

# One planet, one future.

## Prioritizing climate

We launched our first climate strategy fifteen years ago. In the 2010s, we expanded our focus beyond our own operations, to encompass the protection of our assets and those of our clients, together with the mobilization of capital to tackle climate concerns. We refined our strategy by including, and disclosing, a growing number of climate-related metrics. As we move into the 2020s, we are taking steps to advance further. In 2022, we published a detailed roadmap for achieving net-zero greenhouse gas emissions resulting from all aspects of our business by 2050, with intermediate milestones established to ensure progress. We aim to lead by example – by continuously developing and refining our sustainable products and services, by focusing on climate risks in our company-wide risk management framework and operations, and by sharing best practice with stakeholders, such as authorities, central banks, policymakers, academia and peers.

## Key facts

**USD 251 billion** of sustainability focus and impact investments

**USD 23.4 billion** invested in our Climate Aware strategies – a pioneering approach to integrate the 2°C climate change scenario into an investment solution

**No financing** of new coal-fired power plant projects, new offshore oil projects in the Arctic, greenfield thermal coal mines or greenfield oil sands projects

**92% total reduction** in greenhouse gas emissions (vs. 2004)

**Engaging on climate** with 140 companies across sectors

**1st key4 Green Mortgages** Swiss real estate platform for investment properties offering sustainable mortgages launched in Switzerland

**103** issuances of green, social, sustainability or sustainability-linked bond deal transactions supported

**Set decarbonization targets** for 2030 for financing of the real estate, fossil fuel and power generation sectors

## External recognition

A-listed for environmental transparency and action to cut emissions, mitigate climate risks and develop the low-carbon economy (CDP).

We were awarded an A last year by CDP, which assessed the most important listed companies in the world on a scale from A to D.

## Our climate roadmap
