Total renovation of UBS headquarters

Bahnhofstrasse 45, 8001 Zurich

The building technology needs to be replaced at the UBS headquarters at Bahnhofstrasse 45. We are using this opportunity to renovate the building completely and equip the building for future requirements. These renovations will align our headquarters with the future needs of customers and customer expectations. The purpose is to better integrate the building into the urban area and make it more accessible to the public. This will be accomplished with the implementation of the "Branch Format" concept in the historic main hall and with greater access to retail stores as well as a new cafe on the ground floor.

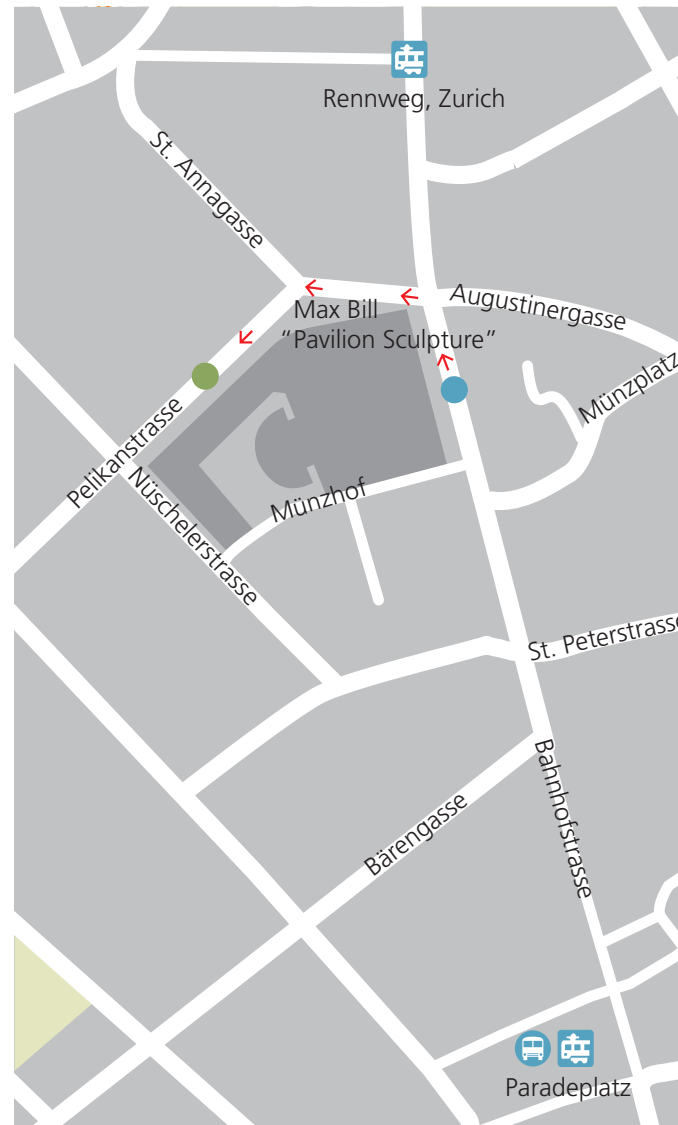

Provisional branch office

Pelikanstrasse 9a, 8001 Zurich

During the renovations you will have access to a 24-hour ATM area and three counters at the temporary branch office located at Pelikanstrasse 9a. Customer safes and the gold and precious-metals counters will be accessible at the new branch office (see site plan to the right).

Key data for renovations

Owner	UBS AG
Architect	EM2N Architekten AG
Renovations start	End of 2015
Reopening	End of 2018
Opening of provisional branch	October 2015
