

NEURODIVERSITY INCLUSION CENTER

Getting Started with Virtual Consultations

What should I expect from a virtual consultation?

You will meet with a Board Certified Behavior Analysts (BCBA) with extensive experience in worksite accommodations and behavioral intervention for individuals with cognitive disabilities or variances. These experts are available 24/7 to answer questions, assist with problem-solving or provide strategies for managing employees with a neurodiverse condition.

After you enroll in the Rethink platform, you will have the opportunity to schedule time with these neurodiversity experts. We encourage you to start watching the e-learning video modules on the platform to familiarize yourself with neurodiversity inclusion in the workplace.

Please note: You must have an access code to unlock this feature. Contact olga.torresvillanueva@ubs.com if you do not have the code.

How do I get started?

GO TO www.rethinkbenefits.com/nic/ubs
