VIDEO: Why the historic sell-off for Munis?

5 June 2025, 15:10 UTC, written by UBS Editorial Team US Editorial Team

With new legislation potentially on the horizon, and a Fed that is paying close attention to rates, how are municipal bonds positioned for what's ahead? PIMCO's David Hammer sits down with the UBS Studios team to share his take.

Muni market volatility and yields have declined after spiking in April, helping muni funds to see strong inflows. Despite the rally, munis continue to underperform on a YTD basis. The Bloomberg muni index's tax-equivalent yield in excess of 6.8% is still attractive, reflecting a buyer's market.

Fixed income remains a hot topic, especially as markets continue to diverge with new legislation potentially on the horizon and a Fed that is paying very close attention to rates. UBS Trending host Anthony Pastore leads the discussion on how municipal bonds are positioned for what's ahead.
