Dear Shareholders,

The board of directors (the "**Board of Directors**") of the Merging UCITS, has decided to merge the Merging Sub-Fund into UBS (Lux) Bond SICAV – Emerging Economies Corporates (USD) (the "**Receiving Sub-Fund**"), a sub-fund of UBS (Lux) Bond SICAV, a *société d'investissement à capital variable*, formed and existing under the laws of the Grand Duchy of Luxembourg having its registered office at 33A, avenue J.F. Kennedy, L-1855, Grand Duchy of Luxembourg and registered with the RCS under number B 56385 (the "**Receiving UCITS**") in compliance with article 1(20)(a) of the law of 17 December 2010 on undertakings for collective investment as amended (the "**Merger**"). The Merger shall become effective on 13 December 2024 (the "**Effective Date**").

This notice describes the implications of the contemplated Merger. Please contact your financial advisor if you have any questions on the content of this notice. The Merger may impact your tax situation. Shareholders should contact their tax advisor for specific tax advice in relation to the Merger.

Capitalised terms not defined herein have the same meaning as in the prospectus of the Merging UCITS.

1. Background and rationale for the merger

- 1.1 The decision of the Board of Directors to proceed with the Merger was passed in the shareholders' interest and takes place in the context of the following rationale. Following a detailed review of the combined fund offering of each asset management division at UBS and Credit Suisse, the Merging Sub-Fund has been identified as overlapping in terms of investment objective and universe, as UBS offers a comparable product in the form of the Receiving Fund. The aim of merging the Merging Sub-Fund with the Receiving Sub-Fund is to manage the sub-funds more cost-efficiently in the interests of investors through the takeover of Credit Suisse Group AG by UBS Group AG and as part of the integration of Credit Suisse into UBS.
- 1.2 The Merger of the Merging Sub-Fund into the Receiving Sub-Fund will result in an overall increase of assets under management and therefore the Boards believe that the Merger is in the interest of the shareholders of the Merging Sub-Fund and the Receiving Sub-Fund, respectively.

2. Summary of the merger

- 2.1 The Merger shall become effective and final between the Merging Sub-Fund and the Receiving Sub-Fund and vis-à-vis third parties on the Effective Date.
- 2.2 On the Effective Date, all assets and liabilities of the Merging Sub-Fund will be transferred to the Receiving Sub-Fund. The Merging Sub-Fund will cease to exist as a result of the Merger and thereby will be dissolved on the Effective Date without going into liquidation.
- 2.3 No general meeting of Shareholders shall be convened in order to approve the Merger and Shareholders are not required to vote on the Merger.
- 2.4 The Shareholders holding shares of the Merging Sub-Fund on the Effective Date will automatically be issued shares of the Receiving Sub-Fund in exchange for their shares of the Merging Sub-Fund, in accordance with the relevant share exchange ratio and participate in the results of the respective Receiving Sub-Fund as from such date. Shareholders will receive a confirmation note of their holding in the Receiving Sub-Fund as soon as practicable after the Effective Date. For more detailed information please see section 5 (*Rights of Shareholders in relation to the Merger*) below.
- 2.5 Subscriptions and/or conversions of shares of the Merging Sub-Fund will be suspended from 25 October 2024 to 13 December 2024 in order to implement the procedures needed for the Merger in an orderly and timely manner as indicated under section 6 (*Procedural aspects*) below.
- 2.6 Redemptions of shares of the Merging Sub-Fund will be suspended from 6 December 2024 to 13 December 2024 in order to implement the procedures needed for the Merger in an orderly and timely manner as indicated under section 6 (*Procedural aspects*) below.
- 2.7 Other procedural aspects of the Merger are set out in section 6 (*Procedural aspects*) below.
- 2.8 The Merger has been authorised by the *Commission de Surveillance du Secteur Financier* (the "**CSSF**").

2.9 The timetable below summarises the key steps of the Merger.

Shareholders of the Merging Sub-Fund should carefully read the description of the Receiving Sub-Fund in the prospectus of the Receiving UCITS and in the KID of the Receiving Sub-Fund before making any decision in relation to the Merger.

The investment manager of the Merging Sub-Fund, UBS Asset Management Switzerland AG, in agreement with the investment manager of the Receiving Sub-Fund, UBS Asset Management (Americas) LLLC, New York, with the aim to ensure the transferring portfolio is in line with the investment strategy of the Receiving Sub-Fund, will sell part/most] of the underlying assets within the notice period (from 4 November 2024 to 12 December 2024). During this period, the investment rules and restrictions will be waived. [The Merging Sub-Fund’s portfolio will be partially liquidated, and the resulting cash and any remaining assets transferred to the Receiving Sub-Fund on the Effective Date].

3.1 Investment objective and policy

Merging Sub-Fund	Receiving Sub-Fund
-------------------------	---------------------------

Investment Objective

The main objective of the Subfund is to achieve return in excess of the Emerging Market bond market by investing in US Dollar-denominated or US Dollar hedged investment grade and below investment grade of debt securities and similar debt instruments issued by borrowers by institutions and corporations having their head office in, or conducting a significant part of their business in, Emerging Market countries.

This Subfund aims to outperform the return of the JP Morgan Corporate Emerging Markets Bond Index Broad Diversified Composite benchmark. The Subfund is actively managed. The benchmark is used as a reference point for portfolio construction and as a basis for setting risk constraints, and/or for performance fee measurement purposes. The majority of the Subfund's exposure to bonds will not necessarily be components of or have weightings derived from the benchmark. The Investment Manager may use its discretion to materially deviate the weighting of certain components of the benchmark and to invest to a large extent in bonds not included in the benchmark in order to take advantage of specific investment opportunities. It is thus expected that the performance of the Subfund will materially deviate from the benchmark.

Investment Principles

At least two-thirds of the Subfund's assets shall be invested in debt instruments, bonds, notes and similar fixed interest or floating-rate securities (including zero bonds), short-term debt instruments and rights, and similar debt instruments that are issued or guaranteed by corporations (including government-owned corporations) which are domiciled in or carry out the bulk of their business activities in an emerging market country and that are listed on an exchange or dealt in on another market which is regulated, operates regularly, and is open to the public. Furthermore, the Subfund's net assets may also be invested up to 30% in debt securities and rights (including zero bonds), short-term debt securities and rights, and similar debt instruments that are issued or guaranteed by sovereign issuers of an emerging market country and that are listed on an exchange or dealt in on another market which is regulated, operates regularly, and is open to the public.

The Subfund may invest in Onshore Renminbi denominated debt securities which are traded on the China interbank bond market (the "Onshore Debt Securities"). For the purposes of this Prospectus, "PRC" refers to the People's Republic of China (excluding the Hong Kong and Macau Special Administrative Regions and Taiwan) and the term "Chinese" shall be construed accordingly.

A significant part of the Subfunds' net assets will be denominated in or hedged into US Dollar. For the remaining part, the Subfund may contract futures and options as well as swap transactions (interest-rate swaps, inflation swaps and total return swaps) for the purpose of hedging and efficient portfolio management, provided due account is taken of the investment restrictions set out in Chapter 6, "Investment Restrictions". The Subfund may actively manage its currency exposure and credit exposure through the use of foreign exchange forwards and credit default swaps.

No more than 30% of the Subfund's net assets may be invested in debt instruments and rights that are denominated in the currency of

Investment objective and investment policy

UBS Asset Management categorises this sub-fund as an ESG integration fund which does not promote particular ESG characteristics or pursues a specific sustainability or impact objective.

This actively managed sub-fund uses the benchmark JP Morgan CEMBI Diversified USD Index as reference for portfolio construction, performance evaluation and risk management purposes. For share classes with "hedged" in their name, currency-hedged versions of the benchmark (if available) are used. Although part of the portfolio may be invested in the same instruments and applying the same weightings as the benchmark, the Portfolio Manager is not constrained by the benchmark in terms of choice of instruments. In particular, the Portfolio Manager may at its own discretion invest in bonds of issuers that are not contained in the benchmark and/or structure the share of the investments in sectors in a way that differs from their weighting in the benchmark, with a view to exploiting investment opportunities. The performance of the sub-fund may therefore differ considerably from the benchmark during periods of high market volatility.

The objective of the sub-fund is to generate above-average long-term returns with a portfolio of corporate bonds issued by borrowers from emerging markets. To achieve this objective, the sub-fund invests predominantly in fixed-income and floating-rate securities issued by companies domiciled or chiefly active in emerging markets. These securities do not need a rating from a recognised rating agency (e.g. Moody's, S&P or Fitch).

The sub-fund may invest no more than 20% of its net assets in fixed-income instruments denominated in RMB and traded on the China Interbank Bond Market ("CIBM") or through Bond Connect. These instruments may include securities issued by governments, quasi-public corporations, banks, corporations and other institutions in the People's Republic of China ("PRC" or "China") that are authorised to be traded directly on the CIBM or through Bond Connect. The associated risks are described in the section "Risk information on investments traded on the China Interbank Bond Market" and "Risk information on investments traded on the CIBM via the Northbound Trading Link through Bond Connect".

<p>a single country that is not a member of the OECD. However, there is no restriction on the overall weighting of investments denominated in currencies of non-OECD countries. The investments of the Subfund may be denominated in a limited number of currencies, or in a single currency. For the purpose of the present para. (2), OECD member states that are emerging market countries are treated as non-OECD member states.</p> <p>The Subfund may also invest up to 20% of its net assets in asset-backed securities (ABS) and mortgage-backed securities (MBS). Furthermore, the Subfund may invest:</p> <ul style="list-style-type: none"> ▪ up to 20% of its net assets in convertible bonds or debt securities with warrants issued by companies that have their registered office in an emerging market country and that are listed or traded on an exchange or a regulated market; ▪ up to 30% of its net assets in debt securities and rights denominated in a freely convertible currency that are issued or guaranteed by government or corporate issuers from developed countries and that are listed or traded on an exchange or a regulated market. <p>The investments pursuant to the paragraph above may not in total exceed one third of the Subfund's total assets (without taking into account ancillary cash and cash equivalents).</p>
