**UBS Investor Watch methodology**

UBS Wealth Management Americas surveys U.S. investors on a quarterly basis to keep a pulse on their needs, goals and concerns. After identifying several emerging trends in the survey data, UBS decided in 2012 to create the *UBS Investor Watch* to track, analyze and report the sentiment of affluent and high net worth investors.

*UBS Investor Watch* surveys cover a variety of topics, including:
- Overall financial sentiment
- Economic outlook and concerns
- Personal goals and concerns
- Key topics, like aging and retirement

For this nineteenth edition of *UBS Investor Watch*, 2,272 affluent and high net worth investors (with at least $1 million in investable assets) participated from March 28 – April 3, 2017, including 510 with at least $5 million. We also included an oversample of 383 business owners who have at least one employee besides themselves. With 90 survey respondents, we conducted qualitative follow-up interviews.
