This document provides BIS Basel III leverage ratio information as of 31 March 2015, as required by the revised FINMA Circular 2008/22 “Disclosure – banks.”
BIS Basel III leverage ratio disclosure requirements

The Bank for International Settlements (BIS) Basel III disclosure requirements for the leverage ratio came into effect in Switzerland on 1 January 2015 and we therefore disclose the respective leverage ratio information on a quarterly basis starting in the first quarter of 2015.

The BIS Basel III leverage ratio is calculated by dividing the sum of period-end tier 1 capital by the period-end BIS Basel III total adjusted exposure (BIS Basel III Leverage Ratio Denominator (LRD)), which consists of IFRS on-balance sheet assets and off-balance sheet items, based on the regulatory scope of consolidation, and adjusted for netting of derivatives, eligible cash variation margin netting, net notional amounts less add-on deductions for written credit derivatives as well as an additional charge for counterparty credit risk related to securities financing transactions.

➔ Refer to our first quarter 2015 report for information on our Swiss SRB leverage ratio as of 31 March 2015

BIS Basel III leverage ratio

As of 31 March 2015, our total BIS Basel III leverage ratio was 3.4% on a fully applied basis and 4.4% on a phase-in basis.

The BIS Basel III LRD was CHF 991 billion on a fully applied basis and CHF 996 billion on a phase-in basis. The table “Reconciliation of IFRS total assets to BIS Basel III total on-balance sheet exposures excluding derivatives and securities financing transactions” below shows the difference between total IFRS assets per IFRS consolidation scope and on balance sheet exposures as per the “BIS Basel III leverage ratio common disclosure” table on the next page. The difference is due to the application of the regulatory scope of consolidation. In addition, carrying values for derivative financial instruments and securities financing transactions are deducted from IFRS total assets. They are measured differently under BIS Basel III leverage ratio rules and therefore added back in separate exposure line items in the “BIS Basel III leverage ratio common disclosure” table on the next page.

The following tables provide BIS Basel III leverage ratio information as of 31 March 2015 according to current disclosure requirements.

➔ Refer to "UBS Group AG consolidated supplemental disclosures required under Basel III Pillar 3 regulations" section of our Annual Report 2014 for more information on the regulatory scope of consolidation

### On-balance sheet exposures

1. On-balance sheet items (excluding derivatives and SFTs, but including collateral) 622,383
2. (Asset amounts deducted in determining Basel III tier 1 capital) (14,903)
3. **Total on-balance sheet exposures (excluding derivatives and SFTs)** 607,480

### Derivative exposures

4. Replacement cost associated with all derivatives transactions (i.e., net of eligible cash variation margin) 79,940
5. Add-on amounts for PFE associated with all derivatives transactions 111,876
6. Gross-up for derivatives collateral provided where deducted from the balance sheet assets pursuant to the operative accounting framework 2,021
7. (Deductions of receivables assets for cash variation margin provided in derivatives transactions) (26,558)
8. (Exempted CCP leg of client-cleared trade exposures) (11,400)
9. Adjusted effective notional amount of all written credit derivatives 194,812
10. (Adjusted effective notional offsets and add-on deductions for written credit derivatives) (169,088)
11. **Total derivative exposures** 181,603

### Securities financing transaction exposures

12. Gross SFT assets (with no recognition of netting), after adjusting for sale accounting transactions 189,328
13. (Netted amounts of cash payables and cash receivables of gross SFT assets) (67,371)
14. CCR exposure for SFT assets 33,572
15. Agent transaction exposures 0
16. **Total securities financing transaction exposures** 155,528

### Other off-balance sheet exposures

17. Off-balance sheet exposure at gross notional amount 188,766
18. (Adjustments for conversion to credit equivalent amounts) (137,513)
19. **Total off-balance sheet items** 51,253

### Total exposures (leverage ratio denominator), phase-in

20. Tier 1 capital 43,801
21. **Total exposures (leverage ratio denominator)** 995,863

### Capital and total exposures (leverage ratio denominator), fully applied

20. Tier 1 capital 43,801
21. **Total exposures (leverage ratio denominator)** 990,548

### Leverage ratio

22. **Basel III leverage ratio phase-in (%)** 4.4

### Capital and total exposures (leverage ratio denominator), fully applied

20. Tier 1 capital 33,515
21. **Total exposures (leverage ratio denominator)** 990,548

### Leverage ratio

22. **Basel III leverage ratio fully applied (%)** 3.4

---

1. Securities financing transactions.
2. Potential future exposure – Current exposure method (CEM add-on) based on notional amounts.
3. Central cleared counterparties.
4. Includes protection sold including agency transactions.
5. Protection sold can be offset with protection bought on the same underlying reference entity provided that the conditions according to the Basel III leverage ratio framework and disclosure requirements are met.
6. Counterparty credit risk.

Notice to investors | This document and the information contained herein are provided solely for information purposes, and are not to be construed as solicitation of an offer to buy or sell any securities or other financial instruments in Switzerland, the United States or any other jurisdiction. No investment decision relating to securities of or relating to UBS Group AG, UBS AG or their affiliates should be made on the basis of this document. Refer to UBS's first quarter 2015 report and its Annual Report 2014 for additional information. These reports are available at www.ubs.com/investors.

Rounding | Numbers presented throughout this document may not add up precisely to the totals provided in the tables and text. Percentages, percent changes and absolute variances are calculated based on rounded figures displayed in the tables and text and may not precisely reflect the percentages, percent changes and absolute variances that would be derived based on figures that are not rounded.

Tables | Within tables, blank fields generally indicate that the field is not applicable or not meaningful, or that information is not available as of the relevant date or for the relevant period. Zero values generally indicate that the respective figure is zero on an actual or rounded basis.
