

# UBS Life UK Large & Mid Cap Tracker Fund

**Fund Type**

Passive UK equities for exempt approved UK pension funds

**Fund objective**

The Fund aims to match the performance of the FTSE 350 Index.

**Fund description**

The Fund invests in the shares of larger UK companies.

Past performance is not a guide to future performance. The value of investments and the income from them can go down as well as up and are not guaranteed. You may not get back the amount originally invested.

Performance is based upon the underlying net asset value (NAV) price of 'A' Units. 'A' Units do not incur any fees or charges levied by the manager. The Fund is priced as at month end for performance and reporting purposes.

As at 1 July 2015 companies involved in controversial weapons were banned from the passive market capitalisation weighted life funds. The stocks are identified by Ethix SRI Advisors. Given their relatively low number and index weightings, the ban has a minimal impact on expected tracking errors<sup>4</sup>. However, for the affected funds, at an individual stock level there may be a few larger weight deviations relative to the index than observed previously.

	1 year	3 years	5 years
Annualised Standard Deviation of Fund <sup>5</sup>	11.20	9.77	9.78
Annualised Standard Deviation of Index <sup>5</sup>	11.23	9.80	9.79
Tracking Error <sup>6</sup>	0.05	0.06	0.05

<sup>5</sup>For periods greater than 1 year, the annualised standard deviation is based on monthly logarithmic returns. <sup>6</sup>Tracking error is the standard deviation of the difference between the monthly portfolio and benchmark returns, based on logarithmic returns and is annualised for periods greater than 1 year. Please note that historical tracking error is not a guide to the future. Tracking error levels will vary according to market conditions. For periods greater than 1 year, annualised returns are used to calculate the value added and the tracking error. <sup>4</sup>Ex-ante tracking error is calculated using an appropriate risk system and risk model. The ex-ante tracking error is an indicative forecast only and may not reflect the realised (ex-post) tracking error experienced by the Portfolio.

### Economic overview

Prime Minister Theresa May's time at 10 Downing Street came to a close as she announced her intention to resign after talks with the opposition Labour party broke down. This meant no viable path remained for her Brexit deal with the EU to be approved by parliament, and paves the way for a new Conservative party leader to be elected over the summer months. Sterling fell as these events made a no-deal Brexit appear more likely.

While the Bank of England kept interest rates steady at 0.75% over the quarter, policymakers reduced expectations for economic growth for the remainder of 2019 and into 2020 amid Brexit uncertainty.

The pace of interest rate increases seems likely to be increasingly gradual as a result.

GDP growth of 0.5% over the first quarter was a positive surprise, driven by strong manufacturing activity. Inflation remained subdued with core inflation for May dropping to the lowest level since early 2017.

### Fund manager comment

Following the FTSE quarterly review in June, seven stocks were added to the index and seven stocks were deleted from the index, along with various changes in the shares in issue of the index constituents were made. Two-way turnover totalled 0.93%

Also during the quarter, but outside of the review, Jardine Lloyd Thompson Group was acquired for cash. AstraZeneca's weighting in the index increased following equity offering. Dairy Crest Group was acquired for cash.

Activity in the Fund reflected these changes.
