared to 1Q16, total operating expenses increased 26%, mainly reflecting higher compensation and benefits and higher general and administrative expenses. Compensation and benefits increased 27%, primarily driven by higher salary expenses and higher discretionary compensation expenses reflecting growth-related higher headcount. General and administrative expenses increased 19%, mainly due to higher allocated corporate function costs, primarily for risk management and compliance support.

MARKETS

RESULTS

Loss before taxes of CHF 54 million in 1Q17 decreased 8% compared to the loss before taxes of CHF 59 million in 4Q16, mainly due to lower total operating expenses, partially offset by lower net revenues. The loss before taxes in 1Q17 compared to income before taxes of CHF 142 million in 1Q16. The related decrease of CHF 196 million primarily reflected lower net revenues, partially offset by lower total operating expenses. Adjusted loss before taxes of CHF 39 million in 1Q17 compared to adjusted loss before taxes of CHF 45 million in 4Q16 and adjusted income before taxes of CHF 142 million in 1Q16.

Net revenues

Net revenues of CHF 292 million decreased slightly compared to 4Q16, reflecting lower equity sales and trading revenues, partially offset by higher fixed income sales and trading revenues. Equity sales and trading revenues decreased 13% to CHF 234 million,

mainly due to lower revenues from prime services and challenging operating conditions in systematic market making. The transition of this business to International Wealth Management was completed in 1Q17. Fixed income sales and trading revenues increased 81% to CHF 58 million, mainly due to higher revenues from emerging markets rates products and credit products, partially offset by lower revenues from foreign exchange products.

Compared to 1Q16, net revenues decreased 41%, due to lower fixed income and equity sales and trading revenues. Fixed income sales and trading revenues decreased 74%, mainly driven by lower revenues from developed markets rates products and foreign exchange products reflecting lower client activity, partially offset by higher revenues from credit products. Equity sales and trading revenues decreased 16%, mainly due to lower revenues from equity derivatives, primarily driven by reduced market volatility in China and emerging markets, partially offset by reduced losses from systematic market making.

Total operating expenses

Total operating expenses of CHF 346 million decreased 4% compared to 4Q16, mainly due to lower commission expenses and lower compensation and benefits, partially offset by higher general and administrative expenses. Commission expenses decreased 22% to CHF 53 million, primarily reflecting the transition of the systematic market making business to the Asset Management business in International Wealth Management and the absence of the adjustment relating to commission expenses charged by Global Markets in 4Q16. Compensation and benefits decreased 6% to CHF 157 million, primarily driven by lower deferred compensation expenses from prior-year awards and lower salary expenses. General and administrative expenses increased 8% to CHF 121 million, mainly due to higher marketing expenses and professional services fees. Adjusted total operating expenses of CHF 331 million decreased 5% compared to 4Q16.

Compared to 1Q16, total operating expenses decreased 4%, mainly reflecting lower compensation and benefits, partially offset by restructuring expenses in 1Q17, reflecting ongoing cost management initiatives, and higher general and administrative expenses. Compensation and benefits decreased 19%, primarily driven by lower deferred compensation expenses from prior-year awards and lower salary expenses. Commission expenses decreased 10%, primarily reflecting the transition of the systematic market making business to the Asset Management business in International Wealth Management. General and administrative expenses increased 13%, mainly due to higher prime services expenses and marketing expenses. Adjusted total operating expenses decreased 8% compared to 1Q16.

Global Markets

In 1Q17, Global Markets reported income before taxes of CHF 317 million and net revenues of CHF 1,609 million. Net revenues increased 27% compared to 4Q16, reflecting a seasonal increase in client activity.

RESULTS SUMMARY

1Q17 results

In 1Q17, we reported income before taxes of CHF 317 million and net revenues of CHF 1,609 million. Compared to 4Q16, net revenues increased 27%, reflecting a 50% increase in credit revenues, a 4% increase in equities revenues and stable solutions revenues. Compared to a weak 1Q16, net revenues increased 29%, reflecting more favorable market conditions, particularly in our credit businesses which increased 135%. This increase was partially offset by lower equities revenues which declined 13% and solutions revenues which decreased 24%.

Total operating expenses of CHF 1,287 million increased slightly compared to 4Q16, as higher discretionary compensation expenses were mostly offset by lower allocated corporate function costs. Compared to 1Q16, total operating expenses decreased

9%, reflecting lower restructuring costs of CHF 20 million incurred in 1Q17 and reduced allocated corporate function costs. We delivered a substantial improvement in profitability with an adjusted income before taxes of CHF 337 million in 1Q17, compared to an adjusted income before taxes of CHF 20 million in 4Q16 and an adjusted loss before taxes of CHF 98 million in 1Q16.

Capital and leverage metrics

As of the end of 1Q17, we reported risk-weighted assets of USD 52.0 billion, reflecting an increase of USD 1.5 billion compared to the end of 4Q16. Leverage exposure was USD 287.2 billion, reflecting an increase of USD 9.4 billion compared to the end of 4Q16. Both risk weighted assets and leverage exposure increased compared to 4Q16 due to a seasonal increase in client activity.

RESULTS

Equities

In 1Q17, equities revenues of CHF 463 million increased 4% compared to 4Q16, reflecting a seasonal increase in client activity. Cash equities revenues increased driven by significantly higher industry-wide equities underwriting activity as well as improved trading results across regions. Prime services revenues increased, reflecting growth in client balances and higher commissions in listed derivatives.

Compared to 1Q16, equities revenues declined 13%, primarily due to challenging operating conditions in systematic market making and the transition of the business to International Wealth Management in 1Q17. This was partially offset by significantly increased equities underwriting revenues as more favorable market conditions, particularly low levels of volatility, led to higher initial public offering (IPO) and follow-on activity. Cash trading revenues

were higher, particularly in Latin America, despite an overall challenging market environment, characterized by low volumes and volatility across EMEA and the US. We also had resilient, albeit slightly lower prime services revenues, as reduced client activity in line with lower volumes was offset by growth in client balances.

Credit

In 1Q17, credit revenues of CHF 918 million increased 50% compared to 4Q16, reflecting a seasonal increase in client activity and favorable market conditions. Securitized products revenues increased across all products reflecting higher trading volumes, particularly in our non-agency and agency businesses. Global credit products revenues increased, reflecting improved leveraged finance and investment grade industry-wide issuance which resulted in higher trading revenues.

Global Markets

Compared to 1Q16, credit revenues increased 135%, reflecting more favorable market conditions, notably improved credit asset prices and lower volatility, which supported increased client activity. In 1Q16, results reflected reduced levels of client activity related to challenging credit market conditions, which adversely impacted our securitized products and global credit products franchises. Securitized products trading revenues increased significantly, reflecting a marked improvement in non-agency and agency trading results. This compares to subdued 1Q16 results, which were negatively impacted by mark-to-market losses in certain collateralized loan obligations (CLO) and non-agency and agency commercial mortgage-backed securities (CMBS). Global credit products revenues increased significantly, albeit from subdued levels, primarily reflecting a substantial rebound in leveraged finance industry-wide issuance activity, particularly in the Americas, which led to higher trading revenues. In addition, corporate lending revenues rebounded compared to weak 1Q16 results, which included mark-to-market losses related to lower oil prices.

Solutions

In 1Q17, solutions revenues of CHF 262 million were stable compared to 4Q16, as improved global macro products and emerging markets revenues were offset by lower equity derivatives revenues. Global macro products revenues increased, reflecting higher rates and foreign exchange results. We also had higher emerging markets revenues driven by an increase in structured products revenues. These gains were offset by lower equity derivatives results as low levels of volatility led to reduced client activity.

Compared to 1Q16, solutions revenues decreased 24%, as reduced client activity in equity derivatives and global macro products more than offset a rebound in emerging markets revenues. Global macro products revenues declined compared to strong 1Q16 performance, primarily due to our reduced issuance of

structured notes. In addition, equity derivatives revenues declined as reduced client activity in corporate and flow derivatives offset improved structured derivatives and convertibles performance. These declines were partially offset by a substantial increase in emerging markets revenues, albeit from subdued 1Q16 levels, reflecting higher trading activity in Brazil and improved financing revenues.

Provision for credit losses

Global markets recorded a provision for credit losses of CHF 5 million in 1Q17. This compares to a release of provision of CHF 4 million in 4Q16 and a provision for credit losses of CHF 23 million in 1Q16.

Total operating expenses

In 1Q17, total operating expenses of CHF 1,287 million were slightly higher compared to 4Q16, as higher compensation and benefits expenses were partially offset by lower general and administrative expenses. The increase in compensation and benefits was primarily driven by higher discretionary compensation expenses, partially offset by lower salary expenses. The decrease in general and administrative expenses was primarily driven by reduced allocated corporate function costs.

Compared to 1Q16, total operating expenses decreased 9%, reflecting lower restructuring costs of CHF 20 million incurred in 1Q17 and reduced general and administrative expenses, partially offset by increased compensation and benefits. General and administrative expenses declined due to reduced allocated corporate function costs. The increase in compensation and benefits was primarily due to higher discretionary compensation expenses, partially offset by both lower deferred compensation expenses from prior-year awards and salary expenses. Adjusted total operating expenses decreased 4%.

Investment Banking & Capital Markets

In 1Q17, Investment Banking & Capital Markets reported income before taxes of CHF 149 million and net revenues of CHF 606 million. Net revenues increased 56% compared to 1Q16, outperforming the industry-wide fee pool which was up 25%.

RESULTS SUMMARY

1Q17 results

In 1Q17, we reported income before taxes of CHF 149 million, stable compared to 4Q16. Net revenues of CHF 606 million increased 6% compared to 4Q16, due to higher revenues from underwriting and improved performance from our corporate lending portfolio, partially offset by lower revenues from advisory and other fees. Compared to 4Q16, debt underwriting revenues increased 28%, equity underwriting revenues increased 4% and revenues from advisory and other fees decreased 19%. Total operating expenses of CHF 451 million increased 6%, driven by higher compensation and benefits and restructuring expenses.

Compared to 1Q16, our reported income before taxes increased significantly to CHF 149 million in 1Q17, driven by

higher revenues and lower restructuring expenses. Net revenues increased 56%, primarily driven by higher debt and equity underwriting revenues. Debt underwriting revenues increased 64% and equity underwriting revenues increased 134%, while revenues from advisory and other fees decreased 5%.

Capital and leverage metrics

As of the end of 1Q17, risk-weighted assets were USD 18.6 billion, an increase of USD 1.0 billion compared to the end of 4Q16. The increase was driven primarily by regulatory methodology changes and modest growth in the Corporate Bank. Leverage exposure was USD 44.0 billion, a decrease of USD 0.6 billion compared to the end of 4Q16, driven by a reduction in high-quality liquid assets.

RESULTS**Advisory and other fees**

In 1Q17, revenues from advisory and other fees of CHF 218 million decreased 19% compared to 4Q16, reflecting lower revenues from completed M&A transactions.

Revenues decreased 5% compared to 1Q16, slightly more than the industry-wide decline in the overall M&A fee pool.

Debt underwriting

In 1Q17, debt underwriting revenues of CHF 291 million increased 28% compared to 4Q16, driven by higher leveraged finance and investment grade underwriting revenues, partially offset by lower derivatives financing revenues.

Compared to 1Q16, revenues increased 64%, driven by higher leveraged finance and investment grade underwriting revenues, partially offset by lower derivatives financing revenues.

Equity underwriting

In 1Q17, revenues from equity underwriting of CHF 103 million increased 4% compared to 4Q16, primarily driven by higher revenues from rights offerings.

Compared to 1Q16, revenues increased 134%, primarily driven by higher revenues from IPOs and follow-on offerings.

Provision for credit losses

In 1Q17, we recorded a provision for credit losses of CHF 6 million. There was no provision for credit losses recorded in 4Q16, while in 1Q16 we recorded a provision for credit losses of CHF 29 million, primarily relating to the energy sector.

Total operating expenses

Total operating expenses of CHF 451 million increased 6% compared to 4Q16, driven by higher compensation and benefits and restructuring expenses. Compensation and benefits of CHF 348 million increased 6%, reflecting higher deferred compensation, partially offset by a lower discretionary compensation accrual. General and administrative expenses of CHF 101 million remained stable.

Compared to 1Q16, total operating expenses increased 7%, driven by an increase in compensation and benefits primarily due to an increased discretionary compensation accrual in line with the improvement in business performance, partially offset by lower restructuring expenses.

Global advisory and underwriting revenues

The Group's global advisory and underwriting business operates across multiple business divisions that work in close collaboration with each other to generate these revenues. In order to reflect the global performance and capabilities of this business and for enhanced comparability versus its peers, the following table aggregates total advisory and underwriting revenues for the Group into a single metric in US dollar terms before cross-divisional revenue sharing agreements.

Strategic Resolution Unit

In 1Q17, the Strategic Resolution Unit reported a loss before taxes of CHF 539 million and decreased its risk-weighted assets by USD 3.1 billion and its leverage exposure by USD 20.8 billion.

RESULTS SUMMARY

1Q17 results

In 1Q17, we reported a loss before taxes of CHF 539 million compared to losses of CHF 2,895 million in 4Q16 and CHF 1,253 million in 1Q16. In 1Q17, we reported an adjusted loss before taxes of CHF 500 million, compared to adjusted losses of CHF 521 million in 4Q16 and CHF 1,170 million in 1Q16.

We reported negative net revenues of CHF 206 million in 1Q17, primarily driven by overall funding costs, partially offset by revenues from our legacy cross-border and small markets businesses. Total operating expenses in 1Q17 were CHF 309 million, including CHF 207 million of general and administrative expenses, of which CHF 81 million were litigation provisions, and CHF 88 million were compensation and benefits expenses. In 1Q17, we reported adjusted total operating expenses of CHF 232 million, compared to CHF 289 million in 4Q16 and CHF 518 million in 1Q16.

Capital and leverage metrics

As of the end of 1Q17, we reported risk-weighted assets of USD 41.3 billion, a decrease of USD 3.1 billion and USD 25.6 billion compared to the end of 4Q16 and 1Q16, respectively. Leverage exposure was USD 82.6 billion as of the end of 1Q17, reflecting a decrease of USD 20.8 billion and USD 84.3 billion compared to the end of 4Q16 and 1Q16, respectively. In 1Q17, risk-weighted assets and leverage exposure reduction was achieved by various initiatives, including wholesale portfolio exits, the sale of certain loan facilities to third parties, and the continued novations, compressions and unwinds across our legacy investment banking derivatives portfolio.

RESULTS**Net revenues**

We reported negative net revenues of CHF 206 million in 1Q17 compared to negative net revenues of CHF 202 million in 4Q16 and CHF 541 million in 1Q16. Compared to 4Q16, the movement was driven by lower fee-based revenues as a result of accelerated business exits relating to our legacy investment banking portfolio. This movement was partially offset by lower negative net revenues relating to the restructuring of our former Asset Management division and higher revenues relating to the restructuring of select

onshore businesses, including the sale of our wealth management business in Monaco. Compared to 1Q16, the improvement was primarily driven by lower negative valuation adjustments and exit costs relating to our legacy investment banking portfolio, partially offset by lower fee-based revenues from the restructuring of select onshore businesses, in particular the transfer of our US private banking business. Valuation adjustments in 1Q17 primarily reflected mark-to-market losses on our legacy investment banking portfolio, including our credit trading and emerging markets loan portfolios.

Provision for credit losses

In 1Q17, there was a provision for credit losses of CHF 24 million compared to CHF 28 million in 4Q16 and CHF 115 million in 1Q16. Provision for credit losses in 1Q17 was primarily related to corporate loans and the disposal of a portfolio of senior financing on US middle market loans in 1Q17.

Total operating expenses

Total operating expenses of CHF 309 million decreased CHF 2,356 million compared to 4Q16, primarily reflecting lower general and administrative expenses, due to lower litigation provisions of CHF 2,307 million mainly in connection with

mortgage-related matters. Compared to 1Q16, total operating expenses decreased CHF 288 million, primarily due to lower compensation and benefits, general and administrative expenses and restructuring expenses as a result of various cost reduction initiatives, including the impact of the transfer of our US private banking business. Total operating expenses in 1Q17 included costs of CHF 51 million to meet requirements related to the settlements with US authorities regarding US cross-border matters. Adjusted total operating expenses were CHF 232 million in 1Q17, compared to CHF 289 million in 4Q16 and CHF 518 million in 1Q16, a decline of 20% and 55%, respectively.

Corporate Center

Corporate Center includes parent company operations such as Group financing, expenses for projects sponsored by the Group and certain expenses and revenues that have not been allocated to the segments. It also includes consolidation and elimination adjustments required to eliminate intercompany revenues and expenses.

1Q17 results

In 1Q17, Corporate Center recorded a loss before taxes of CHF 99 million compared to a loss before taxes of CHF 278 million in 4Q16 and income before taxes of CHF 33 million in 1Q16.

Compensation and benefits mainly reflect fair value adjustments on certain deferred compensation plans not allocated to the segments and certain deferred compensation retention awards relating to Global Markets and Investment Banking & Capital Markets intended to support the restructuring of the Group predominantly through the end of 2017. General and administrative expenses primarily reflected costs associated with the evolution of our legal entity structure to meet developing and future regulatory requirements. Other revenues include required elimination adjustments associated with trading in own shares.

Assets under management

As of the end of 1Q17, assets under management were CHF 1,304.2 billion, 4.2% higher compared to the end of 4Q16, reflecting net new assets of CHF 24.4 billion and favorable market movements.

1Q17 results

As of the end of 1Q17, assets under management of CHF 1,304.2 billion increased CHF 53.1 billion compared to the end of 4Q16. The increase was mainly driven by net new assets of CHF 24.4 billion, a structural effect from assets under management reported for multi-asset class solutions in International Wealth Management and favorable market movements, partially offset by unfavorable foreign exchange-related movements.

Net new assets of CHF 24.4 billion reflected net new assets of CHF 15.0 billion in the Asset Management business of International Wealth Management, mainly reflecting inflows from

emerging market joint ventures and from traditional and alternative investments, net new assets of CHF 5.3 billion in the Private Banking business of Asia Pacific, primarily from inflows in Greater China, South East Asia and Japan and net new assets of CHF 4.7 billion in the Private Banking business of International Wealth Management from solid inflows from emerging markets and Europe.

Additional financial metrics

Balance sheet

As of the end of 1Q17, total assets of CHF 812.0 billion decreased 1% compared to 4Q16, reflecting the foreign exchange translation impact, partially offset by an increase in operating activities. Excluding the foreign exchange translation impact, total assets increased CHF 1.6 billion.

Range of reasonably possible losses related to certain legal proceedings

The Group's estimate of the aggregate range of reasonably possible losses that are not covered by existing provisions for certain proceedings for which the Group believes an estimate is possible was zero to CHF 1.2 billion as of the end of 1Q17.

Total shareholders' equity

Credit Suisse's total shareholders' equity decreased from CHF 41.9 billion as of the end of 4Q16 to CHF 41.7 billion as of the end of 1Q17. Total shareholders' equity was negatively impacted by losses on fair value elected liabilities relating to credit risk and foreign exchange-related movements on cumulative translation adjustments. These movements were partially offset by net income attributable to shareholders and an increase in the share-based compensation obligation.

Capital metrics

The common equity tier 1 (CET1) ratio was 12.7% as of the end of 1Q17 compared to 13.5% as of the end of 4Q16, reflecting lower CET1 capital and lower risk-weighted assets. Credit Suisse's tier 1 ratio was 18.3% as of the end of 1Q17 compared to 18.0% as of the end of 4Q16. The total capital ratio was 20.3% as of the end of 1Q17 compared to 20.5% as of the end of 4Q16.

CET1 capital was CHF 33.8 billion as of the end of 1Q17 compared to CHF 36.6 billion as of the end of 4Q16, mainly reflecting an additional annual 20% phase-in of regulatory deductions from CET1 (from 60% to 80%), including goodwill, other intangible assets and certain deferred tax assets, and an additional annual 20% decrease in the adjustment for the accounting treatment of pension plans (from 40% to 20%), pursuant to phase-in requirements. CET1 capital was also affected by the negative foreign exchange impact, partially offset by net income attributable to shareholders.

Total eligible capital was CHF 53.8 billion as of the end of 1Q17 compared to CHF 55.7 billion as of the end of 4Q16, primarily reflecting the decreases in CET1 capital and tier 2 capital.

Risk-weighted assets decreased 2% to CHF 265.3 billion as of the end of 1Q17 compared to CHF 271.4 billion as of the end of 4Q16, primarily driven by a reduction in risk levels, mainly in credit risk and market risk, a negative foreign exchange impact and internal methodology and policy changes in market risk. These movements were partially offset by increases resulting from external methodology and policy changes in credit risk.

As of the end of 1Q17, the look-through CET1 ratio was 11.7% compared to 11.5% as of the end of 4Q16.

Leverage metrics

The Bank for International Settlements (BIS) tier 1 leverage ratio was 5.2% as of the end of 1Q17, with a BIS CET1 component of 3.6%. On a look-through basis, the BIS tier 1 leverage ratio was 4.6% as of the end of 1Q17, with a BIS CET1 component of 3.3%.

The look-through leverage exposure was CHF 935.9 billion as of the end of 1Q17.

Important information

The Group has not finalized its 1Q17 Financial Report and the Group's independent registered public accounting firm has not completed its review of the condensed consolidated financial statements (unaudited) for the period. Accordingly, the financial information contained in this Earnings Release is subject to completion of quarter-end procedures, which may result in changes to that information. Certain reclassifications have been made to prior periods to conform to the current presentation.

For purposes of this Earnings Release, unless the context otherwise requires, the terms "Credit Suisse" and "the Group" mean Credit Suisse Group AG and its consolidated subsidiaries. The business of Credit Suisse AG, the direct bank subsidiary of the Group, is substantially similar to the Group, and these terms are used to refer to both when the subject is the same or substantially similar. The term "the Bank" is used when referring to Credit Suisse AG and its consolidated subsidiaries.

Information referenced in this Earnings Release, whether via website links or otherwise, is not incorporated into this Earnings Release.

As of January 1, 2013, Basel III was implemented in Switzerland along with the Swiss "Too Big to Fail" legislation and regulations thereunder (in each case, subject to certain phase-in periods). As of January 1, 2015, the BIS leverage ratio framework, as issued by BCBS, was implemented in Switzerland by FINMA. Our related disclosures are in accordance with Credit Suisse's interpretation of such requirements, including relevant assumptions. Changes in the interpretation of these requirements in Switzerland or in any of Credit Suisse's assumptions or estimates could result in different numbers from those shown herein.

Unless otherwise noted, leverage exposure is based on the BIS leverage ratio framework and consists of period-end balance sheet assets and prescribed regulatory adjustments. Beginning in 2015, the Swiss leverage ratio is calculated as Swiss total eligible capital, divided by period-end leverage exposure. The look-through BIS tier 1 leverage ratio and CET1 leverage ratio are calculated as look-through BIS tier 1 capital and CET1 capital, respectively, divided by end-period leverage exposure.

Return on regulatory capital is calculated using income after tax and assumes a tax rate of 30% and capital allocated based on the worst of 10% of average risk-weighted assets and 3.5% of average leverage exposure. For Global Markets and Investment Banking & Capital Markets, return on regulatory capital is based on US dollar denominated numbers.

We may not achieve all of the expected benefits of our strategic initiatives. Factors beyond our control, including but not limited to the market and economic conditions, changes in laws, rules or regulations and other challenges discussed in our public filings, could limit our ability to achieve some or all of the expected benefits of these initiatives.

The Group's estimate of the aggregate range of reasonably possible losses that are not covered by existing provisions which is discussed above relates only to those proceedings for which the Group believes an estimate is possible and which are discussed in Note 39 to the Consolidated Financial Statements in the Group's Annual Report on Form 20-F and updated in its quarterly reports (including the Group's 1Q17 Financial Report that is scheduled to be released on May 4, 2017). It is inherently difficult to determine whether a loss is probable or even reasonably possible or to estimate the amount of any loss or loss range for many of the Group's legal proceedings. The Group's aggregate litigation provisions include estimates of losses, additional losses or ranges of loss for proceedings for which such losses are probable and can be reasonably estimated. The Group does not believe that it can estimate an aggregate range of reasonably possible losses for certain of its proceedings because of their complexity, the novelty of some of the claims, the early stage of the proceedings, the limited amount of discovery that has occurred and/or other factors. For additional details, see Note 39 to the Consolidated Financial Statements in the Group's Annual Report on Form 20-F and the litigation note in each of its quarterly Financial Reports.

¹ Includes regulatory adjustments not subject to phase-in, including a cumulative dividend accrual.

² Reflects 80% phase-in deductions, including goodwill, other intangible assets and certain deferred tax assets, and 20% of an adjustment primarily for the accounting treatment of pension plans pursuant to phase-in requirements.

³ Consists of high-trigger and low-trigger capital instruments. Of this amount, CHF 7.6 billion consists of capital instruments with a capital ratio write-down trigger of 7% and CHF 5.0 billion consists of capital instruments with a capital ratio write-down trigger of 5.125%.

⁴ Includes hybrid capital instruments that are subject to phase-out.

⁵ Includes 20% of goodwill and other intangible assets (CHF 1.0 billion) and other capital deductions, including the regulatory reversal of gains/(losses) due to changes in own credit risk on fair-valued financial liabilities, which will be deducted from CET1 once Basel III is fully implemented.

⁶ Consists of low-trigger capital instruments with a capital ratio write-down trigger of 5%.

¹ Represents movements arising from updates to models and recalibrations of parameters.

² Represents internal changes impacting how exposures are treated.

³ Represents externally prescribed regulatory changes impacting how exposures are treated.

⁴ The look-through adjustment impacts only credit risk within the Corporate Center. The difference between phase-in and look-through risk-weighted assets relates to transitional arrangements such as the impact from pension assets and deferred tax assets not deducted from CET1 during the phase-in period and the transitional impact from threshold-related risk-weighted assets.

Return on regulatory capital

Credit Suisse measures firm-wide returns against total shareholders' equity and tangible shareholders' equity. In addition, it also measures the efficiency of the firm and its divisions with regard to the usage of capital as determined by the minimum requirements set by regulators. This regulatory capital is calculated as the worst of 10% of risk-weighted assets and 3.5% of the leverage exposure. Return on regulatory capital is calculated using income after tax and assumes a tax rate of 30% and capital allocated based on the worst of 10% of average risk-weighted assets and 3.5% of average leverage exposure. These percentages are used in the calculation in order to reflect the 2019 fully phased in Swiss regulatory minimum requirements for Basel III CET1 capital and

leverage ratio. For Global Markets and Investment Banking & Capital Markets, return on regulatory capital is based on US dollar denominated numbers.

Cautionary statement regarding forward-looking information

This document contains statements that constitute forward-looking statements. In addition, in the future we, and others on our behalf, may make statements that constitute forward-looking statements. Such forward-looking statements may include, without limitation, statements relating to the following:

- our plans, objectives or goals;
- our future economic performance or prospects;
- the potential effect on our future performance of certain contingencies; and
- assumptions underlying any such statements.

Words such as “believes,” “anticipates,” “expects,” “intends” and “plans” and similar expressions are intended to identify forward-looking statements but are not the exclusive means of identifying such statements. We do not intend to update these forward-looking statements except as may be required by applicable securities laws.

By their very nature, forward-looking statements involve inherent risks and uncertainties, both general and specific, and risks exist that predictions, forecasts, projections and other outcomes described or implied in forward-looking statements will not be achieved. We caution you that a number of important factors could cause results to differ materially from the plans, objectives, expectations, estimates and intentions expressed in such forward-looking statements. These factors include:

- the ability to maintain sufficient liquidity and access capital markets;
- market volatility and interest rate fluctuations and developments affecting interest rate levels;
