¹ Refer to "Note 9 Earnings per share (EPS) and shares outstanding" in the "Consolidated financial statements" section of this report for more information. ² Refer to the "Performance targets and measurement" section of our Annual Report 2018 for more information on our performance targets. ³ Calculated as net profit attributable to shareholders (annualized as applicable) / average equity attributable to shareholders. ⁴ Calculated as net profit attributable to shareholders (annualized as applicable) / average equity attributable to shareholders less average goodwill and intangible assets. Effective 1 January 2019, the definition of the numerator for return on tangible equity has been revised to align with numerators for return on equity and return on CET1 capital; i.e., we no longer adjust for amortization and impairment of goodwill and intangible assets. Prior periods have been restated. ⁵ Calculated as net profit attributable to shareholders (annualized as applicable) / average common equity tier 1 capital. ⁶ Calculated as operating income before credit loss expense or recovery (annualized as applicable) / average risk-weighted assets and average leverage ratio denominator, respectively. ⁷ Calculated as operating expenses / operating income before credit loss expense or recovery. ⁸ Calculated as adjusted operating expenses / adjusted operating income before credit loss expense or recovery. ⁹ Calculated as change in net profit attributable to shareholders from continuing operations between current and comparison periods / net profit attributable to shareholders from continuing operations of comparison period. ¹⁰ Based on the Swiss systemically relevant bank framework as of 1 January 2020. Refer to the "Capital management" section of this report for more information. ¹¹ Refer to the "Balance sheet, liquidity and funding management" section of this report for more information. ¹² Includes invested assets for Global Wealth Management, Asset Management and Personal & Corporate Banking. ¹³ Refer to "UBS shares" in the "Capital management" section of this report for more information. ¹⁴ Beginning with our Annual Report 2018, the calculation of market capitalization has been amended to reflect total shares outstanding multiplied by the share price at the end of the period. The calculation was previously based on total shares issued multiplied by the share price at the end of the period. Market capitalization has been reduced by USD 2.1 billion as of 31 December 2018 and by USD 1.9 billion as of 30 June 2018 as a result. ¹⁵ Total book value per share and tangible book value per share in Swiss francs are calculated based on a translation of equity under our US dollar presentation currency. As a consequence of the restatement to a US dollar presentation currency, amounts may differ from those originally published in our quarterly and annual reports.

Performance measures: reasons for use

| | |
|--|---|
| Return on equity | This measure provides information on the profitability of the business in relation to equity. |
| Return on tangible equity | This measure provides information on the profitability of the business in relation to tangible equity. |
| Return on common equity tier 1 capital | This measure provides information on the profitability of the business in relation to common equity tier 1 capital. |
| Return on risk-weighted assets, gross | This measure provides information on the revenues of the business in relation to risk-weighted assets. |
| Return on leverage ratio denominator, gross | This measure provides information on the revenues of the business in relation to leverage ratio denominator. |
| Cost / income ratio | This measure provides information on the efficiency of the business by comparing operating expenses with gross income. |
| Adjusted cost / income ratio | This measure provides information on the efficiency of the business by comparing operating expenses with gross income, while excluding items that management believes are not representative of the underlying performance of the businesses. |
| Net profit growth | This measure provides information on profit growth in comparison with the prior-year period. |

UBS Group

Management report

Changes to our presentation currency

Effective from 1 October 2018, the presentation currency of UBS Group AG's consolidated financial statements has changed from Swiss francs to US dollars. Comparative information in this report for periods prior to the fourth quarter of 2018 has been restated. Assets, liabilities and total equity were translated to US dollars at closing exchange rates prevailing on the respective balance sheet dates, and income and expenses were translated at the respective average rates prevailing for the relevant periods.

Recent developments

Regulatory and legal developments

Swiss Corporate Tax Reform

In May 2019, the Swiss electorate approved corporate tax reform measures that abolish preferential corporate tax regimes and introduce a series of tax measures aligned with Organisation for Economic Co-operation and Development (OECD) standards, while seeking to maintain Switzerland's competitiveness as a business location. The federal changes resulting from this tax reform are not expected to have a significant effect on the tax expenses for the Group, as increases resulting from the reform are expected to be largely offset by tax rate reductions and other changes currently under consideration at the cantonal level. The federal reform will become effective on 1 January 2020.

The reform measures also provide that for Swiss domiciled companies with shares listed on a stock exchange no more than 50% of dividends may be, and at least 50% of share repurchases for redemption must be, paid out of capital contribution reserves, with the remainder required to be paid from retained earnings.

As a result, at least 50% of all dividends paid after 1 January 2020, including dividends in respect of the financial year 2019, will be paid from retained earnings, and will be subject to a 35% Swiss withholding tax. As of 30 June 2019, UBS held USD 13 billion in approved capital contribution reserves for potential future distributions to shareholders, either in the form of dividends or share buybacks.

Separately, following a change in Swiss tax law as of 1 January 2019 that applies to holding companies of systemically relevant banks issuing loss-absorbing additional tier 1 or total loss-absorbing capacity (TLAC)-eligible senior unsecured debt instruments, UBS will no longer issue such instruments out of UBS Group Funding (Switzerland) AG and existing instruments will be migrated to UBS Group AG during the second half of 2019.

EU equivalence for Swiss trading venues

On 18 June 2019, the European Commission decided not to extend its equivalence decision for Swiss trading venues beyond the end of June 2019, citing a perceived lack of progress toward the conclusion of an institutional framework agreement between Switzerland and the EU as the reason for this decision. In reaction, the Swiss Federal Council activated a contingency measure to protect the Swiss stock exchange infrastructure, effective as of 1 July 2019. The Swiss measure introduced a recognition requirement for foreign trading venues that admit shares issued by Swiss incorporated companies to trading, with all EU trading venues having their recognition revoked due to the lack of reciprocity.

To comply with this measure, trading in Swiss shares on EU trading venues ceased on and was redirected from EU to Swiss trading venues as of 1 July 2019 as permitted under EU law in the absence of an EU trading venue.

We have prepared for this scenario and have, as of 1 July 2019, routed relevant trade flows in Swiss shares from EU to Swiss trading venues, with limited adjustment costs for UBS.

BCBS initial margin offset in the leverage ratio and new disclosure requirements

The Basel Committee on Banking Supervision (BCBS) agreed to align the leverage ratio measurement of client-cleared derivatives with the standardized approach to measuring counterparty credit risk exposures (SA-CCR). We expect these provisions will become effective as of 1 January 2022. This treatment permits both cash and non-cash forms of segregated initial margin, as well as cash and non-cash variation margin, received from a client to offset the replacement cost and potential future exposure for client-cleared derivatives only. This will help to mitigate any potential effect on the leverage ratio denominator from the finalization of the Basel III capital framework, which takes effect from 1 January 2022.

The BCBS also introduced a new disclosure standard, effective as of 1 January 2022, which sets out additional requirements for banks to disclose their leverage ratios based on quarter-end and daily average values of securities financing transactions.

Consultation regarding revision of the Swiss Banking Act

In March 2019, the Swiss Federal Council commenced a consultation process with regard to a partial revision of the Swiss Banking Act. The consultation process ended in June 2019.

Among the proposed measures to strengthen the depositor protection scheme is a requirement that banks deposit half of their contribution obligations for the deposit protection scheme in securities or cash with a custodian.

An adjustment to the Intermediated Securities Act would introduce a requirement that all custodians of intermediated securities separate their own portfolios from the portfolios of their clients.

We expect the final rules to enter into effect no earlier than 2021 and to result in moderate additional costs for all Switzerland-based Group entities in scope.

US Regulation Best Interest

The US Securities and Exchange Commission (SEC) has adopted rules and interpretations to enhance customer protection of retail investors. The effective date of these new provisions will be 30 June 2020. The new rules are intended to align the legal requirements and mandated disclosures for broker-dealers and investment advisers with reasonable investor expectations, while preserving access, in terms of choice and cost, to a variety of investment services and products.

Regulation Best Interest elevates the standard of care for broker-dealers from the current "suitability" requirement to a newly defined "best interest" standard, which applies to any securities transaction or investment strategy involving securities offered to a retail customer and makes clear that a broker-dealer may not put its financial interests ahead of the interests of a retail customer when making recommendations. The regulation also creates new disclosure requirements and additional compliance program requirements. Implementation of these changes will require operational and supervisory changes for UBS's US broker-dealers.

SEC amendments to cross-border application of US security-based swap regulations / Capital, margin and segregation requirements for security-based swap dealers

The SEC recently proposed amendments to previously proposed measures on the cross-border application of US security-based swap regulations, as well as adopting capital, margin and segregation requirements for security-based swap dealers.

The amendments to the cross-border application of US security-based swap regulations would allow greater involvement by US-based personnel in transactions by non-US security-based swap dealers with non-US persons without requiring the non-US dealer to register with the SEC. The SEC also proposed interpretative guidance on its registration requirements, including the requirements for representations and legal opinions on access to books and records of a non-US dealer and requests for substituted compliance. We continue to expect that UBS AG will be required to register with the SEC as a security-based swap dealer, most likely not before 2021.

Developments related to the transition away from IBORs

Liquidity and activity in Alternative Reference Rates (ARR) continue to develop in markets globally, with work progressing to resolve the remaining issues associated with transitioning away from interbank offered rates (IBORs). Regulatory authorities continue to focus on transitioning to ARR by the end of 2021.

In May 2019, the International Accounting Standards Board (IASB) issued an exposure draft *Interest Rate Benchmark Reform* addressing hedge accounting issues that arise before the IBORs are replaced to provide some relief during this period of uncertainty, with work continuing on those issues that are expected to arise after replacement.

We have a substantial number of contracts linked to IBORs. The new risk-free ARRs do not currently provide a term structure, which will require a change in the contractual terms of products currently indexed on terms other than overnight. We have established a cross-divisional, cross-regional governance structure and change program to address the scale and complexity of the transition.

Strategic optimization initiatives

In June 2019, we announced a strategic wealth management partnership in Japan with Sumitomo Mitsui Trust Holdings, Inc. (SuMi Trust Holdings). Subject to receiving all necessary regulatory and other approvals, UBS and SuMi Trust Holdings plan to offer each other's products and services to their respective current and future clients from the end of 2019 through the establishment of a marketing joint venture. Subject to the same approvals, an operational joint venture entity will be established in 2021, which will be 51% owned and controlled by UBS, requiring UBS to consolidate the new company for accounting and regulatory reporting. UBS and SuMi Trust Holdings will, through the overall joint venture arrangement, be able to offer a more extensive range of products and services than either partner is currently able to offer on its own.

Effective 1 April 2019, as part of UBS's efforts to improve the resolvability of the Group, the portion of the Asset Management business in Switzerland conducted by UBS AG was transferred from UBS AG to its indirect subsidiary, UBS Asset Management Switzerland AG. With this transfer, we have completed the transfer of our Swiss Asset Management business and all Asset Management subsidiaries outside the US into a separate Asset Management sub-group structure.

We are continuing to execute on our strategic initiatives and are considering other strategic optimization opportunities that would leverage our technology capabilities, build on our strengths and focus resources on growth areas. These opportunities may include strategic partnerships, additional collaboration across business divisions, evolution of our business models and optimization of our legal entities.

¹ Adjusted results are non-GAAP financial measures as defined by SEC regulations. ² Comparative figures in this table have been restated for the changes in Corporate Center cost and resource allocation to the business divisions and the changes in the equity attribution framework. Refer to "Note 2 Segment reporting" in the "Consolidated financial statements" section of this report for more information. Comparatives may additionally differ as a result of adjustments following organizational changes, restatements due to the retrospective adoption of new accounting standards or changes in accounting policies, and events after the reporting period. ³ Corporate Center operating expenses presented in this table are after service allocations to business divisions. ⁴ Related to the disposal of foreign branches and subsidiaries. ⁵ Reflects restructuring expenses related to legacy cost programs as well as expenses for new restructuring initiatives. ⁶ Reflects the net increase in / (release of) provisions for litigation, regulatory and similar matters recognized in the income statement. Refer to "Note 16 Provisions and contingent liabilities" in the "Consolidated financial statements" section of this report for more information. Also includes recoveries from third parties of USD 8 million and USD 28 million for the first six months of 2019 and 2018, respectively. ⁷ Changes to the Pension Fund of UBS in Switzerland in the first quarter of 2018 resulted in a reduction in the pension obligation recognized by UBS. As a consequence, a pre-tax gain of USD 241 million was recognized in the income statement in the first quarter of 2018, with no overall effect on total equity. Refer to "Note 29 Pension and other post-employment benefit plans" in the "Consolidated financial statements" section of our Annual Report 2018 for more information.

Results: 2Q19 vs 2Q18

Profit before tax increased by USD 53 million, or 3%, to USD 1,759 million, reflecting a decrease in operating expenses, partly offset by lower operating income. Operating income decreased by USD 112 million, or 1%, to USD 7,532 million, mainly reflecting USD 241 million lower net interest income and other net income from financial instruments measured at fair value through profit or loss, partly offset by a USD 61 million increase in other income and a USD 51 million increase in net fee and commission income. Operating expenses decreased by USD 165 million, or 3%, to USD 5,773 million, primarily due to a USD 358 million decrease in general and administrative expenses, partly offset by a USD 142 million increase in depreciation, amortization and impairment of property, equipment and software, as well as a USD 51 million increase in personnel expenses.

In addition to reporting our results in accordance with International Financial Reporting Standards (IFRS), we report adjusted results that exclude items that management believes are not representative of the underlying performance of our businesses. Such adjusted results are non-GAAP financial measures as defined by US Securities and Exchange Commission (SEC) regulations. These adjustments include restructuring expenses related to our CHF 2.1 billion cost reduction program

completed at the end of 2017 (referred to as our “legacy cost programs” in this report) as well as expenses relating to new restructuring initiatives. For the full year 2019, we expect restructuring expenses associated with our legacy cost programs to be approximately USD 0.2 billion.

For the purpose of determining adjusted results for the second quarter of 2019, we excluded net foreign currency translation gains of USD 10 million and net restructuring expenses of USD 39 million. For the second quarter of 2018, we excluded net restructuring expenses of USD 115 million.

On this adjusted basis, profit before tax for the second quarter of 2019 decreased by USD 34 million, or 2%, to USD 1,787 million, driven by a USD 122 million, or 2%, decrease in operating income, partly offset by a USD 88 million, or 2%, decrease in operating expenses.

Operating income: 2Q19 vs 2Q18

Total operating income decreased by USD 112 million, or 1%, to USD 7,532 million, mainly reflecting USD 241 million lower net interest income and other net income from financial instruments measured at fair value through profit or loss, partly offset by a USD 61 million increase in other income and a USD 51 million increase in net fee and commission income.

¹ Effective as of 1 January 2019, UBS refined the presentation of dividend income and expense by reclassifying dividends from Net interest income from financial instruments measured at fair value through profit or loss to Other net income from financial instruments measured at fair value through profit or loss. Prior-period information was restated accordingly and the total effect to the Group was as follows: USD 210 million of net dividend expense and USD 202 million of net dividend income were reclassified for the quarter ended 30 June 2018 and the first six months of 2018, respectively. Refer to "Note 1 Basis of accounting" in the "Consolidated financial statements" section of this report for more information. ² Comparative figures have been restated for changes in Corporate Center cost allocations to the business divisions. Refer to "Note 2 Segment reporting" in the "Consolidated financial statements" section of this report for more information. ³ Mainly includes spread-related income in connection with client-driven transactions, foreign currency translation effects and income and expenses from precious metals, which are included in the income statement line Other net income from financial instruments measured at fair value through profit or loss. The amounts reported on this line are one component of Transaction-based income in the management discussion and analysis of Global Wealth Management and Personal & Corporate Banking in the "Global Wealth Management" and "Personal & Corporate Banking" sections of this report. ⁴ Investment Bank information is provided at the business line level rather than by financial statement reporting line in order to reflect the underlying business activities, which is consistent with the structure of the management discussion and analysis in the "Investment Bank" section of this report.

Net interest income and other net income from financial instruments measured at fair value through profit or loss

Total combined net interest income and other net income from financial instruments measured at fair value through profit or loss decreased by USD 241 million to USD 2,965 million. This was mainly driven by our Foreign Exchange, Rates and Credit business in the Investment Bank and in Global Wealth Management.

Global Wealth Management

In Global Wealth Management, net interest income decreased by USD 75 million to USD 966 million, mainly reflecting lower deposit and loan margins, partly offset by higher investment of equity income.

Transaction-based income from foreign exchange and other intermediary activity was broadly stable at USD 240 million.

Personal & Corporate Banking

In Personal & Corporate Banking, net interest income remained stable at USD 501 million as a result of higher deposit and loan revenues, largely offset by higher funding costs for total loss-absorbing capacity.

Transaction-based income from foreign exchange and other intermediary activity increased by USD 12 million to USD 110 million, mainly driven by foreign exchange transactions.

Investment Bank

In the Investment Bank, net interest income and other net income from financial instruments measured at fair value through profit or loss decreased by USD 174 million to USD 1,185 million. This was mainly driven by a USD 109 million decrease in Foreign Exchange, Rates and Credit, primarily as the second quarter of 2018 included net income of around USD 100 million, consisting mainly of previously deferred day-1 profits that were subsequently recognized due to enhanced observability and revised valuations in the funding curve used to value UBS interest rate-linked notes. In addition, a decrease of USD 52 million in Equities reflected lower client balances and reduced client activity levels.

Corporate Center

In Corporate Center, net interest income and other net income from fair value changes on financial instruments decreased by USD 11 million to negative USD 37 million, reflecting a USD 86 million decrease in Non-core and Legacy Portfolio, mainly as the second quarter of 2018 included valuation gains of USD 89 million on financial assets measured at fair value through profit and loss, as well as a USD 61 million decrease in other Corporate Center income, reflecting higher funding costs relating to Corporate Center balance sheet assets and USD 31 million of additional interest expense related to lease liabilities recognized as a result of the adoption of IFRS 16, *Leases*, effective from 1 January 2019. These effects were largely offset by an increase in net treasury income of USD 137 million, mainly reflecting income from hedge accounting ineffectiveness, revenues from accounting asymmetries, as well as higher net interest income.

- Refer to “Note 1 Basis of accounting” in the “Consolidated financial statements” section of this report for more information on the adoption of IFRS 16
- Refer to “Note 2 Segment reporting” in the “Consolidated financial statements” section of this report for more information on Corporate Center allocations
- Refer to “Note 3 Net interest income” in the “Consolidated financial statements” section of this report for more information on net interest income

Net fee and commission income

Net fee and commission income was USD 4,474 million compared with USD 4,423 million.

M&A and corporate finance fees increased by USD 116 million to USD 296 million, primarily reflecting higher revenues from merger and acquisition transactions, despite a 26% decline in the global fee pool.

Underwriting fees increased by USD 39 million to USD 224 million, predominantly driven by higher equity underwriting revenues from public offerings despite a 5% decline in the global fee pool.

Net brokerage fees decreased by USD 73 million to USD 738 million, mainly in our Equities business in the Investment Bank, reflecting lower client activity levels.

Investment fund fees decreased by USD 30 million to USD 1,196 million, primarily in Global Wealth Management, reflecting margin compression, mainly driven by shifts into lower-margin mandate products, partly offset by an increase in overall mandate penetration.

- Refer to “Note 4 Net fee and commission income” in the “Consolidated financial statements” section of this report for more information

Other income

Other income was USD 105 million compared with USD 44 million. The second quarter of 2019 included net foreign currency translation gains of USD 10 million related to the disposal of a branch. Excluding this item, adjusted other income increased by USD 51 million, mainly in Corporate Center, as the second quarter of 2019 included a gain of USD 38 million related to the settlement of a litigation claim and income of USD 14 million related to a claim on a defaulted counterparty position.

- Refer to “Note 5 Other income” in the “Consolidated financial statements” section of this report for more information

Credit loss (expense) / recovery

¹ Reflects restructuring expenses related to legacy cost programs as well as expenses for new restructuring initiatives. ² Changes to the Pension Fund of UBS in Switzerland in the first quarter of 2018 resulted in a reduction in the pension obligation recognized by UBS. As a consequence, a pre-tax gain of USD 241 million was recognized in the income statement in the first quarter of 2018, with no overall effect on total equity. Refer to "Note 29 Pension and other post-employment benefit plans" in the "Consolidated financial statements" section of our Annual Report 2018 for more information. ³ Adjusted results are non-GAAP financial measures as defined by SEC regulations. ⁴ Financial advisor compensation consists of formulaic compensation based directly on compensable revenues generated by financial advisors and supplemental compensation calculated on the basis of financial advisor productivity, firm tenure, new assets and other variables. It also includes expenses related to compensation commitments with financial advisors entered into at the time of recruitment that are subject to vesting requirements. ⁵ Consists of expenses related to contractors, social security, pension and other post-employment benefit plans, and other personnel expenses. Refer to "Note 6 Personnel expenses" in the "Consolidated financial statements" section of this report for more information.

Operating expenses: 2Q19 vs 2Q18

Total operating expenses decreased by USD 165 million, or 3%, to USD 5,773 million. Adjusted total operating expenses decreased by USD 88 million, or 2%, to USD 5,735 million. These exclude net restructuring expenses related to legacy cost programs and new restructuring initiatives of USD 39 million, compared with USD 115 million in the prior year.

Personnel expenses

Personnel expenses increased by USD 51 million to USD 4,153 million on a reported basis, and by USD 88 million to USD 4,127 million on an adjusted basis, primarily reflecting higher salary expenses, mainly in Corporate Center, driven by insourcing of certain activities and staff from third-party vendors to our Business Solutions Centers over the last 12 months, with an offsetting effect in general and administrative expenses.

→ Refer to “**Note 6 Personnel expenses**” in the “**Consolidated financial statements**” section of this report for more information

General and administrative expenses

General and administrative expenses decreased by USD 358 million to USD 1,175 million, mainly driven by lower rent expenses, expenses related to litigation, regulatory and similar matters, outsourcing costs and professional fees. A USD 137 million decrease in rent expenses was a direct result of the adoption of IFRS 16, *Leases*, in the first quarter of 2019. This decrease was more than offset by an increase of USD 119 million in depreciation expense and an increase of USD 31 million in interest expense relating to lease liabilities, also as a result of the adoption of IFRS 16.

On an adjusted basis, general and administrative expenses decreased by USD 319 million to USD 1,164 million, largely due to the aforementioned decreases in expenses related to litigation, regulatory and similar matters, rent expenses, outsourcing costs and professional fees.

We believe that the industry continues to operate in an environment in which expenses associated with litigation, regulatory and similar matters will remain elevated for the foreseeable future and we continue to be exposed to a number of significant claims and regulatory matters. The outcome of many of these matters, the timing of a resolution, and the potential effects of resolutions on our future business, financial results or financial condition are extremely difficult to predict.

→ Refer to “**Note 1 Basis of accounting**” in the “**Consolidated financial statements**” section of this report for more information on the adoption of IFRS 16

→ Refer to “**Note 7 General and administrative expenses**” in the “**Consolidated financial statements**” section of this report for more information

→ Refer to “**Note 16 Provisions and contingent liabilities**” in the “**Consolidated financial statements**” section of this report and to the “**Regulatory and legal developments**” and “**Risk factors**” sections of our **Annual Report 2018** for more information on litigation, regulatory and similar matters

Depreciation, amortization and impairment

Depreciation, amortization and impairment of property, equipment and software increased by USD 142 million to USD 445 million on a reported basis, and by USD 142 million to USD 443 million on an adjusted basis, mainly resulting from USD 119 million higher depreciation expenses following the adoption of IFRS 16 in the first quarter of 2019.

→ Refer to “**Note 1 Basis of accounting**” in the “**Consolidated financial statements**” section of this report for more information on the adoption of IFRS 16

Tax: 2Q19 vs 2Q18

We recognized income tax expenses of USD 366 million for the second quarter of 2019, compared with USD 322 million for the second quarter of 2018.

Current tax expenses were USD 209 million, compared with USD 198 million, and related to taxable profits of UBS Switzerland AG and other entities.

Deferred tax expenses were USD 157 million, compared with USD 124 million. Deferred tax expenses in the second quarter of 2019 included expenses of USD 222 million, which reflect the amortization of deferred tax assets (DTAs) previously recognized in relation to tax losses carried forward and deductible temporary differences to reflect their offset against profits for the quarter, including the amortization of US tax loss DTAs at the level of UBS Americas Inc. Deferred tax expenses were decreased by a benefit of USD 130 million in respect of additional DTA recognition that resulted from the contribution of real estate assets by UBS AG to UBS Americas Inc. during the second quarter of 2019. The additional DTA recognition related to the elections that were made in the fourth quarter of 2018 to capitalize certain historic real estate costs. This amount represents one half of the expected full year benefit and, therefore, further amounts totaling USD 65 million will be recognized in each of the third and fourth quarters in accordance with the requirements of IAS 34, *Interim Financial Reporting*.

As a result of the above-mentioned item, we expect a tax rate for the second half of 2019 that is lower than the 23.4% tax rate for the first half of this year, subject to any potential DTA-related adjustments made as part of our annual business planning process. From 2020 onwards, we expect a tax rate, excluding any potential effects from reassessment of deferred tax assets, of around 25%.

→ Refer to “**Note 8 Income taxes**” in the “**Consolidated financial statements**” section of this report for more information

Total comprehensive income attributable to shareholders: 2Q19 vs 2Q18

Total comprehensive income attributable to shareholders was USD 2,478 million compared with USD 362 million. Net profit attributable to shareholders was USD 1,392 million compared with USD 1,382 million and other comprehensive income (OCI) attributable to shareholders, net of tax, was positive USD 1,086 million compared with negative USD 1,020 million.

In the second quarter of 2019, OCI related to cash flow hedges was positive USD 773 million, mainly reflecting an increase in unrealized gains on US dollar hedging derivatives resulting from decreases in the relevant US dollar long-term interest rates. In the second quarter of 2018, OCI related to cash flow hedges was negative USD 160 million.

Foreign currency translation OCI was positive USD 168 million in the second quarter of 2019, mainly resulting from the strengthening of the Swiss franc and the euro against the US dollar. OCI related to foreign currency translation in the same quarter of last year was negative USD 1,343 million.

OCI related to own credit on financial liabilities designated at fair value was positive USD 72 million compared with positive USD 250 million and mainly reflected a widening of credit spreads.

OCI associated with financial assets measured at fair value through OCI was positive USD 65 million compared with negative USD 14 million and largely reflected net unrealized gains following decreases in the relevant US dollar long-term interest rates in the second quarter of 2019.

Defined benefit plan OCI was positive USD 8 million compared with positive USD 247 million. We recorded net pre-tax OCI gains of USD 25 million related to our non-Swiss pension plans, mainly driven by the UK defined benefit plans, which recorded OCI gains of USD 49 million. This reflected OCI gains of USD 112 million due to a positive return on plan assets, partly offset by OCI losses of USD 63 million from the remeasurement of the defined benefit obligation. Net pre-tax OCI losses related to the Swiss pension plans were USD 10 million.

- Refer to “Statement of comprehensive income” in the “Consolidated financial statements” section of this report for more information
- Refer to “Note 29 Pension and other post-employment benefit plans” in the “Consolidated financial statements” section of our Annual Report 2018 for more information on other comprehensive income related to defined benefit plans

Sensitivity to interest rate movements

As of 30 June 2019, we estimate that a parallel shift in yield curves by +100 basis points could lead to a combined increase in annual net interest income of approximately USD 0.5 billion in Global Wealth Management and Personal & Corporate Banking. US dollar and euro interest rates each contribute approximately USD 0.2 billion to this increase.

These estimates are based on a hypothetical scenario of an immediate increase in interest rates, equal across all currencies and relative to implied forward rates applied to our banking book. These estimates further assume no change to balance sheet size and structure, constant foreign exchange rates and no specific management action.

- Refer to the “Risk management and control section” of this report for information on interest rate risk in the banking book under new Pillar 3 requirements

Key figures and personnel

Return on common equity tier 1 (CET1) capital: 2Q19 vs 2Q18

The annualized return on CET1 capital (RoCET1) was 16.0% compared with 16.1%, mainly driven by a USD 0.4 billion increase in the average CET1 capital.

Adjusted cost / income ratio: 2Q19 vs 2Q18

The adjusted cost / income ratio was 76.1% compared with 75.9%.

Risk-weighted assets: 2Q19 vs 1Q19

During the second quarter of 2019, risk-weighted assets (RWA) decreased by USD 5.4 billion to USD 262.1 billion, reflecting decreases from asset size and other movements of USD 3.5 billion, methodology and policy changes of USD 1.9 billion, and lower regulatory add-ons of USD 1.5 billion, partly offset by currency effects of USD 1.2 billion and increases from model updates of USD 0.3 billion.

- Refer to the “Capital management” section of this report for more information

Common equity tier 1 capital ratio: 2Q19 vs 1Q19

Our common equity tier 1 (CET1) capital ratio increased to 13.3% from 13.0%, reflecting a USD 0.3 billion increase in CET1 capital and the aforementioned USD 5.4 billion decrease in RWA.

→ Refer to the “Capital management” section of this report for more information

Leverage ratio denominator: 2Q19 vs 1Q19

The leverage ratio denominator (LRD) remained stable at USD 911 billion in the second quarter of 2019.

→ Refer to the “Capital management” section of this report for more information

Common equity tier 1 leverage ratio: 2Q19 vs 1Q19

Our CET1 leverage ratio increased to 3.83% from 3.80%, reflecting the aforementioned increase in CET1 capital.

→ Refer to the “Capital management” section of this report for more information

Going concern leverage ratio: 2Q19 vs 1Q19

Our going concern leverage ratio increased from 5.4% to 5.5%, reflecting a USD 0.6 billion increase in going concern capital.

→ Refer to the “Capital management” section of this report for more information

Personnel: 2Q19 vs 1Q19

We employed 66,922 personnel (full-time equivalents) as of 30 June 2019, a net decrease of 559 compared with 31 March 2019. This mainly reflects the effect of our cost management initiatives, which was only partly offset by the effect of our insourcing initiatives. External staff in Corporate Center decreased by 890 over the same period.

Return on equity

| USD million, except where indicated | As of or for the quarter ended | | | Year-to-date | |
|---|--------------------------------|---------|---------|--------------|---------|
| | 30.6.19 | 31.3.19 | 30.6.18 | 30.6.19 | 30.6.18 |
| Net profit | | | | | |
| Net profit / (loss) attributable to shareholders | 1,392 | 1,141 | 1,382 | 2,533 | 2,948 |
| Equity | | | | | |
| Equity attributable to shareholders | 53,180 | 53,667 | 51,210 | 53,180 | 51,210 |
| Less: goodwill and intangible assets | 6,624 | 6,621 | 6,448 | 6,624 | 6,448 |
| Tangible equity attributable to shareholders | 46,555 | 47,046 | 44,762 | 46,555 | 44,762 |
| Less: other CET1 deductions | 11,607 | 12,388 | 10,646 | 11,607 | 10,646 |
| Common equity tier 1 capital | 34,948 | 34,658 | 34,116 | 34,948 | 34,116 |
| Return on equity | | | | | |
| Return on equity (%) ¹ | 10.4 | 8.6 | 10.5 | 9.5 | 11.2 |
| Return on tangible equity (%) ² | 11.9 | 9.8 | 12.0 | 10.8 | 12.8 |
| Return on common equity tier 1 capital (%) ³ | 16.0 | 13.3 | 16.1 | 14.6 | 17.2 |

¹ Calculated as net profit attributable to shareholders (annualized as applicable) / average equity attributable to shareholders. ² Calculated as net profit attributable to shareholders (annualized as applicable) / average equity attributable to shareholders less average goodwill and intangible assets. Effective 1 January 2019, the definition of the numerator for return on tangible equity has been revised to align with numerators for return on equity and return on CET1 capital; i.e., we no longer adjust for amortization and impairment of goodwill and intangible assets. Prior periods have been restated. ³ Calculated as net profit attributable to shareholders (annualized as applicable) / average common equity tier 1 capital.

Net new money and invested assets

Management's discussion and analysis of net new money and invested assets is provided in the "UBS business divisions and Corporate Center" section of this report.

Net new money¹

| USD billion | For the quarter ended | | | Year-to-date | |
|---|-----------------------|--------------|--------------|---------------|-------------|
| | 30.6.19 | 31.3.19 | 30.6.18 | 30.6.19 | 30.6.18 |
| Global Wealth Management | (1.7) | 22.3 | (1.2) | 20.6 | 18.8 |
| Asset Management² | (15.0) | 0.1 | (2.1) | (14.9) | 31.2 |
| <i>of which: excluding money market flows</i> | <i>(13.9)</i> | <i>(2.3)</i> | <i>1.2</i> | <i>(16.1)</i> | <i>29.0</i> |
| <i>of which: money market flows</i> | <i>(1.1)</i> | <i>2.3</i> | <i>(3.3)</i> | <i>1.3</i> | <i>2.1</i> |

¹ Net new money excludes interest and dividend income. ² Effective 1 January 2019, certain assets have been reclassified between asset classes to better reflect their underlying nature, with prior-period information restated. The adjustments have no effect on total net new money.

Invested assets

| USD billion | As of | | | % change from | |
|---|--------------|------------|------------|---------------|----------|
| | 30.6.19 | 31.3.19 | 30.6.18 | 31.3.19 | 30.6.18 |

| <i>of which: money market funds</i> | <i>97</i> | <i>98</i> | <i>89</i> | <i>(1)</i> | <i>9</i> |

¹ Effective 1 January 2019, certain assets have been reclassified between asset classes to better reflect their underlying nature, with prior-period information restated. The adjustments have no effect on total invested assets.

Results: 6M19 vs 6M18

Profit before tax decreased by USD 501 million, or 13%, to USD 3,305 million.

Operating income decreased by USD 1,062 million, or 7%, mainly reflecting USD 590 million lower net interest income and other net income from fair value changes on financial instruments, primarily driven by decreases in the Investment Bank and in Global Wealth Management, partly offset by an increase in Corporate Center. In addition, net fee and commission income decreased by USD 562 million, mainly due to a USD 261 million decrease in net brokerage fees across both Global Wealth Management and the Investment Bank as well as USD 284 million lower investment fund fees and fees for portfolio management and related services, primarily in Global Wealth Management.

Operating expenses decreased by USD 562 million, or 5%, mainly reflecting USD 680 million lower general and administrative expenses. This was largely driven by decreases in outsourcing costs, expenses related to litigation, regulatory and similar matters, and professional fees. Additionally, following the adoption of IFRS 16, *Leases*, rent expenses decreased by USD 268 million, which was more than offset by a USD 279 million increase in expenses from depreciation, amortization and impairment of property, equipment and software. Personnel expenses decreased by USD 161 million, primarily due to lower variable compensation, financial advisor compensation and costs for contractors, partly offset by higher pension costs, as the first quarter of 2018 included a gain of USD 241 million related to changes to our Swiss pension plan.

On an adjusted basis, profit before tax decreased by USD 451 million, or 12%, reflecting lower operating income, partly offset by a decrease in operating expenses.

Adjusted operating income decreased by USD 1,072 million, or 7%, reflecting the aforementioned decreases in net interest income and other net income from fair value changes on financial instruments and net fee and commission income.

Adjusted operating expenses decreased by USD 622 million, or 5%, mainly reflecting a USD 314 million decrease in adjusted personnel expenses, mainly as a result of lower variable compensation, as well as the aforementioned decreases in outsourcing costs, expenses for litigation, regulatory and similar matters and professional fees.

Outlook

The overall pace of global growth has stabilized at a lower level after a synchronized global slowdown in prior quarters. Downside risks remain due to political uncertainties and geopolitical tensions. Central banks are indicating a reversal of monetary policy normalization and embarking on new stimulus measures.

A sharp drop in interest rates and expected rate cuts will continue to adversely affect net interest income compared with last year. Our regional and business diversification, along with higher invested assets benefitting recurring revenues, will help to mitigate this. An improvement in investor sentiment and higher market volatility could help to offset the typical third quarter seasonality.

We are executing our strategy with discipline, focusing on balancing efficiency and investments for growth, to deliver on our capital return objectives and to create sustainable long-term value for our shareholders.

¹ Prior-year comparative figures in this table have been restated for the changes in Corporate Center cost and resource allocation to the business divisions and the changes in the equity attribution framework effective 1 January 2019. Refer to "Note 2 Segment reporting" in the "Consolidated financial statements" section of this report for more information on the changes to the Corporate Center cost and resource allocation to business divisions and to the "Recent developments" section in our first quarter 2019 report for more information on the changes in the equity attribution framework. Comparatives may additionally differ as a result of adjustments following organizational changes, restatements due to the retrospective adoption of new accounting standards or changes in accounting policies, and events after the reporting period. ² Recurring net fee income consists of fees for services provided on an ongoing basis, such as portfolio management fees, asset-based investment fund fees, custody fees and account-keeping fees, which are generated on client assets. ³ Transaction-based income consists of the non-recurring portion of net fee and commission income, mainly composed of brokerage and transaction-based investment fund fees, as well as credit card fees and fees for payment transactions, together with Other net income from financial instruments measured at fair value through profit or loss. ⁴ Relates to licensed professionals with the ability to provide investment advice to clients in the Americas. ⁵ Financial advisor variable compensation consists of formulaic compensation based directly on compensable revenues generated by financial advisors and supplemental compensation calculated on the basis of financial advisor productivity, firm tenure, new assets and other variables. ⁶ Compensation commitments with recruited financial advisors represent expenses related to compensation commitments granted to financial advisors at the time of recruitment that are subject to vesting requirements. ⁷ Adjusted results are non-GAAP financial measures as defined by SEC regulations. ⁸ Reflects restructuring expenses related to legacy cost programs as well as expenses for new restructuring initiatives. ⁹ Refer to the "Performance targets and measurement" section of our Annual Report 2018 for the definitions of our performance measures. ¹⁰ Recurring income consists of net interest income and recurring net fee income. ¹¹ Refer to the "Capital management" section of this report for more information. ¹² Calculated as operating profit before tax (annualized as applicable) / average invested assets. ¹³ Loans and Customer deposits in this table include customer brokerage receivables and payables, respectively, which with the adoption of IFRS 9 effective 1 January 2018 have been reclassified to a separate reporting line on the balance sheet. ¹⁴ Customer deposits in Global Wealth Management have been restated to reflect a reclassification of balances from Corporate Center, with no impact on customer deposits reported for the Group. This has resulted in an increase in customer deposits reported for Global Wealth Management of USD 8.4 billion as of 31 March 2019.

Regional breakdown of performance measures¹

¹ Refer to the "Performance targets and measurement" section of our Annual Report 2018 for the definitions of our performance measures. ² Excluding minor functions with 108 advisors, USD 3 billion of invested assets, USD 0.5 billion of loans and USD 0.1 billion of net new money outflows in the second quarter of 2019. ³ Loans include customer brokerage receivables, which with the adoption of IFRS 9 effective 1 January 2018 have been reclassified to a separate reporting line on the balance sheet. ⁴ Represents advisors who exclusively serve ultra high net worth clients in a globally managed unit.

Results: 2Q19 vs 2Q18

Profit before tax decreased by USD 87 million, or 9%, to USD 874 million. Excluding restructuring expenses, adjusted profit before tax decreased by USD 123 million, or 12%, to USD 886 million, reflecting lower operating income and higher operating expenses.

Operating income

Total operating income decreased by USD 107 million, or 3%, to USD 4,057 million, mainly driven by lower net interest and lower recurring net fee income.

Net interest income decreased by USD 75 million to USD 966 million, mainly reflecting lower deposit and loan margins, partly offset by higher investment of equity income.

Recurring net fee income decreased by USD 58 million to USD 2,315 million, reflecting margin compression, mainly driven by shifts into lower-margin mandate products, partly offset by an increase in overall mandate penetration.

Transaction-based income increased by USD 23 million to USD 764 million, mainly as a result of higher client activity in the Americas and in Switzerland.

Other income increased by USD 8 million to USD 17 million.

Operating expenses

Total operating expenses decreased by USD 19 million, or 1%, to USD 3,183 million, while adjusted operating expenses increased by USD 16 million, or 1%, to USD 3,171 million.

Personnel expenses decreased by USD 20 million and adjusted personnel expenses decreased by USD 17 million to USD 1,905 million, mainly as a result of lower variable compensation.

General and administrative expenses decreased by USD 34 million and adjusted general and administrative expenses decreased by USD 29 million to USD 271 million, predominantly driven by lower expenses for provisions for litigation matters.

Net expenses for services to / from Corporate Center and other business divisions increased by USD 33 million to USD 992 million. Excluding restructuring expenses, adjusted net expenses for services increased by USD 60 million to USD 980 million, mainly reflecting higher regulatory-driven expenses from control functions as well as higher property-related expenses.

Net new money: 2Q19 vs 2Q18

Net new money outflows were USD 1.7 billion compared with net outflows of USD 1.2 billion, an annualized net new money growth rate of negative 0.3% compared with negative 0.2%. The outflows were mainly driven by seasonal income tax payments in the Americas of approximately USD 5.1 billion compared with approximately USD 4.6 billion. Net new money from ultra high net worth clients was USD 1.1 billion.

Invested assets: 2Q19 vs 1Q19

Invested assets increased by USD 54 billion to USD 2,486 billion, driven by a positive market performance of USD 48 billion and currency effects of USD 8 billion, partly offset by net new money outflows of USD 2 billion. Mandate penetration increased to 34.4% from 33.9%.

Results: 6M19 vs 6M18

Profit before tax decreased by USD 327 million, or 16%, to USD 1,737 million. Excluding a credit of USD 66 million related to our Swiss pension plan in the first quarter of 2018 and restructuring expenses, adjusted profit before tax decreased by USD 349 million, or 17%, to USD 1,759 million, reflecting lower operating income, partly offset by lower operating expenses.

Total operating income decreased by USD 511 million, or 6%, to USD 8,061 million, driven by lower recurring net fee, transaction-based, and net interest income.

Net interest income decreased by USD 87 million to USD 1,975 million, primarily as a result of lower deposit and loan margins, as well as lower loan volumes. Decreases in net income from structural risk management activities and banking book interest income also contributed to the decrease in net interest income. This was partly offset by higher investment of equity income.

Recurring net fee income decreased by USD 260 million to USD 4,533 million, primarily driven by lower average invested assets as a result of the decline in market levels in the fourth quarter of 2018. Margin compression also contributed to the decrease, mainly reflecting shifts into lower-margin mandate products, which was partly offset by an increase in overall mandate penetration.

Transaction-based income decreased by USD 165 million to USD 1,529 million, mainly as a result of lower client activity in all regions, most notably in Asia Pacific and, to a lesser extent, the Americas.

Total operating expenses decreased by USD 186 million, or 3%, to USD 6,323 million, and adjusted operating expenses decreased by USD 164 million, or 3%, to USD 6,301 million.

Personnel expenses decreased by USD 93 million to USD 3,805 million. Excluding the aforementioned credit related to changes to our Swiss pension plan and restructuring expenses, adjusted personnel expenses decreased by USD 152 million to USD 3,806 million, driven by lower variable compensation and lower expenses for compensation commitments to recruited financial advisors.

General and administrative expenses decreased by USD 90 million and adjusted general and administrative expenses decreased by USD 74 million to USD 520 million, predominantly driven by lower expenses for provisions for litigation matters.

Net expenses for services to / from Corporate Center and other business divisions decreased by USD 6 million to USD 1,967 million, while adjusted net expenses for services increased by USD 60 million to USD 1,945 million. This increase was mainly driven by higher net expenses from control functions and higher property-related expenses.

¹ Prior-year comparative figures in this table have been restated for the changes in Corporate Center cost and resource allocation to the business divisions and the changes in the equity attribution framework effective 1 January 2019. Refer to "Note 2 Segment reporting" in the "Consolidated financial statements" section of this report for more information on the changes to the Corporate Center cost and resource allocation to business divisions and to the "Recent developments" section in our first quarter 2019 report for more information on the changes in the equity attribution framework. Comparatives may additionally differ as a result of adjustments following organizational changes, restatements due to the retrospective adoption of new accounting standards or changes in accounting policies, and events after the reporting period. ² Recurring net fee income consists of fees for services provided on an ongoing basis, such as portfolio management fees, asset-based investment fund fees, custody fees and account-keeping fees, which are generated on client assets. ³ Transaction-based income comprises the non-recurring portion of net fee and commission income, mainly consisting of brokerage and transaction-based investment fund fees, as well as credit card fees and fees for payment transactions, together with Other net income from financial instruments measured at fair value through profit or loss. ⁴ Adjusted results are non-GAAP financial measures as defined by SEC regulations. ⁵ Reflects restructuring expenses related to legacy cost programs. ⁶ Refer to the "Performance targets and measurement" section of our Annual Report 2018 for the definitions of our performance measures. ⁷ Refer to the "Capital management" section of this report for more information. ⁸ Calculated as net new business volume for the period (annualized as applicable) / business volume at the beginning of the period. ⁹ Client assets are comprised of invested assets and other assets held purely for transactional purposes or custody only. We do not measure net new money for Personal & Corporate Banking. ¹⁰ Refer to the "Risk management and control" section of this report for more information on (credit-)impaired exposures.

Results: 2Q19 vs 2Q18

Profit before tax increased by CHF 46 million, or 14%, to CHF 389 million, while adjusted profit before tax increased by CHF 38 million, or 11%, to CHF 391 million, predominantly reflecting higher operating income.

Operating income

Total operating income increased by 4% to CHF 957 million from CHF 920 million, mainly reflecting lower credit loss expenses as well as higher transaction-based income.

Net interest income increased by CHF 4 million to CHF 500 million as a result of higher deposit and loan revenues, partly offset by higher funding costs for total loss-absorbing capacity.

Recurring net fee income was CHF 159 million compared with CHF 157 million in the second quarter of 2018.

Transaction-based income increased by CHF 11 million to CHF 286 million, mainly reflecting higher revenues from both credit card fees and foreign exchange transactions.

Other income decreased by CHF 2 million to CHF 12 million.

Net credit loss expenses were CHF 1 million, compared with expenses of CHF 22 million in the second quarter of 2018. Stage 3 expected credit losses of CHF 13 million, primarily in the Corporate Clients area, were partly offset by a release of CHF 12 million of stage 1 and 2 expected credit losses.

Operating expenses

Total operating expenses decreased by CHF 10 million to CHF 568 million. Excluding a reduction in restructuring expenses, adjusted operating expenses decreased by CHF 3 million to CHF 565 million.

Personnel expenses increased by CHF 4 million to CHF 225 million, including slightly higher variable compensation accruals reflecting higher performance. General and administrative expenses decreased by CHF 3 million to CHF 53 million, mainly reflecting lower consulting costs.

Net expenses for services to / from Corporate Center and other business divisions decreased by CHF 11 million to CHF 286 million and by CHF 4 million to CHF 284 million on an adjusted basis, mainly reflecting higher net charges out for services provided by Personal & Corporate Banking to Global Wealth Management and vice versa.

Results: 6M19 vs 6M18

Profit before tax increased by CHF 47 million, or 7%, to CHF 774 million and adjusted profit before tax increased by CHF 70 million, or 10%, to CHF 781 million, mainly reflecting higher income and lower credit loss expenses.

Total operating income increased by CHF 65 million, or 4%, to CHF 1,910 million. Net interest income increased by CHF 9 million to CHF 991 million, as a result of higher deposit and loan revenues, partly offset by higher funding costs for total loss-absorbing capacity.

Recurring net fee income increased by CHF 4 million to CHF 315 million. Transaction-based income increased by CHF 13 million to CHF 569 million, mainly as a result of higher revenues from interest rate derivative and foreign exchange transactions. Other income increased by CHF 4 million to CHF 35 million.

Net credit loss recoveries were CHF 1 million compared with CHF 35 million expenses in the first half of 2018 and included CHF 16 million of stage 1 and 2 expected credit loss releases compared with CHF 17 million losses in the first half of 2018.

Total operating expenses increased by CHF 18 million, or 2%, to CHF 1,136 million, as the first half of 2018 included a credit of CHF 35 million related to changes to our Swiss pension plan. Adjusted operating expenses decreased by CHF 4 million to CHF 1,130 million. Personnel expenses increased by CHF 45 million to CHF 443 million and on an adjusted basis increased by CHF 11 million to CHF 443 million. General and administrative expenses decreased by CHF 10 million to CHF 105 million, mainly reflecting lower consulting and marketing costs. Net expenses for services to / from Corporate Center and other business divisions decreased by CHF 17 million to CHF 581 million, and by CHF 6 million to CHF 575 million on an adjusted basis, mainly reflecting lower expenses for Group Operations.

¹ Prior-year comparative figures in this table have been restated for the changes in Corporate Center cost and resource allocation to the business divisions and the changes in the equity attribution framework effective 1 January 2019. Refer to "Note 2 Segment reporting" in the "Consolidated financial statements" section of this report for more information on the changes to the Corporate Center cost and resource allocation to business divisions and to the "Recent developments" section in our first quarter 2019 report for more information on the changes in the equity attribution framework. Comparatives may additionally differ as a result of adjustments following organizational changes, restatements due to the retrospective adoption of new accounting standards or changes in accounting policies, and events after the reporting period. ² Net management fees include transaction fees, fund administration revenues (including net interest and trading income from lending activities and foreign exchange hedging as part of the fund services offering), gains or losses from seed money and co-investments, funding costs, and other items that are not performance fees. ³ Adjusted results are non-GAAP financial measures as defined by SEC regulations. ⁴ Reflects restructuring expenses related to legacy cost programs as well as expenses for new restructuring initiatives. ⁵ Refer to the "Performance targets and measurement" section of our Annual Report 2018 for the definitions of our performance measures. ⁶ Effective 1 January 2019, certain assets have been reclassified between asset classes to better reflect their underlying nature, with prior-period information restated. The adjustments have no effect on total net new money and total invested assets. ⁷ Excluding the effect of business exits. ⁸ Refer to the "Capital management" section of this report for more information. ⁹ Calculated as operating profit before tax (annualized as applicable) / average invested assets.

Results: 2Q19 vs 2Q18

Profit before tax increased by USD 27 million, or 29%, to USD 124 million. Excluding restructuring expenses, adjusted profit before tax increased by USD 13 million, or 10%, to USD 135 million, reflecting higher operating income.

Operating income

Total operating income increased by USD 14 million, or 3%, to USD 475 million.

Net management fees increased by USD 10 million to USD 452 million, reflecting slightly higher average invested assets.

Performance fees increased by USD 4 million to USD 23 million, mainly driven by an increase in performance fees in Equities, partly offset by lower performance fees from Real Estate & Private Markets.

Operating expenses

Total operating expenses decreased by USD 14 million, or 4%, to USD 351 million, while adjusted operating expenses were stable at USD 340 million.

Personnel expenses declined by USD 5 million to USD 186 million. Excluding expenses of USD 13 million related to the actions taken in the second quarter of 2018 to reduce costs and create capacity, and other personnel-related restructuring expenses, adjusted personnel expenses increased by USD 6 million to USD 183 million, mainly driven by increased expenses for variable compensation.

General and administrative expenses decreased by USD 5 million to USD 44 million, and on an adjusted basis by USD 3 million to USD 42 million, reflecting lower expenses for consulting and legal services, partly offset by higher outsourcing costs.

Net expenses for services to / from Corporate Center and other business divisions decreased by USD 3 million to USD 121 million. Adjusted net expenses decreased by USD 1 million to USD 115 million, as lower expenses from Group Operations and regulatory and compliance-driven initiatives were offset by higher expenses from Group Finance and Group Technology.

Net new money: 2Q19 vs 2Q18

Net new money outflows were USD 15.0 billion compared with net outflows of USD 2.1 billion. Excluding money market flows, net new money outflows were USD 13.9 billion compared with net inflows of USD 1.2 billion, an annualized net new money growth rate of negative 7.6% compared with positive 0.6%.

Net new money was negatively affected by continued macroeconomic uncertainties which, among other things, caused investors to de-risk, change asset allocations and delay investment decisions.

Invested assets: 2Q19 vs 1Q19

Invested assets increased by USD 7 billion to USD 831 billion, reflecting positive market performance of USD 18 billion and currency effects of USD 4 billion, partly offset by outflows of USD 15 billion.

Results: 6M19 vs 6M18

Profit before tax increased by USD 26 million, or 13%, to USD 228 million. Excluding a credit of USD 10 million related to changes to our Swiss pension plan in the first quarter of 2018 and restructuring expenses, adjusted profit before tax increased by USD 15 million, or 6%, to USD 244 million, reflecting reduced operating expenses.

Total operating income remained broadly unchanged at USD 921 million, with declining net management fees largely offset by increased performance fees.

Net management fees decreased by USD 22 million, reflecting lower average invested assets as a result of the lower market levels in the fourth quarter of 2018.

Performance fees increased by USD 16 million to USD 50 million, mainly driven by an increase in Equities.

Total operating expenses decreased by USD 32 million, or 4%, to USD 693 million, and adjusted operating expenses decreased by USD 21 million, or 3%, to USD 677 million.

Personnel expenses decreased by USD 4 million, or 1%, to USD 364 million. Excluding the aforementioned credit related to changes to our Swiss pension plan in the first quarter of 2018 and restructuring expenses, adjusted personnel expenses decreased by USD 3 million to USD 359 million.

General and administrative expenses decreased by USD 8 million to USD 92 million, and adjusted general and administrative expenses by USD 6 million to USD 88 million, primarily driven by reduced expenses for consulting services, marketing and travel, partly offset by higher outsourcing costs.

Net expenses for services to / from Corporate Center and other business divisions decreased by USD 18 million to USD 237 million, and adjusted expenses for services decreased by USD 11 million to USD 230 million, reflecting lower expenses from Group Operations, variable compensation, and strategic and regulatory initiatives, partly offset by higher expenses from Group Technology, rent expenses and Group Finance.

¹ Prior-year comparative figures in this table have been restated for the changes in Corporate Center cost and resource allocation to the business divisions and the changes in the equity attribution framework effective 1 January 2019. Refer to "Note 2 Segment reporting" in the "Consolidated financial statements" section of this report for more information on the changes to the Corporate Center cost and resource allocation to business divisions and to the "Recent developments" section in our first quarter 2019 report for more information on the changes in the equity attribution framework. Comparatives may additionally differ as a result of adjustments following organizational changes, restatements due to the retrospective adoption of new accounting standards or changes in accounting policies, and events after the reporting period. ² Adjusted results are non-GAAP financial measures as defined by SEC regulations. ³ Reflects restructuring expenses related to legacy cost programs. ⁴ Refer to the "Performance targets and measurement" section of our Annual Report 2018 for the definitions of our performance measures. ⁵ Refer to the "Capital management" section of this report for more information. ⁶ Refer to the "Risk management and control" section of this report for more information on (credit-)impaired loan exposures.

Results: 2Q19 vs 2Q18

Profit before tax decreased by USD 108 million, or 20%, to USD 427 million. Excluding restructuring expenses, adjusted profit before tax decreased by USD 131 million, or 23%, to USD 440 million. This was driven by lower operating income in Investor Client Services and higher operating expenses, partly offset by higher operating income in Corporate Client Solutions.

Operating income

Total operating income decreased by USD 91 million, or 4%, to USD 2,071 million, despite a strong performance in Corporate Client Solutions. This reflected lower revenues in Foreign Exchange, Rates and Credit, as the second quarter of 2018 included net income of around USD 100 million consisting mainly of previously deferred day-1 profits, as well as declines in Equities, amid ongoing challenging market conditions.

Corporate Client Solutions

Corporate Client Solutions revenues increased by USD 113 million, or 18%, to USD 742 million. This mainly reflected higher revenues in Advisory and Equity Capital Markets, partly offset by lower revenues in Risk Management and Financing Solutions.

Advisory revenues increased 59% to USD 268 million from USD 168 million, mainly driven by higher revenues from merger and acquisition transactions, despite a 26% decline in the global fee pool.

Equity Capital Markets revenues increased by USD 45 million, or 23%, to USD 235 million, mainly reflecting higher revenues from public offerings, despite a 5% decline in the global fee pool. Revenues from private transactions also increased.

Debt Capital Markets revenues were unchanged at USD 164 million. Revenues in both investment grade and leveraged finance were broadly stable, against a global fee pool increase of 2% and a decline of 42%, respectively.

Financing Solutions revenues decreased to USD 69 million from USD 79 million, reflecting lower levels of client activity across most products.

Risk Management revenues decreased by USD 21 million to USD 6 million, mainly driven by losses in a portfolio of loans that are being exited and lower gains on a restructured debt position.

Investor Client Services

Investor Client Services revenues decreased by USD 208 million, or 14%, to USD 1,331 million, reflecting decreases in Foreign Exchange, Rates and Credit revenues and Equities revenues.

Equities

Equities revenues decreased by USD 96 million, or 9%, to USD 940 million, reflecting lower market volumes, market volatility and client activity, as well as the strong second quarter of 2018.

Cash revenues were USD 289 million compared with USD 315 million, mainly reflecting lower client activity levels.

Derivatives revenues decreased to USD 255 million from USD 280 million, reflecting the strong second quarter of 2018 and lower client activity levels.

Financing Services revenues decreased to USD 399 million from USD 451 million, driven by lower prime brokerage and equity finance revenues as a result of lower client balances and activity levels.

Foreign Exchange, Rates and Credit

Foreign Exchange, Rates and Credit revenues decreased by USD 112 million, or 22%, to USD 391 million, primarily because the second quarter of 2018 included net income of around USD 100 million consisting mainly of previously deferred day-1 profits that were subsequently recognized as a result of enhanced observability and revised valuations in the funding curve used to value UBS interest rate-linked notes. Excluding this net income, Foreign Exchange, Rates and Credit revenues decreased slightly. Higher Rates and Credit revenues that mainly reflected improved trading performance were more than offset by decreased Foreign Exchange revenues as a result of lower volatility and client activity levels. The second quarter of 2019 included a gain of USD 38 million on the sale of our remaining investment in TradeWeb, compared with mark-to-market gains of USD 20 million recognized in the second quarter of 2018.

Operating expenses

Total operating expenses increased by USD 17 million, or 1%, to USD 1,644 million, and adjusted operating expenses increased by USD 40 million, or 3%, to USD 1,631 million.

Personnel expenses increased by USD 15 million to USD 794 million, and adjusted personnel expenses increased by USD 16 million to USD 793 million.

General and administrative expenses remained broadly unchanged at USD 143 million, and on an adjusted basis at USD 141 million.

Net expenses for services to / from Corporate Center and other business divisions increased to USD 704 million from USD 698 million. Excluding restructuring expenses, adjusted net expenses increased to USD 694 million from USD 666 million, mainly reflecting higher expenses from Group Technology.

Risk-weighted assets and leverage ratio denominator: 2Q19 vs 1Q19

Risk-weighted assets

Total risk-weighted assets (RWA) decreased by USD 7 billion to USD 86 billion, driven by lower credit risk RWA, primarily due to methodology changes and exposure decreases in unutilized credit facilities, and lower market risk RWA, reflecting lower average regulatory and stressed value-at-risk (VaR) levels.

→ **Refer to the "Capital management" section of this report for more information**

Leverage ratio denominator

The leverage ratio denominator (LRD) increased by USD 12 billion to USD 300 billion, mainly driven by higher trading portfolio assets, reflecting the unwinding of short positions in our Equities business.

→ **Refer to the "Capital management" and "Balance sheet, liquidity and funding management" sections of this report for more information**

Results: 6M19 vs 6M18

Profit before tax decreased by USD 477 million, or 43%, to USD 634 million. Excluding restructuring expenses, adjusted profit before tax decreased by USD 529 million, or 44%, to USD 661 million. This mainly resulted from lower Investor Client Services and Corporate Client Solutions revenues, reflecting lower levels of client activity and declines in the global fee pool, partly offset by lower operating expenses.

Revenues in Corporate Client Solutions decreased by USD 310 million, or 21%, to USD 1,193 million, as a result of significantly lower levels of market activity and significantly reduced private transaction revenues, particularly in Equity Capital Markets, compared with the strong first half of 2018.

Advisory revenues increased by USD 12 million to USD 377 million, reflecting higher revenues from merger and acquisition transactions, against a global fee pool decrease of 13%, partly offset by lower revenues from private transactions.

Equity Capital Markets revenues decreased 28% from USD 503 million to USD 361 million, largely driven by lower revenues from private transactions, as well as lower revenues from public offerings, against a decline in the global fee pool of 22%.

Debt Capital Markets revenues decreased to USD 318 million from USD 426 million, mainly reflecting lower leveraged finance revenues against a global fee pool decrease of 29%. Financing Solutions revenues decreased to USD 126 million from USD 151 million, reflecting lower levels of client activity across most products.

Risk Management revenues decreased to USD 11 million from USD 58 million, mainly driven by losses in a portfolio of loans that are being exited and lower gains on a restructured debt position.

Investor Client Services revenues decreased by USD 427 million, or 14%, to USD 2,668 million, reflecting lower revenues across Equities and Foreign Exchange, Rates and Credit.

Equities revenues decreased by USD 351 million to USD 1,823 million. Cash revenues decreased to USD 591 million from USD 661 million, mainly reflecting lower client activity levels. Derivatives revenues decreased to USD 513 million from USD 642 million, reflecting the very strong first quarter of 2018 and lower client activity levels. Financing Services revenues decreased to USD 737 million from USD 885 million, reflecting lower client activity level across most products.

Foreign Exchange, Rates and Credit revenues decreased to USD 845 million from USD 920 million, primarily as the second quarter of 2018 included net income of around USD 100 million consisting mainly of previously deferred day-1 profits that were subsequently recognized as a result of enhanced observability and revised valuations in the funding curve used to value UBS interest rate-linked notes. Excluding this, Foreign Exchange, Rates and Credit revenues increased 3%. The first half of 2019 included a gain of USD 68 million on our investment in TradeWeb, which was sold in the second quarter of 2019, compared with mark-to-market gains of USD 22 million recognized in the first half of 2018.

Total operating expenses decreased by USD 263 million, or 8%, to USD 3,202 million, and adjusted operating expenses decreased by USD 212 million, or 6%, to USD 3,175 million. Personnel expenses decreased to USD 1,499 million from USD 1,731 million, and adjusted personnel expenses decreased to USD 1,497 million from USD 1,723 million, mainly reflecting lower variable compensation expenses. General and administrative expenses decreased to USD 284 million from USD 297 million and on an adjusted basis decreased to USD 280 million from USD 292 million. Net expenses for services to / from Corporate Center and other business divisions decreased to USD 1,412 million from USD 1,428 million, mainly as higher expenses from Group Technology were more than offset by lower expenses from strategic and regulatory initiatives and other services. Excluding restructuring expenses, adjusted net expenses increased to USD 1,391 million from USD 1,363 million, mainly driven by higher expenses from Group Technology.

¹ Prior-year comparative figures in this table have been restated for the changes in Corporate Center cost and resource allocation to the business divisions and the changes in the equity attribution framework effective 1 January 2019. Refer to "Note 2 Segment reporting" in the "Consolidated financial statements" section of this report for more information on the changes to the Corporate Center cost and resource allocation to business divisions and to the "Recent developments" section in our first quarter 2019 report for more information on the changes in the equity attribution framework. Comparatives may additionally differ as a result of adjustments following organizational changes, restatements due to the retrospective adoption of new accounting standards or changes in accounting policies, and events after the reporting period. ² Adjusted results are non-GAAP financial measures as defined by SEC regulations. ³ Reflects restructuring expenses related to legacy cost programs. ⁴ Refer to the "Capital management" section of this report for more information.

Results: 2Q19 vs 2Q18

Corporate Center recorded a loss before tax of USD 56 million compared with a loss of USD 233 million in the prior-year quarter, and an adjusted loss before tax of USD 65 million compared with a loss of USD 238 million.

We continue to expect Corporate Center to average a loss before tax of around USD 250 million per quarter in the second half of 2019, excluding gains, losses, income or expense from accounting asymmetries, hedge accounting ineffectiveness and litigation.

Operating income

Operating income was negative USD 30 million compared with negative USD 73 million. An increase in net treasury income of USD 156 million was partly offset by lower net income from Non-core and Legacy Portfolio and a decrease in other Corporate Center revenues.

Net treasury income

The net treasury income result was positive USD 39 million compared with negative USD 117 million. Excluding net foreign currency translation gains of USD 10 million, adjusted operating income was positive USD 29 million compared with negative USD 117 million.

Net treasury income included negative revenues of USD 69 million relating to centralized Group Treasury risk management services, compared with negative revenues of USD 64 million. Income related to hedge accounting ineffectiveness was positive USD 87 million compared with negative USD 16 million. Revenues from accounting asymmetries were positive USD 13 million compared with negative USD 33 million.

Operating income from Non-core and Legacy Portfolio

The operating income from Non-core and Legacy Portfolio was USD 61 million compared with USD 99 million. The second quarter of 2019 included a gain of USD 38 million related to the settlement of a litigation claim and income of USD 14 million related to a claim on a defaulted counterparty position. The second quarter of 2018 included valuation gains of USD 89 million on financial assets measured at fair value through profit and loss.

Operating expenses

Total operating expenses remaining in Corporate Center after allocations were USD 26 million compared with USD 160 million, and USD 25 million on an adjusted basis compared with USD 165 million, mainly related to a net release of USD 14 million of provisions for litigation, regulatory and similar matters compared with a net expense of USD 78 million and the allocation of the funding costs recorded under operating income.

Results: 6M19 vs 6M18

Corporate Center recorded a loss before tax of USD 71 million, compared with a loss of USD 325 million. The first quarter of 2018 included a credit of USD 122 million related to changes to our Swiss pension plan. On an adjusted basis, Corporate Center recorded a loss before tax of USD 82 million compared with USD 448 million.

Total operating income was positive USD 17 million compared with negative USD 174 million. An increase in net treasury income of USD 411 million was partly offset by lower net income from Non-core and Legacy Portfolio and a decrease in other Corporate Center revenues, driven mainly by higher funding costs relating to Corporate Center balance sheet assets, most of which were allocated to the business divisions through the line "Services (to) / from business divisions."

The net treasury income result was positive USD 163 million in the first half of 2019 compared with negative USD 248 million. Excluding net foreign currency translation gains of USD 10 million, adjusted operating income was positive USD 153 million compared with negative USD 248 million.

Net treasury income included negative revenues of USD 88 million relating to centralized Group Treasury risk management services, compared with negative revenues of USD 152 million. Income related to hedge accounting ineffectiveness was positive USD 147 million compared with negative USD 71 million. Revenues from accounting asymmetries were positive USD 94 million compared with negative USD 28 million.

The operating income from Non-core and Legacy Portfolio was USD 108 million compared with USD 149 million. The first half of 2019 included a gain related to the settlement of a litigation claim, valuation gains on financial assets measured at fair value through profit and loss, and income related to a claim on a defaulted counterparty position.

Total operating expenses remaining in Corporate Center after allocations were USD 88 million compared with USD 151 million and USD 89 million compared with USD 274 million on an adjusted basis, reflecting the aforementioned credit related to litigation, regulatory and similar matters and the allocation of the funding costs recorded under operating income.

Personnel: 2Q19 vs 1Q19

As of 30 June 2019, Corporate Center employed 31,191 personnel (full-time equivalents), a net decrease of 29 compared with 31 March 2019. External staff decreased by 890 over the same period.

Risk management and control

This section provides information on key developments during the reporting period and should be read in conjunction with the "Risk management and control" section of our Annual Report 2018.

Credit risk

Total net credit loss expenses in the second quarter of 2019 were USD 12 million, mainly in Corporate Center – Non-core and Legacy Portfolio and Global Wealth Management, reflecting losses of USD 35 million from credit-impaired (stage 3) positions,

partly offset by USD 23 million of releases in expected credit losses from stage 1 and 2 positions.

Overall credit risk exposures were broadly unchanged during the second quarter of 2019.

We continue to seek to manage our Swiss lending portfolios prudently and remain watchful for signs of deterioration that could affect our counterparties.

Within the Investment Bank, our leveraged loan underwriting business's overall ability to distribute risk remained robust. Loan underwriting exposures are held for trading, with fair values reflecting the market conditions at the end of the quarter.

Market risk

We continued to manage market risks at generally low levels of management value-at-risk (VaR). Average management VaR (1-day, 95% confidence level) remained unchanged, at USD 11 million, compared with the first quarter of 2019. Average regulatory VaR and stressed VaR decreased slightly in the second quarter.

There were no Group VaR negative backtesting exceptions in the second quarter of 2019, and the total number of negative backtesting exceptions within the most recent 250-business-day window decreased, from 2 to 1. The FINMA VaR multiplier for market risk RWA was unchanged compared with the prior quarter, at 3.

Management value-at-risk (1-day, 95% confidence, 5 years of historical data) of our business divisions and Corporate Center by general market risk type¹

| <i>USD million</i> | Average by risk type | | | | | | | | |
|---------------------------------------|----------------------|-----------|------------|-----------|----------|----------------|----------------|------------------|-------------|
| | Min. | Max. | Period end | Average | Equity | Interest rates | Credit spreads | Foreign exchange | Commodities |

| Total as of 30.6.19 | 9 | 15 | 12 | 11 | 7 | 9 | 4 | 4 | 2 |
| Total as of 31.3.19 | 7 | 15 | 15 | 11 | 6 | 8 | 4 | 4 | 2 |

¹ Statistics at individual levels may not be summed to deduce the corresponding aggregate figures. The minima and maxima for each level may occur on different days, and, likewise, the VaR for each business line or risk type, being driven by the extreme loss tail of the corresponding distribution of simulated profits and losses for that business line or risk type, may well be driven by different days in the historical time series, rendering invalid the simple summation of figures to arrive at the aggregate total. ² Difference between the sum of the standalone VaR for the business divisions and Corporate Center and the VaR for the Group as a whole. ³ As the minimum and maximum occur on different days for different business divisions and Corporate Center, it is not meaningful to calculate a portfolio diversification effect.

Changes to our interest rate risk in the banking book (IRRBB) disclosure

Based on the 2016 standards of the Basel Committee on Banking Supervision, FINMA published a revised circular on the minimum standards for the measurement, management, monitoring and control of interest rate risks in the banking book (IRRBB). This circular came into effect in January 2019 with the first enhanced Pillar 3 disclosure to be provided for the period ended 30 June 2019 in our 30 June 2019 Pillar 3 report, which will be available as of 27 August 2019 under "Pillar 3 disclosures" at www.ubs.com/investors. The new IRRBB regulation is centered around two complementary metrics:

- an economic value of equity (EVE)-based measure for changes in the theoretical present value of the banking book, which represents pro-forma information; and
- an earnings-based measure for assessing the sensitivity of the net interest income (NII) of the banking book to changes in interest rates.

The EVE sensitivity, which excludes equity, goodwill, real estate and additional tier 1 (AT1) capital instruments, is assessed under six regulatory rate-shock scenarios defined by FINMA in Circular 2019/2 *Interest Rate Risk – Banks*, which are currency-specific and not subject to flooring. Disclosure of the NII sensitivity is only required for the two parallel shock scenarios.

| USD Scenarios ¹ | Description |
|----------------------------|---|
| Parallel up | rates for all tenors move by +200 bps |
| Parallel down | rates for all tenors move by –200 bps |
| Steeper | front-end moves by –195 bps, long-end by +134 bps |
| Flattener | front-end moves by +240 bps, long-end by –89 bps |
| Short-term up | front-end moves by +300 bps, long-end by +1 bp |
| Short-term down | front-end moves by –300 bps, long-end by –1 bp |

¹ The six scenarios for other currencies have a similar shape, but different magnitude: the parallel shocks are 150 basis points for CHF, 200 basis points for EUR, and 250 basis points for GBP. The term "front-end" stands for overnight tenor and "long-end" for a 20-year tenor of the yield curve. Refer to FINMA Circular 2019/2 for more information.

As of 30 June 2019, the interest rate sensitivity of our banking book to a +1 basis point parallel shift in yield curves was negative USD 22.2 million and excludes additional tier 1 capital instruments (AT1) as per FINMA Pillar 3 disclosure requirements. The interest rate sensitivity also excludes our equity, goodwill and real estate with a modelled sensitivity of approximately USD 4 million per basis point in Swiss francs and USD 14 million per basis point in US dollars. The disclosures provided in the "Risk management and control" section of previous reports included the sensitivities of these exposures.

The most adverse of the six FINMA interest rate scenarios was the "Parallel up" scenario (+200 basis points for US dollar and +150 basis points for Swiss francs) resulting in a change of the economic value of equity of the banking book of negative USD 4.5 billion, representing a pro-forma effect equal to 9.0% of tier 1 capital, which is well below a threshold of 15% of tier 1 capital of the regulatory outlier test in the IRRBB regulation. The

immediate effect of the "Parallel up" scenario on tier 1 capital as of 30 June 2019 would be a reduction of 0.5%, or USD 0.2 billion, relating to the part of our banking book that is measured at fair value through profit or loss with recognition in eligible capital and a positive effect from pension funds.

Furthermore, this scenario would have a positive effect on net interest income.

- Refer to "Interest rate risk in the banking book" in the "Market risk" section of our Annual Report 2018 for more information on the management of interest rate risk in the banking book
- Refer to "Sensitivity to interest rate movements" in the "Group performance" section of this report for more information on the effect of increases in interest rates on equity, capital and net interest income of Global Wealth Management and Personal & Corporate Banking
- Refer to the 30 June 2019 Pillar 3 report, which will be available as of 27 August 2019 under "Pillar 3 disclosures" at www.ubs.com/investors

Country risk

We remain watchful of developments in Europe and political shifts in a number of countries. Our direct exposure to peripheral European countries is limited, although we have significant country risk exposure to major European economies, including the UK, Germany and France. The UK's process of withdrawing from the EU, as well as Italy's budget deficit and tensions between Italy and the EU remain areas of concern.

We are closely monitoring the growing risks stemming from ongoing US trade policy shifts, and their potential effect on key markets, economies and countries.

We also continue to closely monitor our direct exposure to China. In addition, a number of emerging markets are facing economic, political and market pressures. Our exposure to emerging market countries is well diversified.

→ Refer to the "Risk management and control" section of our Annual Report 2018 for more information

Operational risk

Operational resilience, conduct and culture, and financial crime continue to be the pervasive consequential risk themes challenging both UBS and the wider financial industry.

Operational resilience remains a key focus for the firm, as we continually enhance our ability to respond to disruptions and maintain effective day-to-day business activities. Cybersecurity and data protection are critical elements of operational resilience, and our cybersecurity objectives are set in line with prevailing international standards, while our data protection standards are intended to align with applicable data protection regulations and standards. We are investing in preemptive and detective measures to defend against evolving and highly sophisticated cyberattacks, to achieve our objectives and meet applicable standards. Our investment priorities focus on increasing readiness to detect and respond to cyber threats and data loss, employee training and behaviors, and application and infrastructure security (including vulnerability management).

Financial crime (including money laundering, terrorist financing, sanctions violations, fraud, bribery and corruption) continues to present a risk, as technological innovation and geopolitical developments increase the complexity of doing business and heightened regulatory attention persists. An effective financial crime prevention program remains essential for the firm. Money laundering and financial fraud techniques

are becoming increasingly sophisticated, while geopolitical volatility makes the sanctions landscape more complex. We continue to invest heavily in our detection capabilities and core systems as part of our financial crime prevention program, with a focus on improving these to meet regulatory expectations, including to address the requirements of the May 2018 cease and desist order issued by the Office of the Comptroller of the Currency relating to our US branch know-your-customer and AML programs.

Management of conduct risk is an integral part of our operational risk framework. In addition to that framework, our two areas of focus when managing conduct risk are enhancing management information and improving our effectiveness at identifying and remediating operational risk. Conduct-related management information is reviewed at the business and regional governance level, providing metrics on employee conduct, clients and markets. Furthermore, we continue to pursue behavioral initiatives, such as the "Principles of Good Supervision," and to provide mandatory compliance and risk training.

We maintain our focus on regulatory reporting, updating our regulatory process management framework and enhancing our regulatory developments tracking, as well as continuing to enhance our operational risk framework (ORF) assessment processes, including legal entity reporting, to meet evolving regulatory expectations.

Balance sheet, liquidity and funding management

Strategy, objectives and governance

This section provides balance sheet, liquidity and funding management information and should be read in conjunction with the "Treasury management" section of our Annual Report 2018, which provides more information about the Group's strategy, objectives and governance in connection with liquidity and funding management.

Balances disclosed in this section represent quarter-end positions, unless indicated otherwise. Intra-quarter balances fluctuate in the ordinary course of business and may differ from quarter-end positions.

Assets and liquidity management

Balance sheet assets (30 June 2019 vs 31 March 2019)

As of 30 June 2019, balance sheet assets totaled USD 969 billion, an increase of USD 12 billion from 31 March 2019.

Total assets excluding derivatives and cash collateral receivables on derivative instruments increased by USD 3 billion to USD 823 billion, mainly driven by increases in trading portfolio assets and other financial assets measured at amortized cost and fair value. This was partly offset by decreases in cash and balances at central banks and receivables from securities financing transactions held at amortized cost.

Trading portfolio assets increased by USD 11 billion, mainly in the Investment Bank, largely reflecting the unwinding of short positions in our Equities business. Other financial assets measured at amortized cost and fair value increased by USD 8 billion, predominantly driven by an increase in receivables from securities financing transactions measured at fair value as a result of client activities, and a transfer from cash into debt securities measured at fair value within our high-quality liquid assets (HQLA) portfolio.

These increases were partly offset by a USD 9 billion reduction in cash and balances at central banks, mainly as a result of increased funding consumption by the business divisions, particularly the Investment Bank, and maturities of short-term borrowings. Receivables from securities financing transactions held at amortized cost decreased by USD 7 billion, mainly reflecting lower sourcing requirements for non-cash collateral within Group Treasury.

Derivatives and cash collateral receivables on derivative instruments increased by USD 9 billion, primarily due to mark-to-market effects on derivatives held and higher embedded spreads on new trades compared with those rolling off in our Foreign Exchange, Rates and Credit business in the Investment Bank.

→ Refer to the "Consolidated financial statements" section of this report for more information

¹ Consists of loans and advances to banks and customers. ² Consists of financial assets at fair value held for trading. ³ Consists of financial assets at fair value not held for trading, financial assets measured at fair value through other comprehensive income and other financial assets measured at amortized cost, but excludes financial assets for unit-linked investment contracts and cash collateral receivables on derivative instruments.

Liquidity coverage ratio

In the second quarter of 2019, the UBS Group liquidity coverage ratio (LCR) decreased by 8 percentage points to 145%, remaining above the 110% Group LCR minimum communicated by the Swiss Financial Market Supervisory Authority (FINMA). The LCR decrease was primarily driven by decreased high-quality

liquid assets resulting from lower average cash balances, reflecting increased funding consumption by the business divisions over the quarter.

→ **Refer to the “Treasury management” section of our Annual Report 2018 for more information on liquidity management and the liquidity coverage ratio**

Liquidity coverage ratio

¹ Calculated based on an average of 65 data points in the second quarter of 2019 and 63 data points in the first quarter of 2019. ² Calculated after the application of haircuts. ³ Includes cash and balances at central banks and other eligible balances as prescribed by FINMA. ⁴ Calculated in accordance with FINMA requirements. ⁵ Calculated after the application of inflow and outflow rates.

Liabilities and funding management**Liabilities (30 June 2019 vs 31 March 2019)**

Total liabilities increased by USD 13 billion to USD 915 billion as of 30 June 2019. Total liabilities excluding derivatives and cash collateral were broadly unchanged at USD 763 billion as of 30 June 2019.

Customer deposits increased by USD 7 billion, primarily in Global Wealth Management and Personal & Corporate Banking, mainly driven by currency effects.

This increase was offset by a reduction in short-term borrowings of USD 7 billion, mainly reflecting net maturities of commercial paper and certificates of deposit.

Derivatives and cash collateral payables on derivative instruments increased by USD 11 billion, in line with the aforementioned increase in derivative financial assets and cash collateral receivables.

The “Funding by product and currency” table in this section provides more information on our funding sources.

 → **Refer to the “Consolidated financial statements” section of this report for more information**

Equity

Equity attributable to shareholders decreased to USD 53,180 million as of 30 June 2019 from USD 53,667 million as of 31 March 2019.

Total comprehensive income attributable to shareholders was USD 2,478 million, reflecting net profit of USD 1,392 million and positive other comprehensive income (OCI) of USD 1,086 million. OCI included positive cash flow hedge OCI of USD 773 million, positive foreign currency translation OCI of USD 168 million, positive OCI related to own credit of USD 72 million, positive OCI related to debt instruments measured at fair value through OCI of USD 65 million and positive defined benefit plan OCI of USD 8 million.

Share premium decreased by USD 2,333 million, mainly due to the distribution of USD 2,544 million to shareholders out of the capital contribution reserve of UBS Group AG, partly offset by the amortization of deferred share-based compensation awards, which increased share premium by USD 174 million.

Net treasury share activity reduced equity attributable to shareholders by USD 633 million. This was largely due to the purchase of USD 382 million of shares from the market to hedge future share delivery obligations related to employee share-based compensation awards as well as repurchases of USD 297 million under our share repurchase program.

- Refer to the “Consolidated financial statements” and “Group performance” sections of this report for more information
- Refer to “UBS shares” in the “Capital management” section of this report for more information on the share repurchase program

¹ Consists of short-term debt issued measured at amortized cost and amounts due to banks. ² Consists of long-term debt issued measured at amortized cost and debt issued designated at fair value. The classification of debt issued into short-term and long-term does not consider any early redemption features. ³ Consists of financial liabilities at fair value held for trading. ⁴ Consists of other financial liabilities measured at amortized cost and other financial liabilities designated at fair value, but excludes financial liabilities related to unit-linked investment contracts. ⁵ Excludes defined benefit plans and own credit that are recorded directly in Retained earnings.

Off-balance sheet¹

| | As of | | % change from |
|--|---------|---------|---------------|
| USD billion | 30.6.19 | 31.3.19 | 31.3.19 |
| Total guarantees ² | 15.7 | 16.5 | (5) |
| Loan commitments ² | 30.8 | 33.6 | (8) |
| Forward starting reverse repurchase agreements | 34.3 | 31.3 | 10 |
| Forward starting repurchase agreements | 18.8 | 16.0 | 18 |

¹ The information provided in this table is aligned with the scope disclosed in "Note 17 Guarantees, commitments and forward starting transactions" in the "Consolidated financial statements" section of this report. ² Total guarantees and Loan commitments are shown net of sub-participations.

Off-balance sheet (30 June 2019 vs 31 March 2019)

Forward starting reverse repurchase agreements and forward starting repurchase agreements each increased by USD 3 billion, primarily in Corporate Center, reflecting higher market activity in short-dated securities financing transactions. Guarantees decreased by USD 1 billion, primarily in Global Wealth

Management and in the Investment Bank. Loan commitments decreased by USD 3 billion, primarily in our Corporate Client Solutions business in the Investment Bank, mainly reflecting commitments that were cancelled, reduced or funded during the quarter.

Pro forma net stable funding ratio

| USD billion, except where indicated | 30.6.19 | 31.3.19 |
|---|------------|------------|
| Available stable funding | 483 | 474 |
| Required stable funding | 435 | 432 |
| Pro forma net stable funding ratio (%) | 111 | 110 |

Net stable funding ratio

As of 30 June 2019, our estimated pro forma net stable funding ratio (NSFR) was 111%, an increase of 1 percentage point compared with 31 March 2019, primarily reflecting a USD 9 billion increase in available stable funding, mainly driven by an increase in deposits, and a USD 3 billion increase in required stable funding, mainly due to an increase in trading assets.

The calculation of our pro forma NSFR includes estimates of the effect of the Basel Committee on Banking Supervision rules and will be refined when NSFR rule-making is completed in Switzerland and as regulatory interpretations evolve and new models and associated systems are enhanced.

→ Refer to the "Treasury management" section of our Annual Report 2018 for more information on the net stable funding ratio

Capital management

This section provides information on key developments during the reporting period and should be read in conjunction with the “Capital management” section of our Annual Report 2018, which provides more information about our strategy, objectives and governance for capital management. Disclosures in this section are provided for UBS Group AG on a consolidated basis and focus on information in accordance with the Basel III framework, as applicable to Swiss systemically relevant banks (SRBs).

Information in accordance with the Basel Committee on Banking Supervision framework for UBS Group AG consolidated together with capital and other regulatory information for UBS AG standalone, UBS Switzerland AG standalone, UBS Europe SE consolidated and UBS Americas Holding LLC consolidated is provided in our 30 June 2019 Pillar 3 report, which will be available as of 27 August 2019 under “Pillar 3 disclosures” at www.ubs.com/investors.

Capital and other regulatory information for UBS AG consolidated is provided in the UBS AG second quarter 2019 report, which will be available as of 26 July 2019 under “Quarterly reporting” at www.ubs.com/investors.

Swiss SRB requirements and information

Information on the Swiss SRB capital framework and on Swiss SRB going and gone concern requirements that are being phased in until the end of 2019 is provided in the “Capital management” section of our Annual Report 2018. These requirements are also applicable to UBS AG consolidated and UBS Switzerland AG standalone. UBS AG is subject to going concern requirements on a standalone basis, for which details are provided in the 31 December 2018 Pillar 3 report, which is

available under “Pillar 3 disclosures” at www.ubs.com/investors, and in our 30 June 2019 Pillar 3 report, which will be available as of 27 August 2019 under “Pillar 3 disclosures” at www.ubs.com/investors.

The table below provides the risk-weighted assets (RWA)- and leverage ratio denominator (LRD)-based requirements and information as of 30 June 2019.

¹ Includes applicable add-ons of 1.44% for RWA and 0.5% for LRD. ² Includes outstanding low-trigger loss-absorbing additional tier 1 (AT1) and tier 2 capital instruments, which are available under the transitional rules of the Swiss SRB framework to meet the going concern requirements until their first call date, even if the first call date is after 31 December 2019. As of their first call date, these instruments are eligible to meet the gone concern requirements. Outstanding low-trigger loss-absorbing tier 2 capital instruments are subject to amortization starting five years prior to their maturity, with the amortized portion qualifying as gone concern loss-absorbing capacity. Instruments available to meet gone concern requirements are eligible until one year before maturity, with a haircut of 50% applied in the last year of eligibility.

Total loss-absorbing capacity

The table below provides Swiss SRB going and gone concern information based on transitional arrangements and based on the final rules, which will be effective as of 1 January 2020. The remaining differences between the columns "Swiss SRB, including transitional arrangements" and "Swiss SRB as of 1.1.20" are fully related to the eligibility of instruments as

required by the too big to fail provisions in the Swiss Capital Adequacy Ordinance applicable to Swiss SRBs, which are described in the "Swiss SRB total loss-absorbing capacity framework" in the "Capital management" section of our Annual Report 2018.

¹ Under the transitional rules of the Swiss SRB framework, outstanding low-trigger loss-absorbing tier 2 capital instruments are subject to amortization starting five years prior to their maturity, with the amortized portion qualifying as gone concern loss-absorbing capacity. ² Instruments available to meet gone concern requirements are eligible until one year before maturity, with a haircut of 50% applied in the last year of eligibility. ³ Non-Basel III-compliant tier 2 capital instruments qualify as gone concern instruments.

Total loss-absorbing capacity and movement under Swiss SRB rules applicable as of 1 January 2020

Going concern capital and movement

As of 30 June 2019, our common equity tier 1 (CET1) capital increased by USD 0.3 billion to USD 34.9 billion, mainly as a result of operating profit before tax and foreign currency translation effects, partly offset by accruals for capital returns to shareholders, compensation-related regulatory capital accruals, share repurchases under our share repurchase program and current tax expense.

→ Refer to “UBS shares” in this section for more information on the share repurchase program

Gone concern loss-absorbing capacity and movement

Our total gone concern loss-absorbing capacity decreased by USD 0.7 billion to USD 37.4 billion, primarily as a result of a decrease in the eligibility of two total loss-absorbing capacity (TLAC)-eligible senior unsecured debt instruments of which the residual tenor fell to below two years.

→ Refer to “Bondholder information” at www.ubs.com/investors for more information on the eligibility of capital and senior unsecured debt instruments and on key features and terms and conditions of capital instruments

Loss-absorbing capacity and leverage ratios

Our CET1 capital ratio increased 0.4 percentage points to 13.3%, reflecting the aforementioned USD 0.3 billion increase in CET1 capital and a USD 5.4 billion decrease in risk-weighted assets (RWA).

Our CET1 leverage ratio increased to 3.83% from 3.80% in the second quarter of 2019, reflecting the aforementioned increase in CET1 capital.

Our gone concern loss-absorbing capacity ratio increased to 14.3% from 14.2%, mainly driven by the aforementioned decrease in RWA. Our gone concern leverage ratio decreased 0.1 percentage points to 4.1%, reflecting the aforementioned decrease in gone concern loss-absorbing capacity.

Reconciliation of IFRS equity to Swiss SRB common equity tier 1 capital

Additional information

Sensitivity to currency movements

Risk-weighted assets

We estimate that a 10% depreciation of the US dollar against other currencies would increase our RWA by USD 11 billion and our CET1 capital by USD 1.1 billion as of 30 June 2019 (31 March 2019: USD 11 billion and USD 1.2 billion, respectively) and reduce our CET1 capital ratio by 13 basis points (31 March 2019: 9 basis points). Conversely, we estimate that a 10% appreciation of the US dollar against other currencies would reduce our RWA by USD 10 billion and our CET1 capital by USD 1.0 billion (31 March 2019: USD 10 billion and USD 1.1 billion, respectively) and increase our CET1 capital ratio by 13 basis points (31 March 2019: 9 basis points).

Leverage ratio denominator

We estimate that a 10% depreciation of the US dollar against other currencies would increase our LRD by USD 57 billion (31 March 2019: USD 58 billion) and reduce our Swiss SRB going concern leverage ratio by 18 basis points (31 March 2019: 18 basis points). Conversely, we estimate that a 10% appreciation of the US dollar against other currencies would have reduced our LRD by USD 52 billion (31 March 2019: USD 52 billion) and increase our Swiss SRB going concern leverage ratio by 19 basis points (31 March 2019: 18 basis points).

The aforementioned sensitivities do not consider foreign currency translation effects related to defined benefit plans other than those related to the currency translation of the net equity of foreign operations.

→ Refer to “Active management of sensitivity to currency movements” in the “Capital management” section of our Annual Report 2018 for more information

Estimated effect on capital from litigation, regulatory and similar matters subject to provisions and contingent liabilities

We have estimated the loss in capital that we could incur as a result of the risks associated with the matters described in “Note 16 Provisions and contingent liabilities” in the “Consolidated financial statements” section of this report. We have used for this purpose the advanced measurement approach (AMA) methodology that we use when determining the capital requirements associated with operational risks, based on a 99.9% confidence level over a 12-month horizon. The methodology takes into consideration UBS and industry experience for the AMA operational risk categories to which those matters correspond, as well as the external environment affecting risks of these types, in isolation from other areas. On this standalone basis, we estimate the loss in capital that we could incur over a 12-month period as a result of our risks associated with these operational risk categories at USD 4.6 billion as of 30 June 2019. This estimate is not related to and does not take into account any provisions recognized for any of these matters and does not constitute a subjective assessment of our actual exposure in any of these matters.

→ Refer to “Operational risk” in the “Risk management and control” section of our Annual Report 2018 for more information

→ Refer to “Note 16 Provisions and contingent liabilities” in the “Consolidated financial statements” section of this report for more information

Risk-weighted assets

During the second quarter of 2019, risk-weighted assets (RWA) decreased by USD 5.4 billion to USD 262.1 billion, reflecting decreases from asset size and other movements of USD 3.5 billion, methodology and policy changes of USD 1.9 billion and lower regulatory add-ons of USD 1.5 billion, partly offset by currency effects of USD 1.2 billion and increases from model updates of USD 0.3 billion.

Movement in risk-weighted assets by key driver

| <i>USD billion</i> | RWA as of 31.3.19 | Currency effects | Methodology and policy changes | Model updates / changes | Regulatory add-ons | Asset size and other ¹ | RWA as of 30.6.19 |
|--|----------------------|---------------------|--------------------------------------|-------------------------------|-----------------------|--------------------------------------|----------------------|
| Credit and counterparty credit risk ² | 152.7 | 1.1 | (1.9) | 0.5 | | (3.4) | 149.1 |
| Non-counterparty-related risk | 21.5 | 0.1 | | | | 0.2 | 21.8 |
| Market risk | 13.0 | | | (0.2) | (1.5) | (0.3) | 11.0 |

| Total | 267.6 | 1.2 | (1.9) | 0.3 | (1.5) | (3.5) | 262.1 |

¹ Includes the Pillar 3 categories "Asset size," "Credit quality of counterparties," "Acquisitions and disposals" and "Other." For more information, refer to the 30 June 2019 Pillar 3 report, which will be available as of 27 August 2019 under "Pillar 3 disclosures" at www.ubs.com/investors. ² Includes settlement risk, credit valuation adjustments, equity exposures in the banking book and securitization exposures in the banking book.

Credit and counterparty credit risk

Credit and counterparty credit risk RWA decreased by USD 3.6 billion to USD 149.1 billion as of 30 June 2019.

The RWA decrease from asset size and other movements of USD 3.4 billion was mainly driven by decreases in loan exposures, margin loans and unutilized credit facilities in the Investment Bank's Corporate Client Solutions business.

The decrease from methodology and policy changes was predominantly driven by the exclusion of certain collar financing transactions in the Investment Bank from credit risk RWA due to their non-credit bearing nature.

The aforementioned decreases were partly offset by a USD 0.5 billion increase in RWA from model updates, driven by the continued phasing-in of RWA increases related to probability of default (PD) and loss given default (LGD) changes from the implementation of revised models for Swiss residential mortgages, affecting Personal & Corporate Banking and Global Wealth Management.

We anticipate that methodology changes and model updates, including the continued phase-in of RWA increases related to PD and LGD factors on Swiss mortgages, will increase credit and

counterparty credit risk RWA by around USD 1.5 billion in the second half of 2019. The extent and timing of RWA changes may vary as methodology changes and model updates are completed and receive regulatory approval, and as regulatory multipliers are adjusted. In addition, changes in the composition of the relevant portfolios and other factors will affect our RWA.

→ Refer to "Credit risk models" in the "Risk management and control" section of our Annual Report 2018 for more information

Market risk

Market risk RWA decreased by USD 2.0 billion in the second quarter of 2019, primarily driven by reduction from regulatory add-ons, reflecting updates from the monthly risks-not-in-VaR assessment.

→ Refer to the "Risk management and control" section of this report and the 30 June 2019 Pillar 3 report, which will be available as of 27 August 2019 under "Pillar 3 disclosures" at www.ubs.com/investors, for more information

→ Refer to "Market risk" within the "Risk management and control" section of our Annual Report 2018 for more information

Operational risk

Operational risk RWA were USD 80.3 billion as of 30 June 2019, unchanged from 31 March 2019.

→ Refer to "Operational risk" in the "Risk management and control" section of our Annual Report 2018 for information on the advanced measurement approach model

Leverage ratio denominator

Leverage ratio denominator (LRD) remained stable at USD 911 billion in the second quarter of 2019, as the increase from currency effects was substantially offset by the decrease in asset size and other movements.

Movement in leverage ratio denominator by key driver

| <i>USD billion</i> | LRD as of 31.3.19 | Currency effects | Asset size and other | LRD as of 30.6.19 |
|---|------------------------------|---------------------|-------------------------|------------------------------|
| On-balance sheet exposures (excluding derivative exposures and SFTs) ¹ | 671.1 | 5.7 | 0.8 | 677.6 |
| Derivative exposures | 95.0 | 0.3 | (2.3) | 93.0 |
| Securities financing transactions | 132.1 | 0.2 | (3.7) | 128.7 |
| Off-balance sheet items | 26.3 | 0.2 | (1.0) | 25.5 |
| Deduction items | (13.6) | 0.0 | 0.2 | (13.5) |
| Total | 911.0 | 6.4 | (6.0) | 911.4 |

¹ Excludes positive replacement values, cash collateral receivables on derivative instruments, cash collateral on securities borrowed, reverse repurchase agreements, margin loans and prime brokerage receivables related to securities financing transactions, which are presented separately under Derivative exposures and Securities financing transactions in this table.

The LRD movements described below exclude currency effects.

Derivative exposures decreased by USD 2 billion, mainly as a result of client-driven reductions in cash collateral on derivative instruments within the Investment Bank's Equities business, and lower notional amounts for exchange-traded options in Global Wealth Management, resulting in lower add-on exposures under the current exposure method.

Securities financing transactions (SFTs) decreased by USD 4 billion, primarily reflecting the net decrease in Corporate Center whereby lower sourcing requirements for non-cash collateral were partly offset by client-driven increase in other financial assets at fair value not held for trading.

→ **Refer to the "Balance sheet, liquidity and funding management" section of this report for more information on balance sheet movements**

¹ Represents the difference between the IFRS and the regulatory scope of consolidation, which is the applicable scope for the LRD calculation. ² Consists of derivative financial instruments, cash collateral receivables on derivative instruments, receivables from securities financing transactions, and margin loans as well as prime brokerage receivables and financial assets at fair value not held for trading, both related to securities financing transactions, in accordance with the regulatory scope of consolidation, which are presented separately under Derivative exposures and Securities financing transactions.

Equity attribution and return on attributed equity

Under our equity attribution framework, tangible equity is attributed based on a weighting of 50% each for average risk weighted assets (RWA) and average leverage ratio denominator (LRD), which both include resource allocations from Corporate Center to the business divisions. Average RWA and LRD are converted to their common equity tier 1 (CET1) capital equivalents based on capital ratios of 12.5% and 3.75%, respectively. If the attributed tangible equity calculated under the weighted-driver approach is less than the CET1 capital equivalent of risk-based capital (RBC) for any business division, the CET1 capital equivalent of RBC is used as a floor for that business division.

Furthermore, we allocate to business divisions attributed equity that is related to certain CET1 deduction items, such as compensation-related components and the expected loss on advanced internal ratings-based portfolio less general provisions.

In addition to tangible equity, we allocate equity to our businesses to support goodwill and intangible assets.

We attribute all remaining Basel III capital deduction items to Corporate Center Group items. These deduction items include deferred tax assets (DTAs) recognized for tax loss carry-forwards and DTAs on temporary differences in excess of the threshold, which together constituted the largest component of Corporate Center Group items, dividend accruals and unrealized gains from cash flow hedges.

→ Refer to the “Capital management” section of our Annual Report 2018 for more information on the equity attribution framework

Attributed equity

| USD billion | For the quarter ended | | | Year-to-date | |
|---|-----------------------|-------------|-------------|--------------|-------------|

¹ Return on attributed equity for Corporate Center is not shown, as it is not meaningful. ² Adjusted results are non-GAAP financial measures as defined by SEC regulations.

UBS shares

UBS Group AG shares are listed on the SIX Swiss Exchange (SIX). They are also listed on the New York Stock Exchange (NYSE) as global registered shares. Each share has a par value of CHF 0.10 per share.

Shares issued increased slightly in the second quarter of 2019, due to the issuance of shares out of conditional share capital upon exercise of employee share options.

Treasury shares totaled 199 million shares as of 30 June 2019, of which 72 million shares were acquired under our share repurchase program for cancellation purposes. The remaining shares are primarily held to hedge our share delivery obligations related to employee share-based compensation and participation plans and totaled 127 million shares as of 30 June 2019.

Treasury shares held increased by 53 million shares in the second quarter of 2019. This largely reflected the purchase of 32.5 million shares from the market to hedge future share delivery obligations related to employee share-based compensation awards as well as repurchases of 24.1 million shares under our share repurchase program. Since March 2018, when the share repurchase program was started, we have acquired 72.4 million shares for a total consideration of CHF 1,050 million (USD 1,059 million).

| Market capitalization (USD million) ⁴ | 43,491 | 45,009 | 57,654 | (3) |

¹ Refer to "Note 9 Earnings per share (EPS) and shares outstanding" in the "Consolidated financial statements" section of this report for more information. ² Basic and diluted earnings per share in Swiss francs are calculated based on a translation of net profit / (loss) under our US dollar presentation currency. As a consequence of the restatement to a US dollar presentation currency, amounts may differ from those originally published in our quarterly and annual reports. ³ Represents the share price as listed on the SIX Swiss Exchange, translated to US dollars using the closing exchange rate as of the respective date. ⁴ Beginning with our Annual Report 2018, the calculation of market capitalization has been amended to reflect total shares outstanding multiplied by the share price at the end of the period. The calculation was previously based on total shares issued multiplied by the share price at the end of the period. Market capitalization has been reduced by USD 1.9 billion as of 30 June 2018 as a result.

Refer to "Note 26 Restricted and transferred financial assets" in the "Consolidated financial statements" section of the Annual Report 2018 for more information. ³ Money market paper is included in the balance sheet under Financial assets at fair value held for trading, Financial assets measured at fair value through other comprehensive income, Financial assets at fair value not held for trading and Other financial assets measured at amortized cost. ⁴ Includes dividends received from associates reported within Net cash flow from / (used in) investing activities.

Notes to the UBS Group AG interim consolidated financial statements (unaudited)

Note 1 Basis of accounting

Basis of preparation

The consolidated financial statements (the financial statements) of UBS Group AG and its subsidiaries (together "UBS" or "the Group") are prepared in accordance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB), and are presented in US dollars (USD), which is also the functional currency of UBS Group AG, UBS AG's Head Office, UBS AG's London Branch and UBS's US-based operations. These interim financial statements are prepared in accordance with IAS 34, *Interim Financial Reporting*.

In preparing these interim financial statements, the same accounting policies and methods of computation have been applied as in the UBS Group AG consolidated annual financial statements for the period ended 31 December 2018, except for the changes described in this note. These interim financial statements are unaudited and should be read in conjunction with UBS Group AG's audited consolidated financial statements included in the Annual Report 2018. In the opinion of management, all necessary adjustments were made for a fair presentation of the Group's financial position, results of operations and cash flows.

Preparation of these interim financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, income, expenses and disclosures of contingent assets and liabilities. These estimates and assumptions are based on the best available information. Actual results in the future could differ from such estimates and such differences may be material to the financial statements. Revisions to estimates, based on regular reviews, are recognized in the period in which they occur. For more information on areas of estimation uncertainty that are considered to require critical judgment, refer to "Note 1a Significant accounting policies" in the "Consolidated financial statements" section of the Annual Report 2018.

Adoption of IFRS 16, *Leases*

Application and transition effect

Effective from 1 January 2019, UBS adopted IFRS 16, *Leases*, which replaced IAS 17, *Leases*, and sets out the principles for the recognition, measurement, presentation and disclosure of leases.

IFRS 16 introduces a single lessee accounting model and fundamentally changes how UBS accounts for operating leases when acting as a lessee, with a requirement to record a right-of-use asset and lease liability on the balance sheet. UBS is a lessee in a number of leases, primarily of real estate, including offices, retail branches and sales offices, with a smaller number of IT hardware leases. As permitted by the transitional provisions of IFRS 16, UBS elected to apply the modified retrospective approach and has not restated comparative figures. Overall, adoption of IFRS 16 resulted in a USD 3.5 billion increase in both total assets and total liabilities in UBS's consolidated financial statements. There was no effect on equity.

→ **Refer to the tables on the next page for more information**

UBS applied the following practical expedients that are permitted on transition to IFRS 16 where UBS is the lessee in a lease previously classified as an operating lease:

- to not reassess whether or not a contract contained a lease;
- to rely on previous assessments of whether such contracts were considered onerous;
- to rely on previous sale-and-leaseback assessments;
- to adjust lease terms with the benefit of hindsight with respect to whether extension or termination options are reasonably certain of being exercised;
- to discount lease liabilities using the Group's incremental borrowing rate in each currency as at 1 January 2019;
- to initially measure the right-of-use asset at an amount equal to the lease liability for leases previously classified as operating leases, adjusted for existing lease balances such as rent prepayments, rent accruals, lease incentives and onerous lease provisions, but excluding initial direct costs; and
- to not apply IFRS 16 to leases whose remaining term will end within 12 months from the transition date.

Note 1 Basis of accounting (continued)

The measurement of leases previously classified as finance leases, where UBS acts as lessee, has not changed on transition to IFRS 16. Similarly UBS has made no adjustments where UBS acts as lessor, in either a finance or operating lease, of physical assets it owns. Where UBS acts as an intermediate lessor, i.e., where UBS enters into a head lease and subleases the asset to a third party, the sublease has been classified as either a finance or operating

lease based primarily on whether the sublease term consumes the majority of the remaining useful life of the right-of-use asset arising from the head lease as at the transition date.

The following table reconciles the obligations in respect of operating leases as at 31 December 2018 to the opening lease liabilities recognized on 1 January 2019:

Reconciliation between operating lease commitments disclosed under IAS 17 and lease liabilities recognized under IFRS 16

| <i>USD million</i> | |
|--|--------------|
| Total undiscounted operating lease commitments as of 31 December 2018 | 4,688 |
| Leases with a remaining term of less than one year as of 1 January 2019 | (18) |
| Excluded service components | (296) |
| Reassessment of lease term for extension or termination options | 403 |
| Total undiscounted lease payments | 4,777 |
| Discounted at a weighted average incremental borrowing rate of 3.07% | (744) |
| IFRS 16 transition adjustment | 4,033 |
| Finance lease liabilities as of 31 December 2018 | 24 |
| Carrying amount of total lease liabilities as of 1 January 2019 | 4,057 |

The following table provides details on the determination of right-of-use assets on transition:

Determination of right-of-use (RoU) assets on transition

| <i>USD million</i> | <i>Carrying amount</i> |
|--|------------------------|
| Recognition of gross RoU assets upon adoption of IFRS 16 (IFRS 16 transition adjustment) | 4,033 |
| Offset by liabilities recognized as of 31 December 2018 | (521) |
| <i>of which: other non-financial liabilities (lease incentives)</i> | <i>(204)</i> |
| <i>of which: other financial liabilities measured at amortized cost (rent accruals)</i> | <i>(185)</i> |
| <i>of which: provisions (onerous lease provisions)</i> | <i>(132)</i> |
| Increase in total assets resulting from the adoption of IFRS 16 on 1 January 2019¹ | 3,512 |
| Reclassification of assets recognized as of 31 December 2018 as an addition to RoU assets | 43 |
| <i>of which: other financial assets measured at amortized cost (finance lease assets recognized under IAS 17 as of 31 December 2018)</i> | <i>24</i> |
| <i>of which: other non-financial assets (prepaid rent)</i> | <i>19</i> |
| Reclassification of finance lease receivables from subleases to other financial assets measured at amortized cost resulting in a reduction of RoU assets | (176) |
| Total right-of-use assets as of 1 January 2019 presented within Property, equipment and software | 3,378 |

¹ Total liabilities increased by the same amount upon adoption of IFRS 16.

Lease liabilities are presented within *Other financial liabilities measured at amortized cost* and right-of-use assets within *Property, equipment and software*. Finance lease receivables are included within *Other financial assets measured at amortized cost*. Due to the practical expedients taken on transition, there was no effect on equity. The weighted average lease term at 1 January 2019 was approximately 9 years.

During the second quarter the depreciation charge for right-of-use assets presented within *Depreciation and impairment of property, equipment and software* was USD 119 million (first quarter of 2019: USD 118 million). The interest charge on lease

liabilities presented within *Interest expense from financial instruments measured at amortized cost* was USD 31 million (first quarter of 2019: USD 32 million) and other rent expenses (including non-lease components paid to landlords) presented within *General and administrative expenses* were USD 12 million (first quarter of 2019: USD 16 million). This compares with a total rent expense presented in *General and administrative expenses* of USD 149 million and USD 152 million for the quarters ended 30 June 2018 and 31 March 2018, respectively.

Note 1 Basis of accounting (continued)**Update to significant accounting policy – Leasing (disclosed in Note 1a item 15 Leasing in the financial statements 2018)**

UBS predominantly enters into lease contracts, or contracts that include lease components, as a lessee of real estate, including offices, retail branches and sales offices, with a small number of IT hardware leases. UBS identifies non-lease components of a contract and accounts for them separately from lease components.

When UBS is lessee in a lease arrangement, UBS recognizes a lease liability and corresponding right-of-use (RoU) asset at the commencement of the lease term when UBS acquires control of the physical use of the asset. Lease liabilities are presented within *Other financial liabilities measured at amortized cost* and RoU assets within *Property, equipment and software*. The lease liability is measured based on the present value of the lease payments over the lease term, discounted using UBS's unsecured borrowing rate given the rate implicit in a lease is generally not observable to the lessee. Interest expense on the lease liability is presented within *Interest expense from financial instruments measured at amortized cost*. The RoU asset is recorded at an amount equal to the lease liability but is adjusted for rent prepayments, initial direct costs, any costs to refurbish the leased asset or lease incentives received. The RoU asset is depreciated over the shorter of the lease term or the useful life of the underlying asset, with the depreciation presented within *Depreciation and impairment of property, equipment and software*.

Lease payments generally include fixed payments and variable payments that depend on an index (such as an inflation index). When the lease contains an extension or termination option that the Group considers reasonably certain to be exercised, the expected rental payments or costs of termination are included within the lease payments used to generate the lease liability. UBS does not typically enter into leases with purchase options or residual value guarantees.

Where UBS acts as lessor or sublessor under a finance lease, a receivable is recognized in *Other financial assets measured at amortized cost* at an amount equal to the present value of the aggregate of the lease payments plus any unguaranteed residual value that UBS expects to recover at the end of the lease term. Initial direct costs are also included in the initial measurement of the lease receivable. Lease payments received during the lease term are allocated as repayments of the outstanding receivable. Interest income reflects a constant periodic rate of return on UBS's net investment using the interest rate implicit in the lease (or, for subleases, the rate for the head lease). UBS reviews the estimated unguaranteed residual value annually, and if the

estimated residual value to be realized is less than the amount assumed at lease inception, a loss is recognized for the expected shortfall. Where UBS acts as a lessor or sublessor in an operating lease, UBS recognizes the operating lease income on a straight-line basis over the lease term.

Lease receivables are subject to impairment requirements as set out in point g. in "Note 1a item 3 Financial instruments." Expected credit losses (ECL) on lease receivables are determined following the general impairment model within IFRS 9, *Financial Instruments*, without utilizing the simplified approach of always measuring impairment at the amount of lifetime ECL.

Other changes to accounting policies**Changes in Corporate Center segment reporting, cost and resource allocation to business divisions**

Effective from 1 January 2019, UBS made changes to Corporate Center segment reporting, as well as cost and resource allocation to business divisions.

→ Refer to "Note 2 Segment reporting" for more information

Presentation of dividend income and expense from financial instruments measured at fair value through profit or loss

Effective from 1 January 2019, UBS refined the presentation of dividend income and expense. This resulted in a reclassification of dividends from *Interest income (expense) from financial instruments measured at fair value through profit or loss* into *Other net income from financial instruments measured at fair value through profit or loss* (prior to 1 January 2019: *Other net income from fair value changes on financial instruments*). The change aligns the presentation of dividends with related fair value changes from the equity instruments and economic hedges removing volatility that has historically arisen within both *Net interest income* and *Other net income from fair value changes on financial instruments*. There is no effect on *Total operating income* or *Net profit / (loss)*. Prior periods have been restated for this presentational change and the effect on the respective reporting lines is outlined in the table below.

Refer to "Note 1d International Financial Reporting Standards and Interpretations to be adopted in 2019 and later and other changes" in the "Consolidated financial statements" section of the Annual Report 2018 for further details on standards adopted by UBS from 1 January 2019, none of which had a material effect on the Group's financial statements.

Changes to the presentation of dividend income and expense from financial instruments measured at fair value through profit or loss

| Other net income from financial instruments measured at fair value through profit or loss | 412 | (210) | 524 | 250 | 976 |

Note 2 Segment reporting

Overview and changes in Corporate Center segment reporting

UBS's businesses are organized globally into four business divisions: Global Wealth Management, Personal & Corporate Banking, Asset Management and the Investment Bank. All four business divisions are supported by Corporate Center and qualify as reportable segments for the purpose of segment reporting. Together with Corporate Center they reflect the management structure of the Group.

→ Refer to "Note 1a Significant accounting policies item 2" and "Note 2 Segment reporting" in the "Consolidated financial statements" section of the Annual Report 2018 for more information on the Group's reporting segments

As a consequence of a substantial reduction in the size and resource consumption of the Non-core and Legacy Portfolio and following the changes to UBS's methodology for allocating funding costs and expenses from Corporate Center – Services and Corporate Center – Group Asset and Liability Management to the business divisions, beginning with the first quarter 2019 report, UBS provides results for total Corporate Center only and does not separately report Corporate Center – Services, Group Asset and Liability Management and Non-core and Legacy Portfolio.

Changes in Corporate Center cost and resource allocation to business divisions

In order to further align Group and divisional performance, UBS has adjusted its methodology for the allocation of Corporate

Center funding costs and expenses to the business divisions. At the same time, it has updated its funds transfer pricing framework to better reflect the sources and usage of funding. Prior-period information for the six months ended 30 June 2018 has been restated, resulting in a decrease in *Operating profit / (loss) before tax* for Global Wealth Management of USD 184 million, for Personal & Corporate Banking of USD 62 million, for Asset Management of USD 13 million and for the Investment Bank of USD 91 million, with a corresponding increase for Corporate Center of USD 350 million.

Additionally, UBS has increased the allocation of balance sheet resources from Corporate Center to the business divisions, predominantly from high-quality liquid assets and certain other assets centrally managed on behalf of the business divisions. Prior-period information for the fourth quarter of 2018 has been restated, resulting in an increase of *Total assets* in Global Wealth Management of USD 114 billion, in Personal & Corporate Banking of USD 62 billion, in Asset Management of USD 4 billion and in the Investment Bank of USD 44 billion, with a corresponding decrease of assets in Corporate Center of USD 223 billion.

These changes had no effect on the reported results or financial position of the Group.

Upon adoption of IFRS 16, *Leases*, as of 1 January 2019, UBS additionally allocated approximately USD 3.5 billion of newly recognized right-of-use assets and finance lease receivables to the business divisions.

¹ Includes foreign exchange gains / (losses) reclassified from other comprehensive income related to disposed foreign subsidiaries and branches. ² Includes rent received from third parties.

Note 6 Personnel expenses

| USD million | For the quarter ended | | | Year-to-date | |
|---|-----------------------|--------------|--------------|--------------|------------------|
| | 30.6.19 | 31.3.19 | 30.6.18 | 30.6.19 | 30.6.18 |
| Salaries and variable compensation | 2,523 | 2,420 | 2,456 | 4,943 | 5,197 |
| Financial advisor compensation ¹ | 1,005 | 960 | 1,007 | 1,965 | 2,040 |
| Contractors | 96 | 96 | 129 | 192 | 251 |
| Social security | 195 | 213 | 197 | 408 | 439 |
| Pension and other post-employment benefit plans | 194 | 224 | 170 | 418 | 135 ² |
| Other personnel expenses | 140 | 128 | 144 | 269 | 294 |
| Total personnel expenses | 4,153 | 4,043 | 4,102 | 8,196 | 8,357 |

¹ Financial advisor compensation consists of grid-based compensation based directly on compensable revenues generated by financial advisors and supplemental compensation calculated on the basis of financial advisor productivity, firm tenure, assets and other variables. It also includes expenses related to compensation commitments with financial advisors entered into at the time of recruitment that are subject to vesting requirements. ² Changes to the Pension Fund of UBS in Switzerland in the first quarter of 2018 resulted in a reduction in the pension obligation recognized by UBS. As a consequence, a pre-tax gain of USD 241 million was recognized in the income statement in the first quarter of 2018, with no overall effect on total equity. Refer to "Note 29 Pension and other post-employment benefit plans" in the "Consolidated financial statements" section of our Annual Report 2018 for more information.

Note 7 General and administrative expenses

| USD million | For the quarter ended | | | Year-to-date | |
|---|-----------------------|--------------|--------------|--------------|--------------|
| | 30.6.19 | 31.3.19 | 30.6.18 | 30.6.19 | 30.6.18 |

| Marketing and public relations | 72 | 65 | 85 | 138 | 170 |
| Travel and entertainment | 100 | 90 | 113 | 190 | 211 |
| Professional fees | 193 | 176 | 240 | 370 | 485 |
| Outsourcing of IT and other services | 259 | 271 | 351 | 530 | 711 |
| Litigation, regulatory and similar matters ¹ | 4 | (8) | 132 | (4) | 121 |
| Other | 28 | 32 | 11 | 60 | 46 |
| Total general and administrative expenses | 1,175 | 1,187 | 1,533 | 2,362 | 3,042 |

¹ Reflects the net increase in / (release of) provisions for litigation, regulatory and similar matters recognized in the income statement. Refer to Note 16 for more information. Also includes recoveries from third parties (second quarter of 2019: USD 1 million; first quarter of 2019: USD 7 million; second quarter of 2018: USD 10 million).

Note 8 Income taxes

We recognized income tax expenses of USD 366 million for the second quarter of 2019, compared with USD 322 million for the second quarter of 2018.

Current tax expenses were USD 209 million, compared with USD 198 million, and related to taxable profits of UBS Switzerland AG and other entities.

Deferred tax expenses were USD 157 million, compared with USD 124 million. Deferred tax expenses in the second quarter of 2019 include expenses of USD 222 million, which reflect the amortization of deferred tax assets (DTAs) previously recognized in relation to tax losses carried forward and deductible temporary differences to reflect their offset against profits for the quarter, including the amortization of US tax loss DTAs at the

level of UBS Americas Inc. Deferred tax expenses were decreased by a benefit of USD 130 million in respect of additional DTA recognition that resulted from the contribution of real estate assets by UBS AG to UBS Americas Inc. during the second quarter of 2019. The additional DTA recognition related to the elections that were made in the fourth quarter of 2018 to capitalize certain historic real estate costs. This amount represents one half of the expected full year benefit and, therefore, further amounts of USD 65 million will be recognized in each of the third and fourth quarters in accordance with the requirements of IAS 34, *Interim Financial Reporting*.

| Shares issued | 3,859,055,395 | 3,858,959,179 | 3,854,589,552 | | |
| Treasury shares | 199,121,101 | 145,878,663 | 125,469,362 | | |
| Shares outstanding | 3,659,934,294 | 3,713,080,516 | 3,729,120,190 | | |
| ¹ The weighted average shares outstanding for basic EPS are calculated by taking the number of shares at the beginning of the period, adjusted by the number of shares acquired or issued during the period, multiplied by a time-weighted factor for the period outstanding. As a result, balances are affected by the timing of acquisitions and issuances during the period. | | | | | |
| <p>The table below outlines the potential shares that could dilute basic earnings per share in the future, but were not dilutive for the periods presented.</p> | | | | | |
| <i>Number of shares</i> | 30.6.19 | 31.3.19 | 30.6.18 | 30.6.19 | 30.6.18 |

| Other equity derivative contracts | 24,952,461 | 22,528,782 | 11,499,172 | 24,927,741 | 10,774,521 |
| Total | 27,263,830 | 26,044,977 | 18,091,743 | 27,239,110 | 17,367,092 |

Note 10 Expected credit loss measurement

a) Expected credit losses in the period

Total net credit loss expenses were USD 12 million in the second quarter of 2019, reflecting recoveries of USD 23 million in expected credit losses (ECL) from stage 1 and 2 positions and losses of USD 35 million from credit-impaired (stage 3) positions.

The recoveries of USD 23 million in stage 1 and 2 ECL during the quarter were primarily the result of updates to macroeconomic and market data in Personal & Corporate Banking, Global Wealth Management and the Investment Bank.

Stage 3 net losses of USD 35 million were recognized, primarily across a number of defaulted positions in Personal & Corporate Banking (USD 13 million) and Global Wealth Management (USD 12 million).

No changes, with material effect on ECL, were made to the models used to calculate ECL and to determine stage allocation during the second quarter of 2019.

UBS uses four different economic scenarios in the ECL calculation: an upside, a baseline, a mild downside and a severe downside scenario. The scenario weights were reviewed and remain unchanged from those applied as of 31 March 2019. During the quarter, the baseline scenario shocks were updated, alongside current macroeconomic and market data across all scenarios.

→ Refer to “**Note 1a Significant accounting policies item g**” and “**Note 23 Expected credit loss measurement**” in the “**Consolidated financial statements**” section of the **Annual Report 2018** for more information

b) ECL-relevant balance sheet and off-balance sheet positions including ECL allowances and provisions

The tables on the following pages provide information on financial instruments and certain non-financial instruments that are subject to ECL. For amortized cost instruments, the carrying amount represents the maximum exposure to credit risk, taking into account the allowance for credit losses. Financial assets measured at fair value through other comprehensive income (FVOCI) are also subject to ECL; however, unlike amortized cost instruments, the allowance for credit losses for FVOCI

instruments does not reduce the carrying value of these financial assets. Rather, the carrying value of financial assets measured at FVOCI represents the maximum exposure to credit risk.

In addition to on-balance sheet financial assets, certain off-balance sheet and other credit lines are also subject to ECL. The maximum exposure to credit risk for off-balance sheet financial instruments is calculated based on notional amounts.

Note 11 Fair value measurement

This Note provides fair value measurement information for both financial and non-financial instruments and should be read in conjunction with "Note 24 Fair value measurement" in the "Consolidated financial statements" section of the Annual Report 2018, which provides more information on valuation principles, valuation governance, fair value hierarchy classification, valuation adjustments, valuation techniques and inputs, sensitivity of fair value measurements, and methods applied to calculate fair values for financial instruments not measured at fair value.

All financial and non-financial assets and liabilities measured or disclosed at fair value are categorized into one of three fair

value hierarchy levels. In certain cases, the inputs used to measure fair value may fall within different levels of the fair value hierarchy. For disclosure purposes, the level in the hierarchy within which the instrument is classified in its entirety is based on the lowest level input that is significant to the position's fair value measurement:

- Level 1: quoted prices (unadjusted) in active markets for identical assets and liabilities;
- Level 2: valuation techniques for which all significant inputs are, or are based on, observable market data; or
- Level 3: valuation techniques for which significant inputs are not based on observable market data.

Note 11 Fair value measurement (continued)**a) Fair value hierarchy**

The fair value hierarchy classification of financial and non-financial assets and liabilities measured at fair value is summarized in the table below.

Determination of fair values from quoted market prices or valuation techniques¹

¹ Bifurcated embedded derivatives are presented on the same balance sheet lines as their host contracts and are not included in this table. The fair value of these derivatives was not material for the periods presented. ² Fair value hierarchy information for Financial assets for unit-linked investment contracts in the comparative periods have been restated, resulting in an increase in Level 1 assets of USD 4,908 million as of 31 March 2019 and of USD 4,746 million as of 31 December 2018, with a corresponding decrease in Level 2 assets. ³ Other non-financial assets primarily consist of properties and other non-current assets held for sale, which are measured at the lower of their net carrying amount or fair value less costs to sell.

Note 11 Fair value measurement (continued)**b) Valuation adjustments****Deferred day-1 profit or loss reserves**

The table below summarizes the changes in deferred day-1 profit or loss reserves during the relevant period.

Deferred day-1 profit or loss is generally released into *Other net income from financial instruments measured at fair value through profit or loss* when pricing of equivalent products or the underlying parameters become observable or when the transaction is closed out.

Deferred day-1 profit or loss reserves

| USD million | For the quarter ended | | | Year-to-date | |
|---|-----------------------|---------|---------|--------------|---------|
| | 30.6.19 | 31.3.19 | 30.6.18 | 30.6.19 | 30.6.18 |
| Reserve balance at the beginning of the period | 161 | 255 | 479 | 255 | 338 |
| Profit / (loss) deferred on new transactions | 58 | 33 | 53 | 90 | 250 |
| (Profit) / loss recognized in the income statement | (60) | (126) | (252) | (187) | (308) |
| Foreign currency translation | 0 | (1) | (4) | (1) | (3) |
| Reserve balance at the end of the period | 158 | 161 | 276 | 158 | 276 |

c) Transfers between Level 1 and Level 2

The amounts disclosed in this section reflect transfers between Level 1 and Level 2 for instruments that were held for the entire reporting period.

Assets totaling approximately USD 1.4 billion, which mainly consisted of investment fund units presented in the line *Financial assets at fair value held for trading* on the balance sheet, were transferred from Level 2 to Level 1 during the first six months of

2019, generally due to increased levels of trading activity observed within the market for these instruments. Liabilities transferred from Level 2 to Level 1 during the first six months of 2019 were not material. Assets and liabilities transferred from Level 1 to Level 2 during the first six months of 2019 were also not material.

Note 11 Fair value measurement (continued)

d) Level 3 instruments: valuation techniques and inputs

The table below presents material Level 3 assets and liabilities together with the valuation techniques used to measure fair value, the significant inputs used in the valuation technique that are considered unobservable and a range of values for those unobservable inputs.

The range of values represents the highest- and lowest-level input used in the valuation techniques. Therefore, the range does not reflect the level of uncertainty regarding a particular input, but rather the different underlying characteristics of the relevant assets and liabilities. The ranges will therefore vary from period to period and parameter to parameter based on characteristics of the instruments held at each balance sheet date. Furthermore, the ranges and weighted averages of unobservable inputs may differ

across other financial institutions due to the diversity of the products in each firm's inventory.

The significant unobservable inputs disclosed in the table below are consistent with those included in "Note 24 Fair value measurement" in the "Consolidated financial statements" section of the Annual Report 2018. A description of the potential effect that a change in each unobservable input in isolation may have on a fair value measurement, including information to facilitate an understanding of factors that give rise to the input ranges shown, is also provided in "Note 24 Fair value measurement" in the "Consolidated financial statements" section of the Annual Report 2018.

Valuation techniques and inputs used in the fair value measurement of Level 3 assets and liabilities

| | Fair value | | | | Valuation technique(s) | Significant unobservable input(s) ¹ | Range of inputs | | | | | | |
|--|------------|----------|-------------|----------|--|---|-----------------|-------------------------------|-----|----------|-------------------------------|-------------------|--------------|

| | | | | | Discounted expected cash flows | Credit spread | 301 | 700 | | 301 | 513 | | basis points |
| | | | | | Market comparable and securitization model | Discount margin | 1 | 14 | 2 | 1 | 14 | 2 | % |
| Auction rate securities | 1.6 | 1.7 | | | Relative value to market comparable | Bond price equivalent | 79 | 99 | 89 | 79 | 99 | 89 | points |
| Investment fund units ³ | 0.3 | 0.6 | 0.0 | 0.0 | Relative value to market comparable | Net asset value | | | | | | | |
| Equity instruments ³ | 0.6 | 0.6 | 0.1 | 0.0 | Relative value to market comparable | Price | | | | | | | |
| Debt issued designated at fair value ⁴ | | | 11.4 | 11.0 | | | | | | | | | |
| Other financial liabilities designated at fair value ⁴ | | | 0.7 | 1.0 | | | | | | | | | |
| Derivative financial instruments | | | | | | | | | | | | | |
| Interest rate contracts | 0.6 | 0.4 | 0.2 | 0.2 | Option model | Volatility of interest rates | 18 | 67 | | 50 | 81 | | basis points |
| | | | | | Discounted expected cash flows | Credit spreads | 3 | 571 | | 4 | 545 | | basis points |
| | | | | | | Bond price equivalent | 3 | 100 | | 3 | 99 | | points |
| Equity / index contracts | 0.4 | 0.5 | 1.0 | 1.4 | Option model | Equity dividend yields | 0 | 11 | | 0 | 12 | | % |
| | | | | | | Volatility of equity stocks, equity and other indices | 4 | 85 | | 4 | 93 | | % |
| | | | | | | Equity-to-FX correlation | (45) | 64 | | (39) | 67 | | % |
| | | | | | | Equity-to-equity correlation | (17) | 97 | | (50) | 97 | | % |

¹ The ranges of significant unobservable inputs are represented in points, percentages and basis points. Points are a percentage of par (e.g., 100 points would be 100% of par). ² Weighted averages are provided for non-derivative financial instruments and were calculated by weighting inputs based on the fair values of the respective instruments. Weighted averages are not provided for inputs related to derivative contracts as this would not be meaningful. ³ The range of inputs is not disclosed as there is a dispersion of values given the diverse nature of the investments. ⁴ Valuation techniques, significant unobservable inputs and the respective input ranges for Debt issued designated at fair value and Other financial liabilities designated at fair value, which mainly include over-the-counter debt instruments, are the same as the equivalent derivative or structured financing instruments presented elsewhere in this table.

Note 11 Fair value measurement (continued)**e) Level 3 instruments: sensitivity to changes in unobservable input assumptions**

The table below summarizes those financial assets and liabilities classified as Level 3 for which a change in one or more of the unobservable inputs to reflect reasonably possible alternative assumptions would change fair value significantly, and the estimated effect thereof.

The table shown presents the favorable and unfavorable effects for each class of financial assets and liabilities for which the potential change in fair value is considered significant. The sensitivity of fair value measurements for debt issued designated at fair value and over-the-counter debt instruments designated at fair value is reported with the equivalent derivative or structured financing instrument within the table below.

The sensitivity data shown below presents an estimation of valuation uncertainty based on reasonably possible alternative values for Level 3 inputs at the balance sheet date and does not represent the estimated effect of stress scenarios. Typically, these financial assets and liabilities are sensitive to a combination of inputs from Levels 1–3. Although well-defined interdependencies may exist between Levels 1–2 and Level 3 parameters (e.g., between interest rates, which are generally Level 1 or Level 2, and prepayments, which are generally Level 3), these have not been incorporated in the table. Furthermore, direct interrelationships between the Level 3 parameters are not a significant element of the valuation uncertainty.

Sensitivity of fair value measurements to changes in unobservable input assumptions

Note 11 Fair value measurement (continued)

f) Level 3 instruments: movements during the period

Significant changes in Level 3 instruments

The table on the following pages presents additional information about Level 3 assets and liabilities measured at fair value on a recurring basis. Level 3 assets and liabilities may be hedged with instruments classified as Level 1 or Level 2 in the fair value hierarchy and, as a result, realized and unrealized gains and losses included in the table may not include the effect of related hedging activity. Furthermore, the realized and unrealized gains and losses presented within the table are not limited solely to those arising from Level 3 inputs, as valuations are generally derived from both observable and unobservable parameters.

Upon adoption of IFRS 9 on 1 January 2018, certain financial assets and liabilities were newly classified as measured at fair value through profit or loss and designated as Level 3 in the fair value hierarchy. Certain assets were also reclassified from *Financial assets measured at fair value through other comprehensive income* to *Financial assets at fair value not held for trading*. Refer to "Note 24 Fair value measurement" in the "Consolidated financial statements" section of the Annual Report 2018 for more information.

Note 11 Fair value measurement (continued)

Assets and liabilities transferred into or out of Level 3 are presented as if those assets or liabilities had been transferred at the beginning of the year.

Assets transferred into and out of Level 3 in the first six months of 2019 totaled USD 0.8 billion and USD 1.2 billion, respectively. Transfers into Level 3 mainly consisted of loans, investment fund units and equity / index contracts, reflecting decreased observability of the relevant valuation inputs.

Transfers out of Level 3 mainly consisted of loans due to increased observability of the relevant valuation inputs.

Liabilities transferred into and out of Level 3 in the first six months of 2019 totaled USD 0.7 billion and USD 2.3 billion, respectively. Transfers into and out of Level 3 mainly consisted of debt issued designated at fair value, primarily equity-linked issued debt instruments, due to decreased or increased observability, respectively, of the embedded derivative inputs.

g) Financial instruments not measured at fair value

The table below reflects the estimated fair values of financial instruments not measured at fair value.

Financial instruments not measured at fair value

| <i>USD billion</i> | 30.6.19 | | 31.3.19 | | 31.12.18 | |
|--|----------------|------------|----------------|------------|----------------|------------|
| | Carrying value | Fair value | Carrying value | Fair value | Carrying value | Fair value |
| Assets | | | | | | |
| Cash and balances at central banks | 101.5 | 101.5 | 110.6 | 110.6 | 108.4 | 108.4 |
| Loans and advances to banks | 12.9 | 12.9 | 17.0 | 17.0 | 16.9 | 16.9 |
| Receivables from securities financing transactions | 92.9 | 92.9 | 100.2 | 100.2 | 95.3 | 95.4 |
| Cash collateral receivables on derivative instruments | 23.8 | 23.8 | 25.2 | 25.2 | 23.6 | 23.6 |
| Loans and advances to customers | 322.7 | 325.9 | 318.6 | 320.7 | 320.4 | 320.9 |
| Other financial assets measured at amortized cost | 22.2 | 22.4 | 22.4 | 22.4 | 22.6 | 22.4 |
| Liabilities | | | | | | |
| Amounts due to banks | 9.5 | 9.5 | 9.1 | 9.1 | 11.0 | 11.0 |
| Payables from securities financing transactions | 6.8 | 6.8 | 5.2 | 5.2 | 10.3 | 10.3 |
| Cash collateral payables on derivative instruments | 31.4 | 31.4 | 30.3 | 30.3 | 28.9 | 28.9 |
| Customer deposits | 433.0 | 433.2 | 425.9 | 426.0 | 419.8 | 419.9 |
| Debt issued measured at amortized cost | 120.8 | 123.3 | 128.1 | 130.4 | 132.3 | 135.0 |
| Other financial liabilities measured at amortized cost | 10.5 | 10.5 | 10.4 | 10.4 | 6.9 | 6.9 |

The fair values included in the table above have been calculated for disclosure purposes only. The fair value valuation techniques and assumptions relate only to the fair value of UBS's financial instruments not measured at fair value. Other institutions may

use different methods and assumptions for their fair value estimation, and therefore such fair value disclosures cannot necessarily be compared from one financial institution to another.

| Total derivative financial instruments, after consideration of further netting potential | 11.4 | | 14.0 | | |

1 Derivative financial liabilities as of 30 June 2019 include USD 14 million related to derivative loan commitments (31 March 2019: USD 18 million; 31 December 2018: USD 17 million). No notional amounts related to these commitments are included in this table, but they are disclosed in Note 17 under Loan commitments. 2 Includes certain forward starting repurchase and reverse repurchase agreements that are classified as measured at fair value through profit or loss and are recognized within derivative instruments. The fair value of these derivative instruments was not material as of 30 June 2019, 31 March 2019 or 31 December 2018. No notional amounts related to these instruments are included in this table, but they are disclosed within Note 17 under Forward starting transactions. 3 In cases where derivative financial instruments are presented on a net basis on the balance sheet, the respective notional values of the netted derivative financial instruments are still presented on a gross basis. 4 Other notional values relate to derivatives that are cleared through either a central counterparty or an exchange. The fair value of these derivatives is presented on the balance sheet net of the corresponding cash margin under Cash collateral receivables on derivative instruments and Cash collateral payables on derivative instruments and was not material for all periods presented. 5 Changes in the fair value of purchased and sold non-derivative financial instruments between trade date and settlement date are recognized as derivative financial instruments. 6 Financial assets and liabilities are presented net on the balance sheet if UBS has the unconditional and legally enforceable right to offset the recognized amounts, both in the normal course of business and in the event of default, bankruptcy or insolvency of the entity and all of the counterparties, and intends either to settle on a net basis or to realize the asset and settle the liability simultaneously. 7 Reflects the netting potential in accordance with enforceable master netting and similar arrangements where not all criteria for a net presentation on the balance sheet have been met. Refer to "Note 25 Offsetting financial assets and financial liabilities" in the "Consolidated financial statements" section of the Annual Report 2018 for more information.

Note 12 Derivative instruments (continued)**b) Cash collateral on derivative instruments**

| <i>USD billion</i> | Receivables 30.6.19 | Payables 30.6.19 | Receivables 31.3.19 | Payables 31.3.19 | Receivables 31.12.18 | Payables 31.12.18 |
|--|--------------------------------|-----------------------------|------------------------|---------------------|-------------------------|----------------------|
| Cash collateral on derivative instruments, based on IFRS netting ¹ | 23.8 | 31.4 | 25.2 | 30.3 | 23.6 | 28.9 |
| Further netting potential not recognized on the balance sheet ² | (14.2) | (17.9) | (14.1) | (15.0) | (14.5) | (15.4) |
| <i>of which: netting of recognized financial liabilities / assets</i> | (13.4) | (16.2) | (12.2) | (13.7) | (13.5) | (14.2) |
| <i>of which: netting with collateral received / pledged</i> | (0.7) | (1.7) | (1.9) | (1.4) | (1.0) | (1.2) |
| Cash collateral on derivative instruments, after consideration of further netting potential | 9.6 | 13.5 | 11.1 | 15.3 | 9.1 | 13.5 |

¹ Financial assets and liabilities are presented net on the balance sheet if UBS has the unconditional and legally enforceable right to offset the recognized amounts, both in the normal course of business and in the event of default, bankruptcy or insolvency of UBS or its counterparties, and intends either to settle on a net basis or to realize the asset and settle the liability simultaneously. ² Reflects the netting potential in accordance with enforceable master netting and similar arrangements where not all criteria for a net presentation on the balance sheet have been met. Refer to "Note 25 Offsetting financial assets and financial liabilities" in the "Consolidated financial statements" section of the Annual Report 2018 for more information.

Note 13 Other assets and liabilities**a) Other financial assets measured at amortized cost**

| Senior unsecured debt that contributes to total loss-absorbing capacity (TLAC) | 29,721 | 30,548 | 29,988 |
| Senior unsecured debt other than TLAC | 33,081 | 32,850 | 33,018 |
| <i>of which: issued by UBS AG with original maturity greater than one year²</i> | 30,705 | 31,962 | 32,133 |
| Covered bonds | 3,853 | 3,815 | 3,947 |
| Subordinated debt | 20,680 | 20,299 | 17,665 |
| <i>of which: high-trigger loss-absorbing additional tier 1 capital instruments</i> | 10,595 | 10,396 | 7,785 |
| <i>of which: low-trigger loss-absorbing additional tier 1 capital instruments</i> | 2,436 | 2,381 | 2,369 |
| <i>of which: low-trigger loss-absorbing tier 2 capital instruments</i> | 6,947 | 6,821 | 6,808 |
| <i>of which: non-Basel III-compliant tier 2 capital instruments</i> | 702 | 700 | 703 |
| Debt issued through the Swiss central mortgage institutions | 8,724 | 8,505 | 8,569 |
| Other long-term debt | 54 | 55 | 58 |
| <i>of which: issued by UBS AG with original maturity greater than one year²</i> | 49 | 49 | 52 |
| Long-term debt³ | 96,113 | 96,072 | 93,246 |
| Total debt issued measured at amortized cost⁴ | 120,805 | 128,105 | 132,271 |

¹ Debt with an original maturity of less than one year. ² Issued by the legal entity UBS AG. Based on original contractual maturity without considering any early redemption features. As of 30 June 2019, 100% of the balance was unsecured (31 March 2019: 100% of the balance was unsecured; 31 December 2018: 100% of the balance was unsecured). ³ Debt with an original maturity greater than or equal to one year. The classification of debt issued into short-term and long-term does not consider any early redemption features. ⁴ Net of bifurcated embedded derivatives, the fair value of which was not material for the periods presented.

Note 16 Provisions and contingent liabilities

a) Provisions

The table below presents an overview of total provisions recognized under both IAS 37 and IFRS 9.

| <i>USD million</i> | 30.6.19 | 31.3.19 | 31.12.18 |
|--|--------------|--------------|--------------|
| Provisions recognized under IAS 37 | 2,888 | 3,063 | 3,377 |
| Provisions for off-balance sheet financial instruments | 80 | 91 | 79 |
| Provisions for other credit lines | 42 | 43 | 37 |
| Total provisions | 3,011 | 3,197 | 3,494 |

The following table presents additional information for provisions recognized under IAS 37.

| <i>USD million</i> | Operational risks ² | Litigation, regulatory and similar matters ³ | Restructuring | Real estate | Employee benefits ⁶ | Other | Total |
|---|--------------------------------|---|-----------------------|-----------------------|--------------------------------|-----------|--------------|
| Balance as of 31 December 2018 | 46 | 2,827 | 224 | 131 | 70 | 78 | 3,377 |
| Adjustment from adoption of IFRS 16 ¹ | 0 | 0 | (103) | (29) | 0 | 0 | (132) |
| Balance as of 1 January 2019 | 46 | 2,827 | 121 | 102 | 70 | 78 | 3,245 |
| Balance as of 31 March 2019 | 45 | 2,677 | 101 | 98 | 69 | 73 | 3,063 |
| Increase in provisions recognized in the income statement | 2 | 40 | 9 | 0 | 1 | 2 | 54 |
| Release of provisions recognized in the income statement | 0 | (35) | (3) | 0 | (1) | 0 | (40) |
| Provisions used in conformity with designated purpose | (3) | (184) | (16) | 0 | 0 | (1) | (205) |
| Foreign currency translation / unwind of discount | 1 | 11 | 0 | 1 | 1 | 1 | 15 |
| Balance as of 30 June 2019 | 45 | 2,509 | 91⁴ | 99⁵ | 70 | 75 | 2,888 |

¹ Refer to Note 1 for more information. ² Comprises provisions for losses resulting from security risks and transaction processing risks. ³ Comprises provisions for losses resulting from legal, liability and compliance risks. ⁴ Primarily consists of personnel-related restructuring provisions of USD 23 million as of 30 June 2019 (31 March 2019: USD 31 million; 31 December 2018: USD 50 million) and provisions for onerous contracts of USD 63 million as of 30 June 2019 (31 March 2019: USD 64 million; 31 December 2018: USD 170 million). ⁵ Consists of reinstatement costs for leasehold improvements of USD 89 million as of 30 June 2019 (31 March 2019: USD 88 million; 31 December 2018: USD 89 million) and provisions for onerous contracts of USD 10 million as of 30 June 2019 (31 March 2019: USD 10 million; 31 December 2018: USD 42 million). ⁶ Includes provisions for sabbatical and anniversary awards.

Restructuring provisions primarily relate to onerous contracts and severance payments. Onerous contracts for property are recognized when UBS is committed to pay for non-lease components, such as utilities, when a property is vacated or not fully recovered from subtenants. Severance-related provisions are used within a short time period, usually within six months, but potential changes in amount may be triggered when natural

staff attrition reduces the number of people affected by a restructuring event and therefore the estimated costs.

Information on provisions and contingent liabilities in respect of litigation, regulatory and similar matters, as a class, is included in Note 16b. There are no material contingent liabilities associated with the other classes of provisions.

b) Litigation, regulatory and similar matters

The Group operates in a legal and regulatory environment that exposes it to significant litigation and similar risks arising from disputes and regulatory proceedings. As a result, UBS (which for purposes of this Note may refer to UBS Group AG and / or one or more of its subsidiaries, as applicable) is involved in various disputes and legal proceedings, including litigation, arbitration, and regulatory and criminal investigations.

Such matters are subject to many uncertainties, and the outcome and the timing of resolution are often difficult to predict, particularly in the earlier stages of a case. There are also situations where the Group may enter into a settlement agreement. This may occur in order to avoid the expense, management distraction or reputational implications of continuing to contest liability, even for those matters for which the Group believes it should be exonerated. The uncertainties inherent in all such matters affect the amount and timing of any potential outflows for both matters with respect to which provisions have been established and other contingent liabilities. The Group makes provisions for such matters brought against it when, in the opinion of management after seeking legal advice, it is more likely than not that the Group has a present legal or

constructive obligation as a result of past events, it is probable that an outflow of resources will be required, and the amount can be reliably estimated. Where these factors are otherwise satisfied, a provision may be established for claims that have not yet been asserted against the Group, but are nevertheless expected to be, based on the Group's experience with similar asserted claims. If any of those conditions is not met, such matters result in contingent liabilities. If the amount of an obligation cannot be reliably estimated, a liability exists that is not recognized even if an outflow of resources is probable. Accordingly, no provision is established even if the potential outflow of resources with respect to such matters could be significant. Developments relating to a matter that occur after the relevant reporting period, but prior to the issuance of financial statements, which affect management's assessment of the provision for such matter (because, for example, the developments provide evidence of conditions that existed at the end of the reporting period), are adjusting events after the reporting period under IAS 10 and must be recognized in the financial statements for the reporting period.

Note 16 Provisions and contingent liabilities (continued)

Specific litigation, regulatory and other matters are described below, including all such matters that management considers to be material and others that management believes to be of significance due to potential financial, reputational and other effects. The amount of damages claimed, the size of a transaction or other information is provided where available and appropriate in order to assist users in considering the magnitude of potential exposures.

In the case of certain matters below, we state that we have established a provision, and for the other matters, we make no such statement. When we make this statement and we expect disclosure of the amount of a provision to prejudice seriously our position with other parties in the matter because it would reveal what UBS believes to be the probable and reliably estimable outflow, we do not disclose that amount. In some cases we are subject to confidentiality obligations that preclude such disclosure. With respect to the matters for which we do not state whether we have established a provision, either (a) we have not established a provision, in which case the matter is treated as a contingent liability under the applicable accounting standard; or (b) we have established a provision but expect disclosure of that fact to prejudice seriously our position with other parties in the matter because it would reveal the fact that UBS believes an outflow of resources to be probable and reliably estimable.

With respect to certain litigation, regulatory and similar matters for which we have established provisions, we are able to estimate the expected timing of outflows. However, the aggregate amount of the expected outflows for those matters for which we are able to estimate expected timing is immaterial relative to our current and expected levels of liquidity over the relevant time periods.

The aggregate amount provisioned for litigation, regulatory and similar matters as a class is disclosed in the "Provisions" table in Note 16a above. It is not practicable to provide an aggregate estimate of liability for our litigation, regulatory and similar matters as a class of contingent liabilities. Doing so would require us to provide speculative legal assessments as to claims

and proceedings that involve unique fact patterns or novel legal theories, that have not yet been initiated or are at early stages of adjudication, or as to which alleged damages have not been quantified by the claimants. Although we therefore cannot provide a numerical estimate of the future losses that could arise from litigation, regulatory and similar matters, we believe that the aggregate amount of possible future losses from this class that are more than remote substantially exceeds the level of current provisions.

Litigation, regulatory and similar matters may also result in non-monetary penalties and consequences. For example, the non-prosecution agreement described in item 5 of this Note, which we entered into with the US Department of Justice (DOJ), Criminal Division, Fraud Section in connection with our submissions of benchmark interest rates, including, among others, the British Bankers' Association London Interbank Offered Rate (LIBOR), was terminated by the DOJ based on its determination that we had committed a US crime in relation to foreign exchange matters. As a consequence, UBS AG pleaded guilty to one count of wire fraud for conduct in the LIBOR matter, paid a fine and is subject to probation through January 2020.

A guilty plea to, or conviction of, a crime could have material consequences for UBS. Resolution of regulatory proceedings may require us to obtain waivers of regulatory disqualifications to maintain certain operations, may entitle regulatory authorities to limit, suspend or terminate licenses and regulatory authorizations, and may permit financial market utilities to limit, suspend or terminate our participation in such utilities. Failure to obtain such waivers, or any limitation, suspension or termination of licenses, authorizations or participations, could have material consequences for UBS.

The risk of loss associated with litigation, regulatory and similar matters is a component of operational risk for purposes of determining our capital requirements. Information concerning our capital requirements and the calculation of operational risk for this purpose is included in the "Capital management" section of this report.

Provisions for litigation, regulatory and similar matters by business division and in Corporate Center¹

| <i>USD million</i> | Global Wealth Management | Personal & Corporate Banking | Asset Management | Investment Bank | Corporate Center | UBS |
|---|--------------------------|------------------------------|------------------|-----------------|------------------|--------------|
| Balance as of 31 December 2018 | 1,003 | 117 | 0 | 269 | 1,438 | 2,827 |
| Balance as of 31 March 2019 | 943 | 114 | 0 | 201 | 1,419 | 2,677 |
| Increase in provisions recognized in the income statement | 39 | 0 | 0 | 0 | 0 | 40 |
| Release of provisions recognized in the income statement | (19) | 0 | 0 | (1) | (15) | (35) |
| Provisions used in conformity with designated purpose | (113) | (1) | 0 | 0 | (70) | (184) |
| Foreign currency translation / unwind of discount | 7 | 2 | 0 | 2 | 0 | 11 |
| Balance as of 30 June 2019 | 858 | 114 | 0 | 202 | 1,334 | 2,509 |

¹ Provisions, if any, for the matters described in this disclosure are recorded in Global Wealth Management (item 3 and item 4) and Corporate Center (item 2). Provisions, if any, for the matters described in items 1 and 6 of this disclosure are allocated between Global Wealth Management and Personal & Corporate Banking, and provisions, if any, for the matters described in this disclosure in item 5 are allocated between the Investment Bank and Corporate Center.

Note 16 Provisions and contingent liabilities (continued)

1. Inquiries regarding cross-border wealth management businesses

Tax and regulatory authorities in a number of countries have made inquiries, served requests for information or examined employees located in their respective jurisdictions relating to the cross-border wealth management services provided by UBS and other financial institutions. It is possible that the implementation of automatic tax information exchange and other measures relating to cross-border provision of financial services could give rise to further inquiries in the future. UBS has received disclosure orders from the Swiss Federal Tax Administration (FTA) to transfer information based on requests for international administrative assistance in tax matters. The requests concern a number of UBS account numbers pertaining to current and former clients and are based on data from 2006 and 2008. UBS has taken steps to inform affected clients about the administrative assistance proceedings and their procedural rights, including the right to appeal. The requests are based on data received from the German authorities, who seized certain data related to UBS clients booked in Switzerland during their investigations and have apparently shared this data with other European countries. UBS expects additional countries to file similar requests.

The Swiss Federal Administrative Court ruled in 2016 that, in the administrative assistance proceedings related to a French bulk request, UBS has the right to appeal all final FTA client data disclosure orders. On 30 July 2018, the Swiss Federal Administrative Court granted UBS's appeal by holding the French administrative assistance request inadmissible. The FTA filed a final appeal with the Swiss Federal Supreme Court. The Supreme Court has scheduled a hearing for 26 July 2019, at which UBS expects that it will announce a decision.

Since 2013, UBS (France) S.A., UBS AG and certain former employees have been under investigation in France for alleged complicity in having illicitly solicited clients on French territory, regarding the laundering of proceeds of tax fraud, and banking and financial solicitation by unauthorized persons. In connection with this investigation, the investigating judges ordered UBS AG to provide bail ("caution") of EUR 1.1 billion and UBS (France) S.A. to post bail of EUR 40 million, which was reduced on appeal to EUR 10 million.

A trial in the court of first instance took place from 8 October 2018 until 15 November 2018. On 20 February 2019, the court announced a verdict finding UBS AG guilty of illicitly soliciting clients on French territory and aggravated laundering of the proceeds of tax fraud, and UBS France S.A. guilty of aiding and abetting unlawful solicitation and laundering the proceeds of tax fraud. The court imposed fines aggregating EUR 3.7 billion on UBS AG and UBS France S.A. and awarded EUR 800 million of civil damages to the French state. UBS has appealed the decision. Under French law, the judgment is suspended while the appeal is pending. The Court of Appeal will

retry the case de novo as to both the law and the facts, and the fines and penalties can be greater than or less than those imposed by the court of first instance. A subsequent appeal to the Cour de Cassation, France's highest court, is possible with respect to questions of law.

UBS believes that based on both the law and the facts the judgment of the court of first instance should be reversed. UBS believes it followed its obligations under Swiss and French law as well as the European Savings Tax Directive. Even assuming liability, which it contests, UBS believes the penalties and damage amounts awarded greatly exceed the amounts that could be supported by the law and the facts. In particular, UBS believes the court incorrectly based the penalty on the total regularized assets rather than on any unpaid taxes on those assets for which a fraud has been characterized and further incorrectly awarded damages based on costs that were not proven by the civil party. Notwithstanding that UBS believes it should be acquitted, our balance sheet at 30 June 2019 reflected provisions with respect to this matter in an amount of USD 516 million. The wide range of possible outcomes in this case contributes to a high degree of estimation uncertainty. The provision reflected on our balance sheet at 30 June 2019 reflects our best estimate of possible financial implications, although it is reasonably possible that actual penalties and civil damages could exceed the provision amount.

In 2016, UBS was notified by the Belgian investigating judge that it is under formal investigation ("inculpé") regarding the laundering of proceeds of tax fraud, of banking and financial solicitation by unauthorized persons, and of serious tax fraud. In 2018, tax authorities and a prosecutor's office in Italy asserted that UBS is potentially liable for taxes and penalties as a result of its activities in Italy from 2012 to 2017. In June 2019, UBS entered into a settlement agreement with the Italian tax authorities under which it paid EUR 101 million to resolve the claims asserted by the authority related to UBS AG's potential permanent establishment in Italy.

UBS has, and reportedly numerous other financial institutions have, received inquiries from authorities concerning accounts relating to the Fédération Internationale de Football Association (FIFA) and other constituent soccer associations and related persons and entities. UBS is cooperating with authorities in these inquiries.

Our balance sheet at 30 June 2019 reflected provisions with respect to matters described in this item 1 in an amount that UBS believes to be appropriate under the applicable accounting standard. As in the case of other matters for which we have established provisions, the future outflow of resources in respect of such matters cannot be determined with certainty based on currently available information and accordingly may ultimately prove to be substantially greater (or may be less) than the provision that we have recognized.

Note 16 Provisions and contingent liabilities (continued)

2. Claims related to sales of residential mortgage-backed securities and mortgages

From 2002 through 2007, prior to the crisis in the US residential loan market, UBS was a substantial issuer and underwriter of US residential mortgage-backed securities (RMBS) and was a purchaser and seller of US residential mortgages. A subsidiary of UBS, UBS Real Estate Securities Inc. (UBS RESI), acquired pools of residential mortgage loans from originators and (through an affiliate) deposited them into securitization trusts. In this manner, from 2004 through 2007, UBS RESI sponsored approximately USD 80 billion in RMBS, based on the original principal balances of the securities issued.

UBS RESI also sold pools of loans acquired from originators to third-party purchasers. These whole loan sales during the period 2004 through 2007 totaled approximately USD 19 billion in original principal balance.

UBS was not a significant originator of US residential loans. A branch of UBS originated approximately USD 1.5 billion in US residential mortgage loans during the period in which it was active from 2006 to 2008 and securitized less than half of these loans.

Lawsuits related to contractual representations and warranties concerning mortgages and RMBS: When UBS acted as an RMBS sponsor or mortgage seller, it generally made certain representations relating to the characteristics of the underlying loans. In the event of a material breach of these representations, UBS was in certain circumstances contractually obligated to repurchase the loans to which the representations related or to indemnify certain parties against losses. In 2012, certain RMBS trusts filed an action in the US District Court for the Southern District of New York seeking to enforce UBS RESI's obligation to repurchase loans in the collateral pools for three RMBS securitizations issued and underwritten by UBS with an original principal balance of approximately USD 2 billion. In July 2018, UBS and the trustee entered into an agreement under which UBS will pay USD 850 million to resolve this matter. A significant portion of this amount will be borne by other parties that indemnified UBS. The settlement remains subject to court approval and proceedings to determine how the settlement funds will be distributed to RMBS holders. After giving effect to this settlement, UBS considers claims relating to substantially all loan repurchase demands to be resolved and believes that new demands to repurchase US residential mortgage loans are time-barred under a decision rendered by the New York Court of Appeals.

Mortgage-related regulatory matters: Since 2014, the US Attorney's Office for the Eastern District of New York has sought information from UBS pursuant to the Financial Institutions Reform, Recovery and Enforcement Act of 1989 (FIRREA), related to UBS's RMBS business from 2005 through 2007. On 8 November 2018, the DOJ filed a civil complaint in the District Court for the Eastern District of New York. The complaint seeks unspecified civil monetary penalties under FIRREA related to UBS's issuance, underwriting and sale of 40 RMBS transactions in 2006 and 2007. UBS moved to dismiss the civil complaint on 6 February 2019.

Our balance sheet at 30 June 2019 reflected a provision with respect to matters described in this item 2 in an amount that UBS believes to be appropriate under the applicable accounting standard. As in the case of other matters for which we have established provisions, the future outflow of resources in respect of this matter cannot be determined with certainty based on currently available information and accordingly may ultimately prove to be substantially greater (or may be less) than the provision that we have recognized.

3. Madoff

In relation to the Bernard L. Madoff Investment Securities LLC (BMIS) investment fraud, UBS AG, UBS (Luxembourg) S.A. (now UBS Europe SE, Luxembourg branch) and certain other UBS subsidiaries have been subject to inquiries by a number of regulators, including the Swiss Financial Market Supervisory Authority (FINMA) and the Luxembourg Commission de Surveillance du Secteur Financier. Those inquiries concerned two third-party funds established under Luxembourg law, substantially all assets of which were with BMIS, as well as certain funds established in offshore jurisdictions with either direct or indirect exposure to BMIS. These funds faced severe losses, and the Luxembourg funds are in liquidation. The documentation establishing both funds identifies UBS entities in various roles, including custodian, administrator, manager, distributor and promoter, and indicates that UBS employees serve as board members.

In 2009 and 2010, the liquidators of the two Luxembourg funds filed claims against UBS entities, non-UBS entities and certain individuals, including current and former UBS employees, seeking amounts totaling approximately EUR 2.1 billion, which includes amounts that the funds may be held liable to pay the trustee for the liquidation of BMIS (BMIS Trustee).

Note 16 Provisions and contingent liabilities (continued)

A large number of alleged beneficiaries have filed claims against UBS entities (and non-UBS entities) for purported losses relating to the Madoff fraud. The majority of these cases have been filed in Luxembourg, where decisions that the claims in eight test cases were inadmissible have been affirmed by the Luxembourg Court of Appeal, and the Luxembourg Supreme Court has dismissed a further appeal in one of the test cases.

In the US, the BMIS Trustee filed claims against UBS entities, among others, in relation to the two Luxembourg funds and one of the offshore funds. The total amount claimed against all defendants in these actions was not less than USD 2 billion. In 2014, the US Supreme Court rejected the BMIS Trustee's motion for leave to appeal decisions dismissing all claims except those for the recovery of approximately USD 125 million of payments alleged to be fraudulent conveyances and preference payments. In 2016, the bankruptcy court dismissed these claims against the UBS entities. The BMIS Trustee appealed. In February 2019, the Court of Appeals reversed the dismissal of the BMIS Trustee's remaining claims. The defendants, including UBS, are preparing a petition to the US Supreme Court requesting that it review the Court of Appeals' decision. The bankruptcy proceedings have been stayed pending a decision with respect to that petition.

4. Puerto Rico

Declines since 2013 in the market prices of Puerto Rico municipal bonds and of closed-end funds (funds) that are sole-managed and co-managed by UBS Trust Company of Puerto Rico and distributed by UBS Financial Services Incorporated of Puerto Rico (UBS PR) have led to multiple regulatory inquiries, as well as customer complaints and arbitrations with aggregate claimed damages of USD 3.2 billion, of which claims with aggregate claimed damages of USD 2.2 billion have been resolved through settlements, arbitration or withdrawal of the claim. The claims have been filed by clients in Puerto Rico who own the funds or Puerto Rico municipal bonds and / or who used their UBS account assets as collateral for UBS non-purpose loans; customer complaint and arbitration allegations include fraud, misrepresentation and unsuitability of the funds and of the loans.

A shareholder derivative action was filed in 2014 against various UBS entities and current and certain former directors of the funds, alleging hundreds of millions of US dollars in losses in the funds. In 2015, defendants' motion to dismiss was denied and a request for permission to appeal that ruling was denied by the Puerto Rico Supreme Court. In 2014, a federal class action complaint also was filed against various UBS entities, certain members of UBS PR senior management and the co-manager of certain of the funds, seeking damages for investor losses in the funds during the period from May 2008 through May 2014. Following denial of the plaintiffs' motion for class certification, the case was dismissed in October 2018.

In 2014 and 2015, UBS entered into settlements with the Office of the Commissioner of Financial Institutions for the Commonwealth of Puerto Rico, the US Securities and Exchange Commission (SEC) and the Financial Industry Regulatory Authority in relation to their examinations of UBS's operations.

In 2011, a purported derivative action was filed on behalf of the Employee Retirement System of the Commonwealth of Puerto Rico (System) against over 40 defendants, including UBS PR, which was named in connection with its underwriting and consulting services. Plaintiffs alleged that defendants violated their purported fiduciary duties and contractual obligations in connection with the issuance and underwriting of USD 3 billion of bonds by the System in 2008 and sought damages of over USD 800 million. In 2016, the court granted the System's request to join the action as a plaintiff, but ordered that plaintiffs must file an amended complaint. In 2017, the court denied defendants' motion to dismiss the amended complaint.

Beginning in 2015, and continuing through 2017, certain agencies and public corporations of the Commonwealth of Puerto Rico (Commonwealth) defaulted on certain interest payments on Puerto Rico bonds. In 2016, US federal legislation created an oversight board with power to oversee Puerto Rico's finances and to restructure its debt. The oversight board has imposed a stay on the exercise of certain creditors' rights. In 2017, the oversight board placed certain of the bonds into a bankruptcy-like proceeding under the supervision of a Federal District Judge. These events, further defaults or any further legislative action to create a legal means of restructuring Commonwealth obligations or to impose additional oversight on the Commonwealth's finances, or any restructuring of the Commonwealth's obligations, may increase the number of claims against UBS concerning Puerto Rico securities, as well as potential damages sought.

In May 2019 the oversight board filed complaints in Puerto Rico federal district court bringing claims against financial, legal and accounting firms that had participated in Puerto Rico municipal bond offerings, including UBS, seeking a return of underwriting and swap fees paid in connection with those offerings. UBS estimates that it received approximately USD 125 million in fees in the relevant offerings.

Our balance sheet at 30 June 2019 reflected provisions with respect to matters described in this item 4 in amounts that UBS believes to be appropriate under the applicable accounting standard. As in the case of other matters for which we have established provisions, the future outflow of resources in respect of such matters cannot be determined with certainty based on currently available information and accordingly may ultimately prove to be substantially greater (or may be less) than the provisions that we have recognized.

Note 16 Provisions and contingent liabilities (continued)

5. Foreign exchange, LIBOR and benchmark rates, and other trading practices

Foreign exchange-related regulatory matters: Beginning in 2013, numerous authorities commenced investigations concerning possible manipulation of foreign exchange markets and precious metals prices. In 2014 and 2015, UBS reached settlements with the UK Financial Conduct Authority (FCA) and the US Commodity Futures Trading Commission (CFTC) in connection with their foreign exchange investigations, FINMA issued an order concluding its formal proceedings relating to UBS's foreign exchange and precious metals businesses, and the Board of Governors of the Federal Reserve System (Federal Reserve Board) and the Connecticut Department of Banking issued a Cease and Desist Order and assessed monetary penalties against UBS AG. In 2015, the DOJ's Criminal Division terminated the 2012 non-prosecution agreement with UBS AG related to UBS's submissions of benchmark interest rates, and UBS AG pleaded guilty to one count of wire fraud, paid a fine and is subject to probation through January 2020. In 2019 the European Commission announced two decisions with respect to foreign exchange trading. UBS was granted immunity by the European Commission in these matters and therefore was not fined. UBS has ongoing obligations to cooperate with these authorities and to undertake certain remediation measures. UBS has also been granted conditional immunity by the Antitrust Division of the DOJ and by authorities in other jurisdictions in connection with potential competition law violations relating to foreign exchange and precious metals businesses. Investigations relating to foreign exchange matters by certain authorities remain ongoing notwithstanding these resolutions.

Foreign exchange-related civil litigation: Putative class actions have been filed since 2013 in US federal courts and in other jurisdictions against UBS and other banks on behalf of putative classes of persons who engaged in foreign currency transactions with any of the defendant banks. UBS has resolved US federal court class actions relating to foreign currency transactions with the defendant banks and persons who transacted in foreign exchange futures contracts and options on such futures under a settlement agreement that provides for UBS to pay an aggregate of USD 141 million and provide cooperation to the settlement classes. Certain class members have excluded themselves from that settlement and have filed individual actions in US and English courts against UBS and other banks, alleging violations of US and European competition laws and unjust enrichment.

In 2015, a putative class action was filed in federal court against UBS and numerous other banks on behalf of persons and businesses in the US who directly purchased foreign

currency from the defendants and alleged co-conspirators for their own end use. In March 2017, the court granted UBS's (and the other banks') motions to dismiss the complaint. The plaintiffs filed an amended complaint in August 2017. In March 2018, the court denied the defendants' motions to dismiss the amended complaint.

In 2017, two putative class actions were filed in federal court in New York against UBS and numerous other banks on behalf of persons and entities who had indirectly purchased foreign exchange instruments from a defendant or co-conspirator in the US, and a consolidated complaint was filed in June 2017. In March 2018, the court dismissed the consolidated complaint. In October 2018, the court granted plaintiffs' motion seeking leave to file an amended complaint.

LIBOR and other benchmark-related regulatory matters: Numerous government agencies, including the SEC, the CFTC, the DOJ, the FCA, the UK Serious Fraud Office, the Monetary Authority of Singapore, the Hong Kong Monetary Authority, FINMA, various state attorneys general in the US and competition authorities in various jurisdictions have conducted or are continuing to conduct investigations regarding potential improper attempts by UBS, among others, to manipulate LIBOR and other benchmark rates at certain times. In 2012, UBS reached settlements relating to benchmark interest rates with the UK Financial Services Authority, the CFTC and the Criminal Division of the DOJ, and FINMA issued an order in its proceedings with respect to UBS relating to benchmark interest rates. In addition, UBS entered into settlements with the European Commission and with the Swiss Competition Commission (WEKO) regarding its investigation of bid-ask spreads in connection with Swiss franc interest rate derivatives. UBS has ongoing obligations to cooperate with the authorities with whom we have reached resolutions and to undertake certain remediation measures with respect to benchmark interest rate submissions. In December 2018, UBS entered into a settlement agreement with the New York and other state attorneys general under which it has paid USD 68 million to resolve claims by the attorneys general related to LIBOR. UBS has been granted conditional leniency or conditional immunity from authorities in certain jurisdictions, including the Antitrust Division of the DOJ and WEKO, in connection with potential antitrust or competition law violations related to certain rates. However, UBS has not reached a final settlement with WEKO, as the Secretariat of WEKO has asserted that UBS does not qualify for full immunity.

Note 16 Provisions and contingent liabilities (continued)

LIBOR and other benchmark-related civil litigation: A number of putative class actions and other actions are pending in the federal courts in New York against UBS and numerous other banks on behalf of parties who transacted in certain interest rate benchmark-based derivatives. Also pending in the US and in other jurisdictions are a number of other actions asserting losses related to various products whose interest rates were linked to LIBOR and other benchmarks, including adjustable rate mortgages, preferred and debt securities, bonds pledged as collateral, loans, depository accounts, investments and other interest-bearing instruments. The complaints allege manipulation, through various means, of certain benchmark interest rates, including USD LIBOR, Euroyen TIBOR, Yen LIBOR, EURIBOR, CHF LIBOR, GBP LIBOR, USD and SGD SIBOR and SOR and Australian BBSW, and seek unspecified compensatory and other damages under varying legal theories.

USD LIBOR class and individual actions in the US: In 2013 and 2015, the district court in the USD LIBOR actions dismissed, in whole or in part, certain plaintiffs' antitrust claims, federal racketeering claims, CEA claims, and state common law claims. Although the Second Circuit vacated the district court's judgment dismissing antitrust claims, the district court again dismissed antitrust claims against UBS in 2016. Certain plaintiffs have appealed that decision to the Second Circuit. Separately, in 2018, the Second Circuit reversed in part the district court's 2015 decision dismissing certain individual plaintiffs' claims. UBS entered into an agreement in 2016 with representatives of a class of bondholders to settle their USD LIBOR class action. The agreement has received preliminary court approval and remains subject to final approval. In 2018, the district court denied plaintiffs' motions for class certification in the USD class actions for claims pending against UBS, and plaintiffs sought permission to appeal that ruling to the Second Circuit. In July 2018, the Second Circuit denied the petition to appeal of the class of USD lenders and in November 2018 denied the petition of the USD exchange class. In January 2019, a putative class action was filed in the District Court for the Southern District of New York against UBS and numerous other banks on behalf of US residents who, since 1 February 2014, directly transacted with a defendant bank in USD LIBOR instruments. The complaint asserts antitrust and unjust enrichment claims.

Other benchmark class actions in the US: In 2014, the court in one of the Euroyen TIBOR lawsuits dismissed certain of the plaintiffs' claims, including a federal antitrust claim, for lack of standing. In 2015, this court dismissed the plaintiffs' federal racketeering claims on the same basis and affirmed its previous dismissal of the plaintiffs' antitrust claims against UBS. In 2017, this court also dismissed the other Yen LIBOR / Euroyen TIBOR action in its entirety on standing grounds, as did the court in the CHF LIBOR action. Also in 2017, the courts in the EURIBOR lawsuit dismissed the cases as to UBS and certain other foreign defendants for lack of personal jurisdiction. In October 2018, the

court in the SIBOR / SOR action dismissed all but one of plaintiffs' claims against UBS. Plaintiffs in the CHF LIBOR and SIBOR / SOR actions have filed amended complaints following the dismissals, which UBS and other defendants have moved to dismiss. In November 2018, the court in the BBSW lawsuit dismissed the case as to UBS and certain other foreign defendants for lack of personal jurisdiction. Following that dismissal, plaintiffs in the BBSW action filed an amended complaint in April 2019, which UBS and other defendants named in the amended complaint have moved to dismiss. UBS and other defendants also moved to dismiss the GBP LIBOR action in December 2016, but that motion was denied as to UBS in December 2018. UBS moved for reconsideration of that decision in January 2019.

Government bonds: Putative class actions have been filed since 2015 in US federal courts against UBS and other banks on behalf of persons who participated in markets for US Treasury securities since 2007. A consolidated complaint was filed in 2017 in the US District Court for the Southern District of New York alleging that the banks colluded with respect to, and manipulated prices of, US Treasury securities sold at auction and in the secondary market and asserting claims under the antitrust laws and for unjust enrichment. Defendants' motions to dismiss the consolidated complaint are pending.

UBS and reportedly other banks are responding to investigations and requests for information from various authorities regarding US Treasury securities and other government bond trading practices. As a result of its review to date, UBS has taken appropriate action.

With respect to additional matters and jurisdictions not encompassed by the settlements and orders referred to above, our balance sheet at 30 June 2019 reflected a provision in an amount that UBS believes to be appropriate under the applicable accounting standard. As in the case of other matters for which we have established provisions, the future outflow of resources in respect of such matters cannot be determined with certainty based on currently available information and accordingly may ultimately prove to be substantially greater (or may be less) than the provision that we have recognized.

6. Swiss retrocessions

The Federal Supreme Court of Switzerland ruled in 2012, in a test case against UBS, that distribution fees paid to a firm for distributing third-party and intra-group investment funds and structured products must be disclosed and surrendered to clients who have entered into a discretionary mandate agreement with the firm, absent a valid waiver.

FINMA has issued a supervisory note to all Swiss banks in response to the Supreme Court decision. UBS has met the FINMA requirements and has notified all potentially affected clients.

Note 16 Provisions and contingent liabilities (continued)

The Supreme Court decision has resulted, and may continue to result, in a number of client requests for UBS to disclose and potentially surrender retrocessions. Client requests are assessed on a case-by-case basis. Considerations taken into account when assessing these cases include, among other things, the existence of a discretionary mandate and whether or not the client documentation contained a valid waiver with respect to distribution fees.

Our balance sheet at 30 June 2019 reflected a provision with respect to matters described in this item 6 in an amount that

UBS believes to be appropriate under the applicable accounting standard. The ultimate exposure will depend on client requests and the resolution thereof, factors that are difficult to predict and assess. Hence, as in the case of other matters for which we have established provisions, the future outflow of resources in respect of such matters cannot be determined with certainty based on currently available information and accordingly may ultimately prove to be substantially greater (or may be less) than the provision that we have recognized.

Note 17 Guarantees, commitments and forward starting transactions

The table below presents the maximum irrevocable amount of guarantees, commitments and forward starting transactions.

| USD million | 30.6.19 | | | | 31.3.19 | | | | 31.12.18 | | | |

¹ Cash to be paid in the future by either UBS or the counterparty.

Note 18 Currency translation rates

The following table shows the rates of the main currencies used to translate the financial information of UBS's operations with a functional currency other than the US dollar into US dollars.

| | Closing exchange rate | | | | Average rate ¹ | | | | |
|---------|-----------------------|---------|----------|---------|---------------------------|---------|---------|--------------|---------|
| | 30.6.19 | As of | | | For the quarter ended | | | Year-to-date | |
| | | 31.3.19 | 31.12.18 | 30.6.18 | 30.6.19 | 31.3.19 | 30.6.18 | 30.6.19 | 30.6.18 |
| 1 CHF | 1.02 | 1.00 | 1.02 | 1.01 | 1.00 | 1.00 | 1.01 | 1.00 | 1.03 |
| 1 EUR | 1.14 | 1.12 | 1.15 | 1.17 | 1.13 | 1.14 | 1.18 | 1.13 | 1.21 |
| 1 GBP | 1.27 | 1.30 | 1.28 | 1.32 | 1.28 | 1.31 | 1.34 | 1.30 | 1.37 |
| 100 JPY | 0.93 | 0.90 | 0.91 | 0.90 | 0.92 | 0.91 | 0.91 | 0.91 | 0.92 |

¹ Monthly income statement items of operations with a functional currency other than the US dollar are translated with month-end rates into US dollars. Disclosed average rates for a quarter represent an average of three month-end rates, weighted according to the income and expense volumes of all operations of the Group with the same functional currency for each month. Weighted average rates for individual business divisions may deviate from the weighted average rates for the Group.

UBS AG interim consolidated financial information (unaudited)

This section contains a comparison of selected financial and capital information between UBS Group AG consolidated and UBS AG consolidated. Refer to the UBS AG second quarter 2019 report, which will be available as of 26 July 2019 under "Quarterly reporting" at www.ubs.com/investors, for the interim consolidated financial statements of UBS AG.

Comparison between UBS Group AG consolidated and UBS AG consolidated

The accounting policies applied under International Financial Reporting Standards (IFRS) to both UBS Group AG and UBS AG consolidated financial statements are identical. However, there are certain scope and presentation differences as noted below:

- Assets, liabilities, operating income, operating expenses and operating profit before tax relating to UBS Group AG and its directly held subsidiaries, including UBS Business Solutions AG, are reflected in the consolidated financial statements of UBS Group AG but not of UBS AG. UBS AG's assets, liabilities, operating income and operating expenses related to transactions with UBS Group AG and its directly held subsidiaries, including UBS Business Solutions AG and other shared services subsidiaries, are not subject to elimination in the UBS AG consolidated financial statements, but are eliminated in the UBS Group AG consolidated financial statements. UBS Business Solutions AG and other shared services subsidiaries of UBS Group AG charge other legal entities within the UBS AG consolidation scope for services provided, including a markup on costs incurred.
- UBS Group AG consolidated equity was USD 0.8 billion higher than the equity of UBS AG consolidated as of 30 June 2019, mainly driven by higher dividends paid by UBS AG to UBS Group AG compared with the dividend distributions of UBS Group AG, as well as higher retained

earnings in the UBS Group AG consolidated financial statements, largely related to the aforementioned markup charged by shared services subsidiaries of UBS Group AG to other legal entities in the UBS AG scope of consolidation. These effects were partly offset by additional share premium recognized at the UBS AG consolidated level related to the establishment of UBS Group AG and UBS Business Solutions AG, a wholly owned subsidiary of UBS Group AG. UBS Group AG is also the grantor of the majority of the compensation plans of the Group and recognizes share premium for equity-settled awards granted, partly offset by the treasury shares held to hedge the related share delivery obligation and those acquired as part of our share repurchase program.

- Going concern capital of UBS AG consolidated was USD 3.5 billion lower than going concern capital of UBS Group AG consolidated as of 30 June 2019, reflecting additional tier 1 (AT1) capital of USD 4.4 billion partly offset by higher common equity tier 1 (CET1) capital of USD 0.9 billion.
- CET1 capital of UBS AG consolidated was USD 0.9 billion higher than that of UBS Group AG consolidated as of 30 June 2019. The difference in CET1 capital was primarily due to compensation-related regulatory capital accruals at the UBS Group AG level, partly offset by differences in equity, as mentioned above.
- Going concern loss-absorbing AT1 capital of UBS AG consolidated was USD 4.4 billion lower than that of UBS Group AG consolidated as of 30 June 2019, reflecting Deferred Contingent Capital Plan awards and AT1 capital notes. These AT1 capital notes were issued by UBS Group Funding (Switzerland) AG, a direct subsidiary of UBS Group AG, after the implementation of the new Swiss SRB framework, and only qualify as going concern loss-absorbing capacity at the UBS AG consolidated level.

1 As a result of the cross-border merger of UBS Limited into UBS Europe SE effective 1 March 2019, UBS Europe SE has become a significant regulated subsidiary of UBS Group AG. The size, scope and business model of the merged entity is now materially different. For more information on the cross-border merger of UBS Limited into UBS Europe SE, refer to the "Recent developments" section in our first quarter 2019 report. 2 UBS AG and UBS Switzerland AG financial information is prepared in accordance with Swiss GAAP (FINMA Circular 2015/1 and Banking Ordinance), but does not represent interim financial statements under Swiss GAAP. 3 UBS Europe SE financial information is prepared in accordance with International Financial Reporting Standards (IFRS), but does not represent interim financial statements under IFRS. 4 UBS Americas Holding LLC financial information is prepared in accordance with accounting principles generally accepted in the US (US GAAP), but does not represent interim financial statements under US GAAP. 5 For UBS AG and UBS Switzerland AG, based on applicable transitional arrangements for Swiss systemically relevant banks (SRBs). For UBS Europe SE, based on applicable EU Basel III rules. 6 Refer to the 30 June 2019 Pillar 3 report, which will be available as of 27 August 2019 under "Pillar 3 disclosures" at www.ubs.com/investors for more information. 7 For UBS AG, on the basis of going concern capital. On the basis of tier 1 capital for UBS Europe SE and UBS Americas Holding LLC. 8 There was no local disclosure requirement for UBS Americas Holding LLC as of 30 June 2019 and 31 March 2019. 9 For UBS Europe SE, figures as of 30 June 2019 are based on a four-month average rather than a twelve-month average, as data produced on the same basis is only available for the period since the cross-border merger. For 31 March 2019, month-end reporting date values are disclosed. 10 UBS AG is required to maintain a minimum liquidity coverage ratio of 105% as communicated by FINMA. 11 UBS Switzerland AG, as a Swiss SRB, is required to maintain a minimum liquidity coverage ratio of 100%. 12 Refer to the "Capital management" section of our Annual Report 2018 for more information on the joint and several liability. Under certain circumstances, the Swiss Banking Act and FINMA's Banking Insolvency Ordinance authorize FINMA to modify, extinguish or convert to common equity liabilities of a bank in connection with a resolution or insolvency of such bank.

UBS Group AG is a holding company and conducts substantially all of its operations through UBS AG and its subsidiaries. UBS Group AG and UBS AG contribute a significant portion of their respective capital and provide substantial liquidity to subsidiaries. Many of these subsidiaries are subject to regulations requiring compliance with minimum capital, liquidity and similar requirements. The tables in this section summarize the regulatory capital components and capital ratios of our significant regulated subsidiaries and sub-groups determined under the regulatory framework of each subsidiary's or sub-group's home jurisdiction.

Supervisory authorities generally have discretion to impose higher requirements or to otherwise limit the activities of subsidiaries. Supervisory authorities also may require entities to measure capital and leverage ratios on a stressed basis and may limit the ability of an entity to engage in new activities or take capital actions based on the results of those tests.

In June 2019, the Federal Reserve Board released the results of its Comprehensive Capital Analysis and Review (CCAR) and did not object to the capital plan of UBS Americas Holding LLC, our US intermediate holding company.

Standalone financial information for UBS AG, UBS Switzerland AG as well as UBS Group AG will be available as of 26 July 2019 under "Complementary financial information" at www.ubs.com/investors.

Standalone regulatory information for UBS AG and UBS Switzerland AG as well as consolidated regulatory information for UBS Europe SE and UBS Americas Holding LLC is provided in the 30 June 2019 Pillar 3 report, which will be available as of 27 August 2019 under "Pillar 3 disclosures" at www.ubs.com/investors.

Selected financial and regulatory information for UBS AG consolidated is included in the key figures table below. Refer also to the UBS AG second quarter 2019 report, which will be available as of 26 July 2019 under "Quarterly reporting" at www.ubs.com/investors.

| Personnel (full-time equivalents) ¹⁰ | 47,072 | 47,773 | 47,643 | 46,597 | 47,072 | 46,597 |

¹ Refer to the "Performance targets and measurement" section of our Annual Report 2018 for more information on our performance targets. ² Calculated as net profit attributable to shareholders (annualized as applicable) / average equity attributable to shareholders. ³ Calculated as net profit attributable to shareholders (annualized as applicable) / average equity attributable to shareholders less average goodwill and intangible assets. Effective 1 January 2019, the definition of the numerator for return on tangible equity has been revised to align with numerators for return on equity and return on CET1 capital; i.e., we no longer adjust for amortization and impairment of goodwill and intangible assets. Prior periods have been restated. ⁴ Calculated as net profit attributable to shareholders (annualized as applicable) / average common equity tier 1 capital. ⁵ Calculated as operating income before credit loss expense or recovery (annualized as applicable) / average risk-weighted assets and average leverage ratio denominator, respectively. ⁶ Calculated as operating expenses / operating income before credit loss expense or recovery. ⁷ Calculated as change in net profit attributable to shareholders from continuing operations between current and comparison periods / net profit attributable to shareholders from continuing operations of comparison period. ⁸ Based on the Swiss systemically relevant bank framework as of 1 January 2020. Refer to the "Capital management" section of this report for more information. ⁹ Includes invested assets for Global Wealth Management, Asset Management and Personal & Corporate Banking. ¹⁰ As of 30 June 2019, the breakdown of personnel by business division and Corporate Center was: Global Wealth Management: 22,883; Personal & Corporate Banking: 5,097; Asset Management: 2,240; Investment Bank: 4,999; Corporate Center: 11,854.

Information sources

Reporting publications

Annual publications: *Annual Report (SAP no. 80531)*: Published in English, this single-volume report provides descriptions of: our Group strategy and performance; the strategy and performance of the business divisions and Corporate Center; risk, treasury and capital management; corporate governance, corporate responsibility and our compensation framework, including information on compensation for the Board of Directors and the Group Executive Board members; and financial information, including the financial statements. *Auszug aus dem Geschäftsbericht (SAP no. 80531)*: This publication provides the translation into German of selected sections of the Annual Report. *Annual Review (SAP no. 80530)*: This booklet contains key information on our strategy and performance, with a focus on corporate responsibility at UBS. It is published in English, German, French and Italian. *Compensation Report (SAP no. 82307)*: The report discusses our compensation framework and provides information on compensation for the Board of Directors and the Group Executive Board members. It is available in English and German.

Quarterly publications: The quarterly financial report provides an update on our strategy and performance for the respective quarter. It is available in English.

How to order publications: The annual and quarterly publications are available in .pdf format at www.ubs.com/investors, in the "UBS Group AG and UBS AG consolidated financial information" section, and printed copies can be requested from UBS free of charge. For annual publications, refer to the "Investor services" section at www.ubs.com/investors. Alternatively, they can be ordered by quoting the SAP number and the language preference, where applicable, from UBS AG, F4UK–AUL, P.O. Box, CH-8098 Zurich, Switzerland.

Other information

Website: The "Investor Relations" website at www.ubs.com/investors provides the following information on UBS: news releases; financial information, including results-related filings with the US Securities and Exchange Commission; information for shareholders, including UBS share price charts as well as data and dividend information, and for bondholders; the UBS corporate calendar; and presentations by management for investors and financial analysts. Information on the internet is available in English, with some information also available in German.

Results presentations: Our quarterly results presentations are webcast live. A playback of most presentations is downloadable at www.ubs.com/presentations.

Messaging service: Email alerts to news about UBS can be subscribed to under "UBS news alert" at www.ubs.com/investors. Messages are sent in English, German, French or Italian, with an option to select theme preferences for such alerts.

Form 20-F and other submissions to the US Securities and Exchange Commission: We file periodic reports and submit other information about UBS to the US Securities and Exchange Commission (SEC). Principal among these filings is the annual report on Form 20-F, filed pursuant to the US Securities Exchange Act of 1934. The filing of Form 20-F is structured as a wrap-around document. Most sections of the filing can be satisfied by referring to the combined UBS Group AG and UBS AG annual report. However, there is a small amount of additional information in Form 20-F that is not presented elsewhere and is particularly targeted at readers in the US. Readers are encouraged to refer to this additional disclosure. Any document that we file with the SEC is available on the SEC's website www.sec.gov. Refer to www.ubs.com/investors for more information.

Cautionary Statement Regarding Forward-Looking Statements | This report contains statements that constitute "forward-looking statements," including but not limited to management's outlook for UBS's financial performance and statements relating to the anticipated effect of transactions and strategic initiatives on UBS's business and future development. While these forward-looking statements represent UBS's judgments and expectations concerning the matters described, a number of risks, uncertainties and other important factors could cause actual developments and results to differ materially from UBS's expectations. These factors include, but are not limited to: (i) the degree to which UBS is successful in the ongoing execution of its strategic plans, including its cost reduction and efficiency initiatives and its ability to manage its levels of risk-weighted assets (RWA) and leverage ratio denominator (LRD), including to counteract regulatory-driven increases, liquidity coverage ratio and other financial resources, and the degree to which UBS is successful in implementing changes to its businesses to meet changing market, regulatory and other conditions; (ii) the continuing low or negative interest rate environment in Switzerland and other jurisdictions, developments in the macroeconomic climate and in the markets in which UBS operates or to which it is exposed, including movements in securities prices or liquidity, credit spreads, and currency exchange rates, and the effects of economic conditions, market developments, and geopolitical tensions on the financial position or creditworthiness of UBS's clients and counterparties as well as on client sentiment and levels of activity; (iii) changes in the availability of capital and funding, including any changes in UBS's credit spreads and ratings, as well as availability and cost of funding to meet requirements for debt eligible for total loss-absorbing capacity (TLAC); (iv) changes in or the implementation of financial legislation and regulation in Switzerland, the US, the UK, the European Union and other financial centers that have imposed, or resulted in, or may do so in the future, more stringent or entity-specific capital, TLAC, leverage ratio, liquidity and funding requirements, incremental tax requirements, additional levies, limitations on permitted activities, constraints on remuneration, constraints on transfers of capital and liquidity and sharing of operational costs across the Group or other measures, and the effect these will or would have on UBS's business activities; (v) the degree to which UBS is successful in implementing further changes to its legal structure to improve its resolvability and meet related regulatory requirements and the potential need to make further changes to the legal structure or booking model of UBS Group in response to legal and regulatory requirements, proposals in Switzerland and other jurisdictions for mandatory structural reform of banks or systemically important institutions or to other external developments, and the extent to which such changes will have the intended effects; (vi) UBS's ability to maintain and improve its systems and controls for the detection and prevention of money laundering and compliance with sanctions to meet evolving regulatory requirements and expectations, in particular in the US; (vii) the uncertainty arising from the timing and nature of the UK's exit from the EU; (viii) changes in UBS's competitive position, including whether differences in regulatory capital and other requirements among the major financial centers will adversely affect UBS's ability to compete in certain lines of business; (ix) changes in the standards of conduct applicable to our businesses that may result from new regulation or new enforcement of existing standards, including recently enacted and proposed measures to impose new and enhanced duties when interacting with customers and in the execution and handling of customer transactions; (x) the liability to which UBS may be exposed, or possible constraints or sanctions that regulatory authorities might impose on UBS, due to litigation, contractual claims and regulatory investigations, including the potential for disqualification from certain businesses, potentially large fines or monetary penalties, or the loss of licenses or privileges as a result of regulatory or other governmental sanctions, as well as the effect that litigation, regulatory and similar matters have on the operational risk component of our RWA as well as the amount of capital available for return to shareholders; (xi) the effects on UBS's cross-border banking business of tax or regulatory developments and of possible changes in UBS's policies and practices relating to this business; (xii) UBS's ability to retain and attract the employees necessary to generate revenues and to manage, support and control its businesses, which may be affected by competitive factors; (xiii) changes in accounting or tax standards or policies, and determinations or interpretations affecting the recognition of gain or loss, the valuation of goodwill, the recognition of deferred tax assets and other matters; (xiv) UBS's ability to implement new technologies and business methods, including digital services and technologies and ability to successfully compete with both existing and new financial service providers, some of which may not be regulated to the same extent; (xv) limitations on the effectiveness of UBS's internal processes for risk management, risk control, measurement and modeling, and of financial models generally; (xvi) the occurrence of operational failures, such as fraud, misconduct, unauthorized trading, financial crime, cyberattacks, and systems failures; (xvii) restrictions on the ability of UBS Group AG to make payments or distributions, including due to restrictions on the ability of its subsidiaries to make loans or distributions, directly or indirectly, or, in the case of financial difficulties, due to the exercise by FINMA or the regulators of UBS's operations in other countries of their broad statutory powers in relation to protective measures, restructuring and liquidation proceedings; (xviii) the degree to which changes in regulation, capital or legal structure, financial results or other factors may affect UBS's ability to maintain its stated capital return objective; and (xix) the effect that these or other factors or unanticipated events may have on our reputation and the additional consequences that this may have on our business and performance. The sequence in which the factors above are presented is not indicative of their likelihood of occurrence or the potential magnitude of their consequences. Our business and financial performance could be affected by other factors identified in our past and future filings and reports, including those filed with the SEC. More detailed information about those factors is set forth in documents furnished by UBS and filings made by UBS with the SEC, including UBS's Annual Report on Form 20-F for the year ended 31 December 2018. UBS is not under any obligation to (and expressly disclaims any obligation to) update or alter its forward-looking statements, whether as a result of new information, future events, or otherwise.

Rounding | Numbers presented throughout this report may not add up precisely to the totals provided in the tables and text. Percentages, percent changes, and adjusted results are calculated on the basis of unrounded figures. Information on absolute changes between reporting periods, which is provided in text and that can be derived from figures displayed in the tables, is calculated on a rounded basis.

Tables | Within tables, blank fields generally indicate that the field is not applicable or not meaningful, or that information is not available as of the relevant date or for the relevant period. Zero values generally indicate that the respective figure is zero on an actual or rounded basis. Percentage changes are presented as a mathematical calculation of the change between periods.
