6 How long do we store your data?

We will only retain Personal Data for as long as necessary to fulfil the purpose for which it was collected or to comply with legal, regulatory or internal policy requirement. To help us do this, we apply criteria to determine the appropriate periods for retaining your Personal Data depending on its purpose.

In general, your Personal Data will be kept in our systems during your engagement with UBS for up to 10 years from the day that the contractual relationship between your employer and UBS terminates.

In relation to your other personal data that we obtain for specific purposes such as background check, or support activities we will only keep the data for a shorter period of time which is up to 3 years from the time of activity.

Your personal data (such as your name, signature, designation, business contact) captured in business activities that you perform may have different retention periods (shorter or longer). The retention periods are not linked to your engagement with UBS and are based on UBS's obligations in relation to the business activities (for example: your activities in relation to a client may be retained based on the retention requirements for client activities).

Your personal data that is relevant for legal claims or complaints, or as requested by public or regulatory authorities, may be held for the period that is reasonable for that activity. Such duration could exceed the above-specified periods (for example: litigation relevant data will be kept as per the litigation requirements).

We will usually, in response to a request, ask you to verify your identity and/or provide information that helps us to understand your request better. If we do not comply with your request, we will explain why.

In certain circumstances UBS may process your Personal Data through automated decision-making. Where this takes place, you will be informed of such automated decision-making that uses your Personal Data and be given information on criteria and procedures applied. You can request an explanation about automated decision making carried out and that a natural person reviews the related decision where such a decision is exclusively based on such processing.
