

NEURODIVERSITY INCLUSION CENTER Getting Started

How Rethink's Neurodiversity Inclusion Center can help.

The Neurodiversity Inclusion Center is an online and virtual resource for employees, managers and Human Resources to understand how to best hire, manage and work with neurodiverse employees at your company.

What should I expect from the Neurodiversity Inclusion Center?

You will have access to a suite of online learning modules that cover a variety of topics pertaining to neurodiversity in the workplace. Whether you are a hiring manager, a supervisor or non-supervisor, you will learn helpful skills on how to best communicate and support neurodiverse peers.

In addition, you will be able to meet virtually with a neurodiversity workplace accommodation expert. Our experts are available to help with specific questions or diversity and inclusion initiatives specific to your company.

Please note: You must have an access code to unlock this feature.
