How did the Fund perform last year and what affected its performance?

Portfolio performance summary

What worked:

- Security selection within consumer staples and materials added value.
- Underweight to consumer staples and overweight to information technology sectors also contributed positively relative to the benchmark.
- On a stock level, Nestle S.A., Taiwan Semiconductor Manufacturing, and Constellation Software were among top contributors.
- On a factor level, exposures to momentum and earnings-yield factors helped performance.

What didn't work:

- Security selection within financials and consumer discretionary detracted.
- On a stock level, Kering SA, Genmab A/S, and SolarEdge Technologies were among the main detractors.
- On a factor level, exposures to residual volatility and beta factors hurt performance.

The Fund did not invest in derivatives during the reporting period.
